June 26, 2017

To the School Board, citizens, and employees of
Independent School District 196

INTRODUCTION

Pursuant to the Minnesota Statute 123B.77, we are pleased to submit the district's 2017-18 Preliminary Budget for your review and approval.

This budget has been developed with considerable input from the School Board, the district's Budget Advisory Council, members of the superintendent's cabinet and the district's learning leaders. It was prepared in accordance with the budget planning guidelines reviewed by the district's Budget Advisory Council and School Board in January and February 2017. It was also reviewed by the School Board at its regular meeting on June 12, 2017. This budget seeks to continue to support the district's mission of *"Educating our students to reach their full potential,"* and keep expenditures and taxpayer burden to a minimum.

This budget has been designed to give readers a better understanding of the financial structure and budgeting process of the district. All budgets have been organized using a pyramid approach so readers may progress from an overview to greater levels of detail. The pyramid approach begins with a summary of all fund categories and then presents individual funds. Readers are able to work their way "down" the pyramid and budget details become more specific as they move from the beginning to the end of the document.

REPORT FORMAT

This budget format is based on the requirements of the Association of School Business Officials International's (ASBO'S) Meritorious Budget Award (MBA) program. The MBA program sets minimum standards for the presentation and issuance of school budgets in the United States and Canada. It is also used for selection of the best budgets to receive a MBA. The District received the ASBO Meritorious Budget Award for fiscal years 2015-16 and 2016-17.

This budget document is presented in four sections:

- The **Introductory Section – I** is an executive summary of the remaining three sections described below.
- The **Organizational Section – II** provides an explanation of the district's legal autonomy, governance structure, mission and goals. In addition, it discusses the policies, assumptions and procedures used in developing the budget.
- The **Financial Section – III** is organized into four levels, using a pyramid approach to provide a further level of detail in each level. The four levels are as follows:
 - Level One – Summary of All Funds
 - Level Two – Summary of General Fund
 - Level Three – Summary of Individual Funds
 - Level Four – Summary of Individual School/Sites
- The **Informational Section – IV** provides selected financial, demographic, and economic data on a multi-year comparative basis.

Educating our students to reach their full potential

Serving all or part of Rosemount, Apple Valley, Eagan, Burnsville, Coates, Inver Grove Heights, Lakeville, and Empire and Vermillion Townships

www.district196.org

REPORTING ENTITY AND ITS SERVICES

The district was incorporated in 1950 and serves a portion of nine suburban communities within Dakota County located on the southeastern edge of the Minneapolis/St. Paul metropolitan area. The district provides a full range of public education services appropriate to grade levels ranging from pre-kindergarten through grade 12.

DISTRICT MISSION AND STRAEGIC PLAN

Mission: *Educating our students to reach their full potential*

Belief Statements:

- Students come first
- All students can learn
- High expectations inspire students and staff to excel
- Learning is maximized in a safe, respectful and inclusive environment
- A well-rounded education includes opportunities in academics, the arts and athletics
- Learning is a lifelong pursuit
- Effective management of resources is critical
- Partnerships and collaboration enhance educational programming
- A culture of innovation and continuous improvement prepares students to be college or career ready
- An informed and engaged community guides effective decision-making

FINANCIAL AND BUDGETARY CONTROL

The management of the district is responsible for establishing and maintaining internal controls designed to ensure that the assets of the district are protected from theft, misuse or losses.

The internal control system is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: 1) the cost of a control should not exceed the benefits likely to be derived, and 2) the valuation of the costs and benefits requires estimates and judgments by management.

The district's budget process is based, first, on development of a budget projection model that attempts to project resources and expenses over a multiple-year period. The budget projection is used by the School Board and the administration to determine budget parameters and staffing guidelines. This budget has been prepared in accordance with the budget parameters and personnel staffing guidelines approved by the School Board on February 8, 2017.

Legal budgetary control is at the fund level; however, directors, principals, coordinators and other budget managers are responsible for monitoring their budget centers within each of the funds. All appropriations lapse at year-end.

FISCAL SUMMARY

The following is a summary listing of the budget for each of the fund groups contained in the 2017-18 Preliminary Budget:

	Projected Fund Balance July 1, 2017	Revenues	Expenditures	Other Financing Sources (Uses)	Fund Balance June 30, 2018
General Fund	29,225,761	352,667,592	358,000,133	-	23,893,220
Special Revenue Funds	2,858,071	21,322,334	21,055,987	-	3,124,418
Building Construction Fund	85,795,724	500,000	62,449,998	-	23,845,726
Debt Service Funds	5,058,504	16,656,169	18,788,870	-	2,925,803
Internal Service Funds	33,363,937	46,150,000	47,250,000	-	32,263,937
Fiduciary Funds	558,015	157,583	160,833	-	554,765
	156,860,012	437,453,678	507,705,821	-	86,607,869

FINANCIAL PROSPECTS FOR FUTURE YEARS

The district is dependent on the state of Minnesota for a majority of its revenue. Over the past decade, state funding for education has not kept pace with inflation. Increases to the basic general education funding formula have been significantly less than inflation.

While the state's economy has continued to improve, the 2017 Legislature prioritized targeted tax relief to additional investment spending. While the legislative session ended with an approved 2 percent increase to the basic general education formula allowance for the biennium, there was no financial consideration for other areas of great need to our district including special education funding.

The district supplements state funding through voter approved tax levies. The passage of the November 2013 excess operating levy enables the district to maintain quality programs that the community expects for its students in the general fund. While substantial in amount, the lack of adequate state funding coupled with the increasing costs of providing quality education does not forestall the need for continued monitoring of the district's future financial outlook.

The district is committed to continue to engage staff and community members in further budget discussions and to consider other options for increasing revenues and containing expenditure growth. Presented below is a table summarizing the projected outlook of the district's operating fund, special revenue funds, and debt service funds.

	2015-16 Actual	2016-17 Final Budget	2017-18 Prelim Budget	2018-19 Projection	2019-20 Projection
General Fund					
Revenue	336,554,666	344,354,472	352,667,592	358,853,107	363,137,799
Expenditure	329,388,523	351,278,185	358,000,133	375,071,355	388,165,760
	<u>31,052,211</u>	<u>24,128,498</u>	<u>18,795,957</u>	<u>2,577,709</u>	<u>(22,450,252)</u>
Special Revenue Funds					
Revenue	19,864,723	20,736,055	21,312,608	21,660,001	22,017,461
Expenditure	18,657,527	11,995,373	21,055,987	21,610,150	22,064,867
	<u>3,224,753</u>	<u>11,965,435</u>	<u>12,222,056</u>	<u>12,271,907</u>	<u>12,224,501</u>
Debt Service Funds					
Revenue	14,654,546	17,332,906	16,656,169	29,831,223	17,970,628
Expenditure	13,994,750	19,637,353	18,788,870	28,408,070	17,111,170
	<u>7,362,951</u>	<u>5,058,504</u>	<u>2,925,803</u>	<u>4,348,956</u>	<u>5,208,414</u>

ACKNOWLEDGEMENTS

This budget document requires many hours of preparation, deliberation and review on the part of the School Board, Budget Advisory Council members, superintendent, budget managers and members of the finance department. Many thanks go to all involved for their efforts in preparing this important budget document.

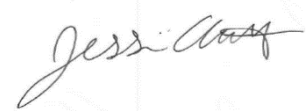

Respectfully,

Jeffrey M. Solomon
Director of Finance and Operations

Christopher Onyango-Robshaw
Coordinator of Finance

Mgr. of Financial Systems/Reporting
& Compliance

SECTION I

Introductory Section

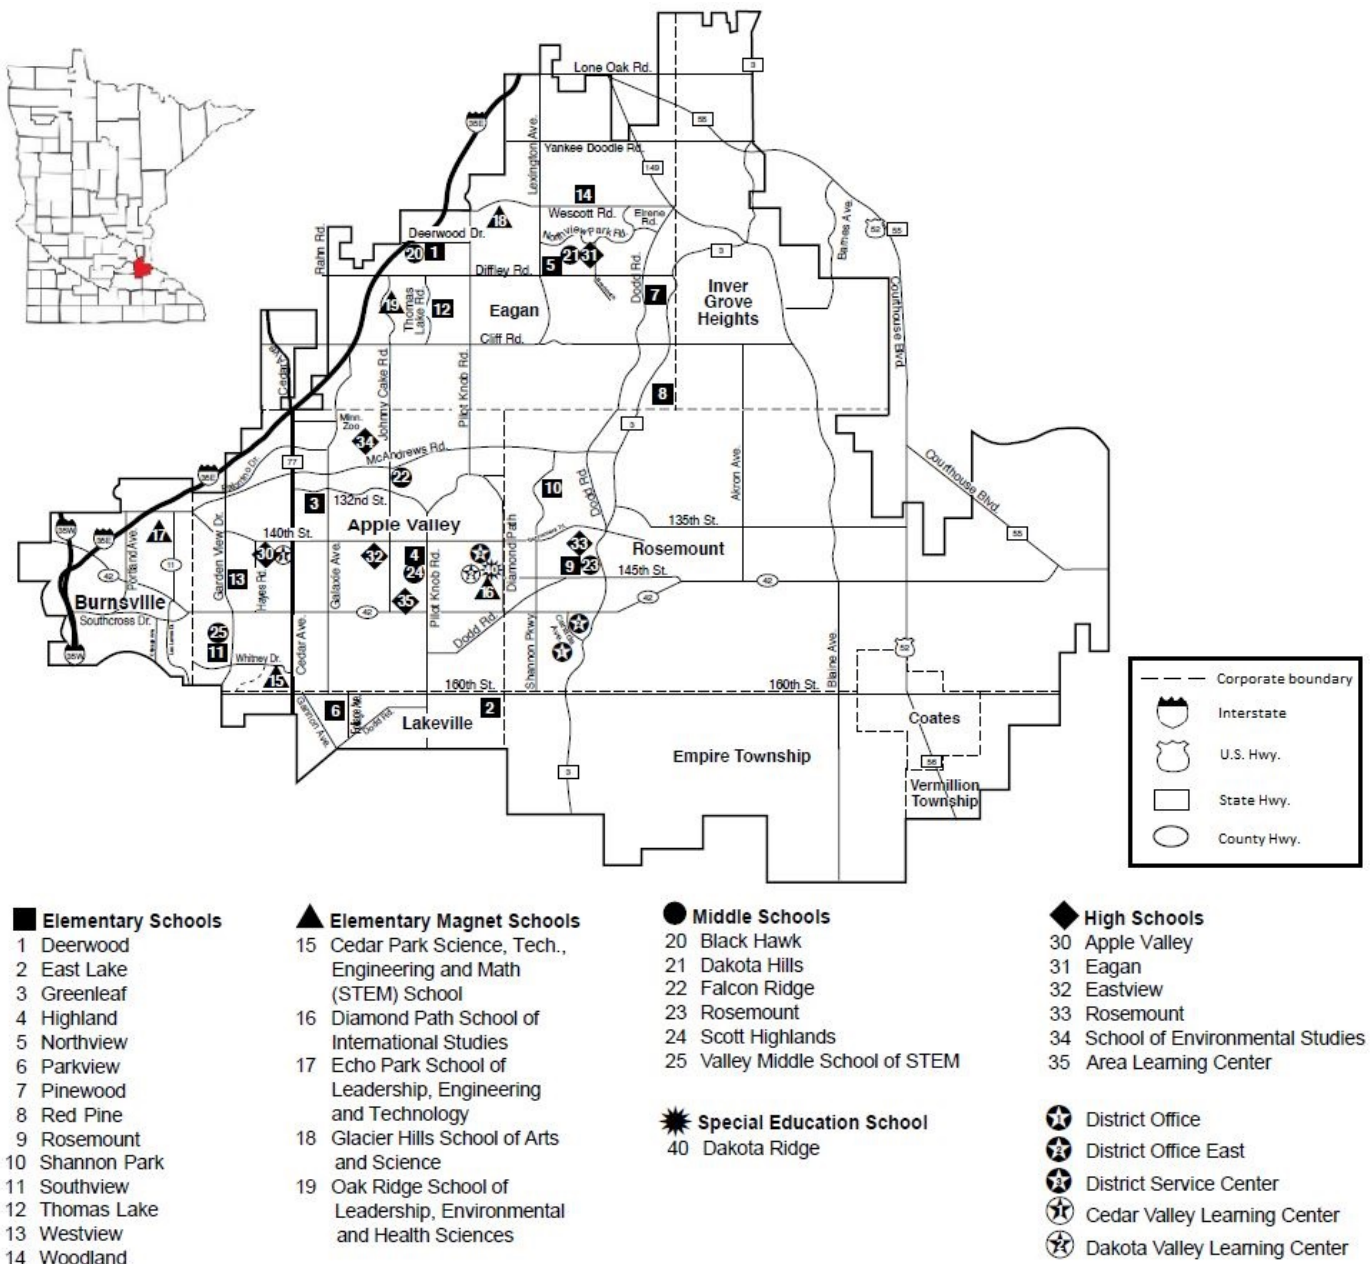

Our District

Independent School District 196 is a public school district in Dakota County, Minnesota serving approximately 28,500 students in early childhood programs through grade 12 and Community Education programming for the district's more than 150,000 total residents. The mostly suburban district covers 110 square miles in Dakota County and serves all or parts of the cities of Rosemount, Apple Valley, Eagan, Burnsville, Coates, Inver Grove Heights, and Lakeville, and Empire and Vermillion townships.

The district operates its programs in 34 facilities, including 19 elementary schools, six middle schools, four comprehensive high schools, an optional high school for grades 11-12, an alternative high school, a school for students with special needs and two learning centers for early childhood family education and adult basic education. The district also has three facilities that provide support services.

Our Students

With a population of approximately 28,800 students, District 196 is the fourth largest public school district in Minnesota. The district's enrollment has remained stable over the last five years, with changes of less than 1 percent year to year. Going forward, the district is projecting modest enrollment increases of approximately 0.3 percent annually. The graph below shows the district's actual October 1 enrollment for the years ended June 30, 2013 through 2018 and projected October 1 enrollment for the years ended June 30, 2019 through 2022.

The pie chart below shows the ethnicity of District 196 students. The percentage of White students decreased from 72 percent in 2012 to 65 percent in 2017, while the percentage of Black, Hispanic, and Asian students has increased. During this same time period, the percentage of students qualifying for free or reduced-price school meals increased from 22.5 percent in 2012 to 23.8 percent in 2017. Although below the statewide average of 37.7 percent in 2017, the percentage of students living in poverty in District 196 has increased faster than the State.

Percent of Student by Ethnicity					
Year	White	Black	Hispanic	Asian	A.Indian
2013	72	11	7	9	1
2014	70	12	8	9	1
2015	68	13	8	10	1
2016	67	13	9	10	1
2017	65	14	9	11	1

STUDENT ETHNICITY

Along with changing demographics and diversity, the district has an increasing population of students with a variety of needs. In 2017, approximately 1,748 (6.42 percent) of our students were eligible for English Learner (EL) programs. These programs help to ensure that students learning English have equal access to a high-quality education. Students in the district's EL programs come from homes where a language other than English is spoken. There are 103 languages represented among District 196 students. Approximately 4,239 (15.56 percent) of District 196 students qualify to receive special education services to assist in their education as specified in each qualifying student's Individualized Education Program (IEP).

Our School Board and Administration

The School Board is the governing body of the district, responsible for developing policies to ensure the proper care, management and control of district affairs, and supporting the mission of *educating our students to reach their full potential*. The board approves staff hiring, sets the annual local school levy, approves expenditures and educational programs (curriculum), and otherwise ensures that proper facilities and equipment are available to support teaching and learning in the district.

The seven School Board members are elected at large in odd-numbered years and serve four-year terms. The board typically holds regular meetings on the second and fourth Monday of each month, as well as workshops, committee meetings and public hearings, as needed. The public is invited to attend board meetings and may address items on the agenda during the open forum and special communication portions of the meeting.

The superintendent is appointed by and responsible to the School Board, and is the sole official representative and spokesperson of the district.

The superintendent's administrative cabinet provides leadership to facilitate the successful operations of district programs, activities and services within the parameters of School Board policy.

Our Staff

FULL-TIME EQUIVALENT EMPLOYEES BY GROUP

The district employs approximately 4,000 full-and part-time staff. The majority are teachers and classified staff who provide support to the classroom. The graph to the left shows the number of full-time equivalent (FTE) staff employed by the district. Almost all district employees are organized under one of the eight collective bargaining agreements (CBAs) in effect between the groups and the district. The eight CBAs currently in effect are: teachers, principals, secretarial and clerical, building chiefs, custodial, food service, bus drivers and vehicle technicians. The remaining employees, primarily district office directors, coordinators and administrators, work under a special staff contract which is not collectively bargained.

The table below shows the history of FTEs by employee group. Staffing has remained stable over the last several years.

Employee Group	2013-14 Actual	2014-15 Actual	2015-16 Actual	2016-17 Actual	2017-18 Prelim Budget
Teachers	1,918.90	1,988.90	2,015.53	2,012.73	2,059.67
Secretarial and clerical	649.60	651.00	640.06	642.29	670.41
Custodial	145.00	142.00	148.50	149.50	148.75
Bus drivers and chaperones	202.24	201.71	201.71	239.00	271.00
Food service	98.22	111.69	101.06	100.86	108.29
Administrators & special staff	133.69	137.90	144.48	153.66	144.59
Principals	65.75	66.86	66.04	67.33	70.59
Building chiefs	32.00	31.00	31.00	32.00	33.00
Vehicle technicians	8.00	7.00	9.00	8.00	9.00
Totals	3,253.40	3,338.06	3,357.38	3,405.37	3,515.30

The total number of staffing FTEs projected for the 2017-18 school year is based on projected October 1, 2017 student enrollment and School Board-approved staffing guidelines and ratios.

The final staffing FTEs for the 2017-18 school year will be recalculated this fall, using actual October 1, 2017 student enrollment. By school staffing information can be found in Note 7 – Budget Allocations within Section II, Organizational Section.

Our Strategies and Goals

In spring 2011, Superintendent Jane K. Berenz convened the District 196 Strategic Planning Task Force and charged the group to develop a vision for education to guide district work and goals. The 60-member task force included parents, staff, School Board members and civic and faith leaders. Below are the district belief statements and strategies that resulted from the process.

BELIEF STATEMENTS

We Believe...

- Students come first
- All students can learn
- High expectations inspire students and staff to excel
- Learning is maximized in a safe, respectful and inclusive environment
- A well-rounded education includes opportunities in academics, the arts and athletics
- Learning is a lifelong pursuit
- Effective management of resources is critical
- Partnerships and collaboration enhance educational programming
- A culture of innovation and continuous improvement prepares students to be college or career ready
- An informed and engaged community guides effective decision-making

Strategy One: TEACHING AND LEARNING

Deliver a high-quality instructional program that anticipates and meets the needs of all learners

- Identify and implement essential learning in all content areas for early childhood through grade 12 (E-12) which will be clearly aligned, viable, relevant, rigorous, and understood by staff, students, and parents
- Identify and implement effective and engaging instructional strategies that are connected to a rigorous curriculum to maximize learning for all students
- Support learning for all students and guide instruction by designing and implementing a balanced assessment program which is both summative and formative
- Develop a systematic process of intervention and enrichment in all schools within a District 196 Response to Intervention framework, ensuring every student receives the time and support needed to master or exceed essential learning
- Continue to ensure high-quality teachers through differentiated professional development, effective evaluation and support that promotes collaboration, continuous learning, research-based instructional practices and growth in student achievement

Strategy Two: EARLY LEARNING

Provide a well-aligned continuum of high-quality, culturally responsive, early learning (birth to grade 3) services to meet the needs of all students

- Coordinate and align educational experiences between early childhood services (birth to kindergarten) and elementary schools (K-3)
- Offer a continuum of high-quality, culturally responsive, early learning services to meet all students' needs
- Investigate and develop strategies for outreach, community engagement and collaboration

Strategy Three: EDUCATIONAL EQUITY

Implement a systemic process that increases achievement for all students by addressing equitable access to opportunities in our schools and programs

- Increase cultural proficiency across the district
- Increase access and participation for all students in co-curricular activities and learning opportunities
- Ensure access and increase participation in programs that prepare students for college
- Develop a systemic process to recruit and retain diverse and culturally proficient staff to reflect the diversity of the student population
- Distribute resources for schools based on multiple factors including student needs (E-12)

Strategy Four: PARTNERSHIPS

Develop and implement sustainable strategies to increase collaboration between the district and community partners

- Establish a structure that will support new and existing partnerships
- Increase partnerships by enhancing relationships among schools and between schools and the community
- Distribute resources for schools based on multiple factors including student needs (E-12)

Our Budget Process and Timelines

The district's budget cycle is a continuous five-step process, beginning with the property tax levy, preliminary budget, final budget, spring budget adjustments, and the year-end annual financial audit and report. Each of these steps requires School Board approval and is open for public inspection and comments. Below are general descriptions on the process.

1. **Property Tax Levy** – The process begins with submission of estimated property tax levy information to the Minnesota Department of Education (MDE) by mid-July. The MDE calculates the maximum levy amount for each school district based on current legislation and formulas. This property tax levy information is reviewed, updated and certified by the School Board prior to the end of the calendar year. The collection of the property tax levy occurs during the calendar year and is intended to be used during the upcoming school year. For example, a tax levy for a coming year that is certified in December is collected in May and October of the following year and would be used for that coming school year.
2. **Preliminary Budget** – During the middle of each school year, the district moves to the second step in the process and begins development of the preliminary budget for the next school year. This process includes the completion of long-range enrollment projections, updating the five-year budget forecast, development of staffing guidelines and determination of revenue and expenditure assumptions to be included in the budget. The process also includes development of the capital expenditure budget for the next school year during the spring of the current fiscal year. The School Board must approve a budget by the beginning of the fiscal year (July 1) in which it will be used. This provides the district with spending authority as the initial estimates are revised and the actual enrollment is determined.
3. **Final Budget** – The third step in the budgeting process happens during the fall each year. The finance department updates the preliminary budget with revised estimates and staffing allocations, and develops the final budget. The revisions are based on any changes in laws that affect education finance and are based on actual enrollment on October 1 of the current year.
4. **Budget Adjustments** – The fourth step in the process is spring budget adjustments based on revised information; spring adjustments are primarily focused on federal and grant programs. Because of federal program requirements, the district makes these adjustments to ensure that the revised budget is closely aligned with actual expenditures for the year. This adjustment allows for accurate funding for programs and provided the most accurate basis for developing the preliminary budget for the next fiscal year.
5. **Annual Financial Audit and Comprehensive Annual Financial Report** – The fifth and last step in the process is closing the books and preparing the financial reports. This occurs during late summer each year. During this period, the district undergoes an independent audit as required by state law. The independent auditors render an opinion on the district's financial reports and accounting practices. The School Board typically reviews the audited comprehensive annual financial report in late October.

An example for a complete school year (July 1 – June 30) can be found in Note 6 – Budget Development Process within Section II – Organization Section of this budget document.

A detailed budget planning calendar for the 2017-18 school year can be found in the Appendix Section of this budget document.

Our Budget – All Funds Summary

The following table shows the budgeted revenues, expenditures, other financing sources (uses) by fund, and the projected fund balances at the end of fiscal year 2018 for each of the district's funds.

	Projected Fund Balance July 1, 2017	Revenues	Expenditures	Other Financing Sources (Uses)	Fund Balance June 30, 2018
General Fund	29,225,761	352,667,592	358,000,133	-	23,893,220
Special Revenue Funds					
Food Service	1,436,802	12,535,819	12,259,491	-	1,713,130
Community Service	1,421,269	8,786,515	8,796,496	-	1,411,288
Total Special Revenue Funds	2,858,071	21,322,334	21,055,987	-	3,124,418
Building Construction Fund	85,795,724	500,000	62,449,998	-	23,845,726
Debt Service Funds					
Regular	3,620,770	6,738,620	9,234,370	-	1,125,020
OPEB Bonds	1,437,734	9,917,549	9,554,500	-	1,800,783
Total Debt Service Funds	5,058,504	16,656,169	18,788,870	-	2,925,803
Internal Service Funds					
GASB #16	(3,798,062)	100,000	450,000	-	(4,148,062)
OPEB Revocable Trust	26,964,552	1,730,000	2,380,000	-	26,314,552
Self-Insured Dental	26,132	44,000,000	44,050,000	-	(23,868)
Self-Insured Health	10,171,315	320,000	370,000	-	10,121,315
Total Internal Service Funds	33,363,937	46,150,000	47,250,000	-	32,263,937
Fiduciary Funds					
Agency	90,208	157,583	160,833	-	86,958
Trust	467,807	-	-	-	467,807
Total Fiduciary Funds	558,015	157,583	160,833	-	554,765
Total All Funds	156,860,012	437,453,678	507,705,821	-	86,607,869

Note: The July 1, 2017 general fund projected fund balance as shown includes an estimated \$5 million better-to-budget performance. The July 1, 2017 fund balance estimate from the final budget is \$24,225,761.

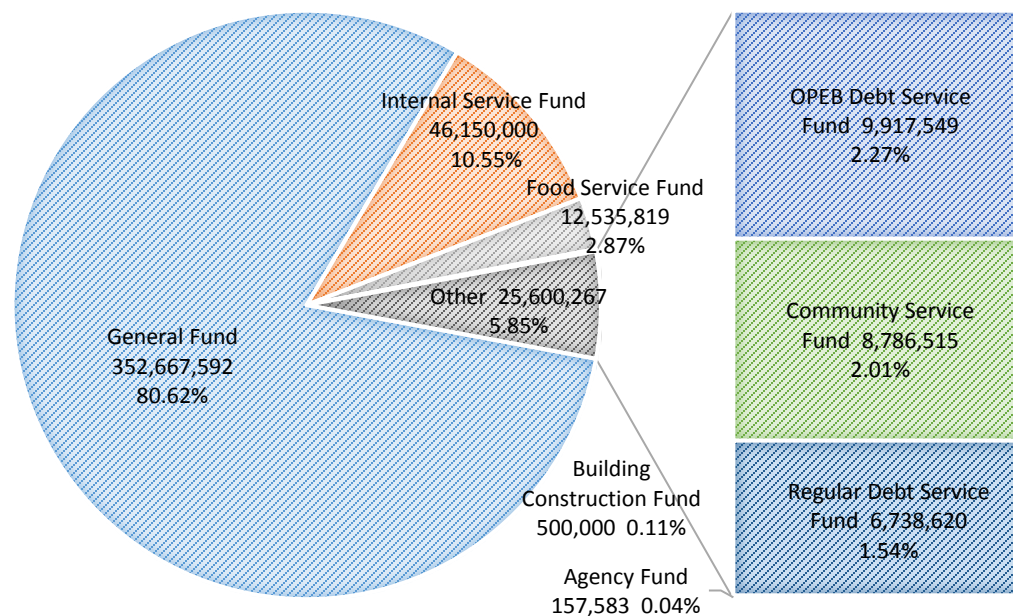

Funds – Revenue Summary

Revenues: Below is a summary of district revenues by fund:

	2013-14 Actual	2014-15 Actual	2015-16 Actual	2016-17 Final Budget	2017-18 Prelim Budget
General Fund	299,736,843	322,347,430	336,582,104	344,354,472	352,667,592
Food Service Fund	11,142,642	11,370,177	12,002,114	12,332,682	12,535,819
Community Service Fund	9,829,881	7,735,009	7,936,098	8,462,763	8,786,515
Building Construction Fund	73,045	6,248,392	139,492,540	700,000	500,000
Regular Debt Service Fund	16,169,862	16,721,220	7,067,082	7,331,034	6,738,620
OPEB Debt Service Fund	2,508,940	2,548,471	10,029,898	10,001,872	9,917,549
Internal Service Fund	50,861,477	46,023,650	47,672,538	46,531,400	46,150,000
Agency Fund	83,772	64,862	108,735	121,218	157,583
Trust Fund	1,504,185	1,547,985	1,351,522	-	-
Total	391,910,646	414,607,196	562,242,631	429,835,441	437,453,678

The general fund is the main operating budget. It covers instructional programs, daily operations of schools and general functions of the district. The 2017-18 general fund revenue budget, including other financing sources, is \$352.67 million. This is \$8,313,120 or 2.41 percent more than the estimate for the current fiscal year. The main reasons for this increase are:

- 1) A projected net increase of \$3.94 million in property tax revenue. This increase is mainly due to the passage of a 10-year \$5.0 million per year capital project levy in November 2015.
- 2) A projected \$0.99 million increase in basic general education aid. This increase is due to a \$61 per pupil unit formula allowance increase and an increase of adjusted pupil units used to calculate basic general education aid.
- 3) A projected increase of \$1.69 million in special education state aid, due to projected changes in enrollment and expenditures.
- 4) A projected increase of \$0.64 million in federal aid from the U.S. Department of Labor to support the Youth Career Connect grant activities at Apple Valley High School.

The 2017-18 regular debt service fund revenue budget is \$6.74 million. This is \$0.60 million less than the budget for the current school year. Revenues for the regular debt service fund are directly tied to the district's bond principal and interest payments. For the 2017-18 school year, almost 100 percent of the revenue budget comes from property taxes and a very small percentage from state aid in the form of market value homestead and agricultural credits.

The 2017-18 OPEB debt service fund revenue budget is \$9.92 million. This is \$84,323 less than the current year budget. Similar to

the regular debt service fund, revenues for the OPEB debt service fund are directly tied to the district's OPEB bond principal and interest payments. Similar to the regular debt service fund, nearly 100 percent of the OPEB debt service revenues come from property taxes and a very small percentage come from state aid in the form of market value homestead and agricultural credits.

More in-depth analysis and information for the remaining funds can be found in the Financial Section of this document.

All Funds – Expenditure Summary

Expenditures: Below is a summary of the district expenditures by fund:

	2013-14 Actual	2014-15 Actual	2015-16 Actual	2016-17 Final Budget	2017-18 Prelim Budget
General Fund	302,475,579	321,545,666	337,462,542	351,278,185	358,000,133
Food Service Fund	11,407,043	11,788,021	12,252,385	12,604,128	12,259,491
Community Service Fund	9,751,859	7,721,580	7,820,647	8,558,000	8,796,496
Building Construction Fund	13,216,875	14,404,915	11,337,371	42,763,523	62,449,998
Regular Debt Service Fund	17,102,131	19,219,161	16,582,713	10,042,003	9,234,370
OPEB Debt Service Fund	2,499,638	2,496,438	9,537,038	9,595,350	9,554,500
Internal Service Fund	42,968,054	48,473,686	50,655,241	45,735,646	47,250,000
Agency Fund	95,790	113,797	45,232	185,792	160,833
Trust Fund	1,421,979	1,499,210	1,370,253	1,000	-
Total	400,938,948	427,262,474	447,063,420	480,763,627	507,705,821

Note: The general fund 2014-15 actual and 2015-16 final budgeted expenditures include transfers out of \$6,225,838 and \$8,554,099 respectively.

The 2017-18 general fund expenditure, including other financing uses, is \$358.00 million. This is \$6.72 million or 1.91 percent greater than the estimate for the current fiscal year. The primary reasons for this change are:

- 1) An increase of \$9.97 million in the budgets for salary and employee benefits based on School Board approved contracts or budget planning guidelines reviewed by the School Board in February 2017.
- 2) Reductions of \$5.1 million in other discretionary budget areas

The 2017-18 building construction fund expenditure budget totaled \$62.45 million. This is \$19.69 million increase from the current school year projection. These expenditures represent the second phase of planned facilities and technology improvements districtwide. These upgrades are funded by a \$130 million building bonds district voters approved in November 2015. More in-depth analysis and information for the remaining funds can be found in the Financial Section of this document.

General Fund – Revenues by Source

The general fund is the main operating fund of the district and the majority of the activity flows through this fund. Below is a summary of the sources of revenues the district receives to support the district's activities.

	2013-14 Actual	2014-15 Actual	2015-16 Final Budget	2016-17 Prelim Budget	2017-18 Prelim Budget
Revenues					
State sources	248,498,786	244,220,251	254,809,742	259,108,590	261,793,897
Property taxes	30,849,977	58,338,748	62,523,327	66,489,979	70,426,840
Federal sources	7,811,310	8,318,521	8,655,141	10,737,990	11,386,881
Other	12,576,769	11,469,909	10,593,894	8,017,913	9,059,974
Total revenue	299,736,843	322,347,429	336,582,104	344,354,472	352,667,592

State Sources: The majority of the district's general fund revenues come from state sources. These include per pupil basic general education aid; special education regular and excess cost aid; basic skills aid, including compensatory education aid; English learners aid and literacy incentive aid; operating capital state aid for equipment and facilities maintenance, and aid for gifted and talented education. The Minnesota Legislature determines the level of funding provided by the state. For the 2017-18 school year, state aids account for slightly less than 75 percent of the general fund revenues.

Local Property Taxes: These are local taxes the district collects from property owners. The Minnesota Legislature determines the maximum amount the district can levy each year. The district also has authority to seek additional property tax revenues (up to a maximum amount per pupil established by the Legislature) to support special programs or basic operations through a voter-approved levy referendum. In November 2013, district voters approved a single ballot question to revoke the district's current levy for \$1,111 per pupil and replace it with a new 10-year levy for \$1,486 per pupil, an increase of \$375 per pupil, beginning with 2014-15 school year. In addition, district voters also approved a 10-year, \$5.0 million per year capital project levy in November 2015.

Federal Sources: These include federal grants for Title programs such as Title I, which focuses on improving the achievement of educationally disadvantaged students, and aids to support special education services for students with special needs.

Other Sources: These revenues include miscellaneous School Board-approved fees for cocurricular activities, student parking, and admission to athletic and fine arts performances. It also includes interest income from the district's short-term investments, gifts to the district and permanent transfers from other funds. The district tends to budget conservatively in this area for the preliminary budget and revise the estimates in the fall to align with actual performance.

General Fund – Expenditures by Object

The general fund expenditure budget includes seven categories of expenditures. They are salaries, employee benefits, purchased services, supplies and materials, capital, other and debt services expenditures. Salaries, wages and benefits account for 85 percent of the general fund expenditures, as shown in the pie chart below.

	2013-14 Actual	2014-15 Actual	2015-16 Actual	2016-17 Final Budget	2017-18 Prelim Budget
Expenditures					
Salaries and wages	194,127,469	202,126,161	208,886,809	216,037,041	223,933,661
Employee benefits	67,515,737	70,510,734	79,329,154	78,148,203	80,218,763
Purchased services	22,548,716	21,318,182	19,952,716	24,541,271	21,850,874
Supplies and materials	9,724,590	10,474,957	10,298,052	16,491,111	15,948,340
Capital expenditures	6,175,866	9,908,289	8,882,064	15,095,069	13,268,115
Other expenditures	626,792	6,979,025	9,186,103	734,084	613,573
Debt service	1,756,409	228,319	1,407,644	231,406	2,166,807
Total expenditures	302,475,579	321,545,666	337,942,541	351,278,185	358,000,133

Salaries: Includes salaries for district administrators, principals, teachers, secretarial and clerical employees, building chiefs, custodians, transportation, and other staff.

Employee Benefits: Includes the district's contribution for employee retirement (FICA/Medicare, TRA and PERA) health, dental and life insurance premiums, tax-shelter annuities for eligible employees and workers' compensation.

Purchased Services: Includes utilities, legal services, contracted work and other services that must be purchased from outside sources.

Supplies and Materials: Includes general supplies such as copier paper, instructional supplies for classrooms, textbooks and workbooks, standardized tests and media resources.

Capital Expenditures: Includes building and site repairs and other improvements, replacement of technology equipment such as computers for classrooms, printers, copiers, and school buses.

Other Expenditures: Includes miscellaneous expenditures that are not categorized elsewhere such as membership dues for professional organizations, taxes, and special assessments.

Debt Service: Includes the principal, interest and other fiscal charges associated with outstanding debt.

GENERAL FUND EXPENDITURES BY PROGRAM

General Fund – Expenditures by Program

The table at the left shows that more than 80 percent of the district's general fund resources are used for student instruction and student support services. Several new programs such as integration programs, magnet schools, striving readers, Advancement via Individual Determination (AVID) and response to intervention have been added in the past few years to help close the achievement gap. Actual expenditures for district support services and administration for the past four fiscal years remained relatively stable. This is consistent with the district's goal to focus resources on classroom instruction.

District Support Services: Includes expenses for services provided centrally by the district such as human resources, business services, communication, purchasing, mail processing, technology support and legal services. These expenses are reported in UFARS program dimension series 100-199 (District Support Services).

Administration: Includes the costs for general district administration which includes the School Board, superintendent, and instructional administrators and school administration. These expenses are reported in UFARS program dimension series 010-099 (Administration).

Sites and Buildings: Includes costs of acquisition, operation, maintenance and repair of all district facilities and grounds. It also includes salaries and benefits of building chiefs, custodial staff, groundskeepers and maintenance specialists, and utilities costs. These expenses are reported in UFARS program dimension series 800-899 (Sites and Buildings).

Student Support Services: Includes student transportation, school office, assessment, guidance, counseling, nursing services and instructional administration, which includes the directors of elementary and secondary education, teaching, and learning and the costs of their support staff. These expenses are reported in UFARS program dimension series 700-799 (Pupil Support Services).

Student Instruction: Includes all costs associated with the teaching of students, the interaction between teachers and students in the classroom and cocurricular activities at the elementary and secondary levels. It also includes services for alternative education, special education, bilingual and other compensatory instructional programs. These expenses are reported in UFARS program dimension series 200-599 (Elementary and Secondary Regular Instruction, Vocational Education Instruction, Special Education Instruction and Community Education and Services)

Property Taxes

School district property tax levies are limited by state law. The Minnesota Department of Education (MDE) computes the levy limitation for each school district based on current legislation and formulas. The school district then certifies the levy to the county auditor, the county sends out tax statements to individual property owners, collects the taxes and makes payments to the school district.

Property taxes are determined by the taxable market value of the property (determined by the county assessor), class rate percentages set in law for each category of property (such as residential homestead, residential non-homestead, apartments, etc.) and state-paid property tax aids and credits. These state-paid property tax aids and credits reduce the actual amount of tax paid by property owners. The two types of property tax levies are:

1. Voter-approved levies – These include building bond and operating levy referendum votes.
2. Levies resulting from School Board decisions – Levy limitations are calculated by the Minnesota Department of Education based on current legislation and formulas.

The graph below shows the average home value for the district and the corresponding school tax from 2013 to 2017. Home values and the corresponding tax levy have remained consistent over the last five years, with the average tax rate paid for the average value home at approximately 0.50 percent.

The table below shows the property tax revenues collected by the district over the last five years. While the graph above shows stability in taxes levied upon the property owners of the district, the revenues collected by year show a different story. Tax revenues in fiscal year 2014 differed drastically from the other years due to a legislative “tax shift” enacted by the Minnesota Legislature. The tax shift impacted the amount of tax revenue recognized in fiscal years 2014 and these changes were offset by an adjustment to state aid payments of an equal amount. The tax shift significantly affected the cash flow of the district, which resulted in the district issuing short-term Aid Anticipation Certificates in order to pay its obligations.

Fiscal Year	Property Tax Revenues					Total
	General Purposes	Community Service	Capital Projects Facility Improvements	Regular Debt Service	OPEB Debt Service	
2012	48,070,886	1,592,020	7,703,130	16,787,567	1,718,732	75,872,335
2013	47,741,740	1,661,685	6,637,900	16,489,752	3,003,753	75,534,830
2014	24,829,408	856,143	6,020,570	16,098,740	2,507,818	50,312,679 (1)
2015	52,118,695	1,683,323	6,220,053	16,692,852	2,547,390	79,262,313
2016	53,988,090	1,666,669	8,535,237	10,025,045	4,613,043	78,828,084
2017 (Estimate)	62,773,042	1,527,362	5,521,180	6,086,244	9,706,508	85,614,336

(1) Legislative changes in the “tax shift” impacted the amount of tax revenue recognized in fiscal years 2011 and 2014. These changes were offset by an adjustment to state aid payments of an equal amount.

Achievement and Initiatives:

Achievement: District 196 students have a tradition of outstanding achievement both in and out of the classroom. They win a large number of state and national awards in a variety of curricular and cocurricular competitions, and earn scholarships to colleges and universities throughout the country, as well as appointments to United States military academies. In addition, district students consistently score well above average on state and national assessments. As shown in the table, District 196 students graduated at a higher rate than the state average. To comply with U.S. Department of Education reporting requirements, calculations for high school

Fiscal Year	ISD 196	State
2016	92	82
2015	90	82
2014	92	81
2013	92	80
2012	91	78

graduation rates have changed. The district rates shown for fiscal year 2013 and later are percentages of students graduating from high school within four years after they enrolled in grade nine. Students who took an additional year to meet graduation requirements are not included in this calculation.

District 196 students in the class of 2016 scored well above state and national composite scores on the American College Test (ACT) entrance exam as the table to the right shows. The ACT average composite score for the district was 23.0, 1.9 points higher than the Minnesota average of 21.1, which was highest in the nation among states where more than half of all graduates took the test. Further data and information related to achievement can be found in the Informational Section-IV of this report.

Fiscal Year	ISD 196	State	National
2016	23.0	21.1	20.8
2015	24.4	22.7	21.0
2014	24.1	22.9	21.0
2013	24.0	23.0	20.9
2012	24.1	22.8	21.1

Ongoing Initiatives:

The district is continuing the implementation of the facilities improvement plan funded by the voter-approved \$130 million in bonding authority. The funds are geared toward safety and security improvements at all schools, providing additional spaces for learning, including a new elementary school, scheduled to begin operating in the fall of 2017, and upgrades to technology infrastructure districtwide. The referendum question also included approximately \$5.0 million per year for 10 years to increase access to technology for all students and maintain that access over the life of the levy.

Some of the improvements, such as infrastructure upgrades and security equipment upgrade, as summarized below, have already begun. Other improvements will be made in phases over the next three years.

Safety and Security

- Modify entrances at all schools to better control visitor access
- Upgrade security equipment at all schools (cameras, door locks and emergency response buttons)
- Site improvements at 16 sites with identified need to improve pedestrian and traffic safety

Space for Learning

- A new elementary school in the southern part of the district
- Additions to five elementary magnet schools and Parkview Elementary School
- STEM improvements at all six middle schools, Cedar Park Elementary STEM School and Apple Valley High School
- Improvements to meet district standards for space at Rosemount High and elementary schools with identified need
- Replacement of worn-out student furniture at middle and high schools

Technology for Learning

- Infrastructure upgrades
- Mobile learning device for each student in grades 4-12, phased in over three years
- 9-to-1 ratio of students-to-mobile learning device for grades pre-K-3

Frequently Asked Questions (FAQs) and Contact Information

Below are answers to some frequently asked questions regarding the school district budget and finances.

1) What is the district's average spending per student for instruction and how is it calculated?

While there is no universally agreed upon definition of what should be included in "instructional" spending, a reasonable approach is to divide the total general fund (operating) budget by the average daily membership in the district, which is close to but not the same as the total number of students in the district.

General Fund Budget		\$358,000,133
Average Daily Membership	÷	28,270
Spending per Student	=	12,664

2) Why does the district need a fund balance reserve and what is it used for?

The fund balance is similar to a savings account, a rainy day reserve that can be used to cover unforeseen costs that could not be planned for when the budget was developed. School Board policy requires the district to maintain a minimum fund balance equivalent to at least 5 percent of general fund expenditures for the year.

3) What is an ending fund balance?

An ending fund balance is money remaining at the end of the school year. There are three main factors that impact the ending fund balance positively and negatively:

- Schools and departments underspend their budgets:**
According to district practice, budgeted funds that are underspent by a school are carried over to that school's budget for next year, while budgeted funds that are underspent by a department are not carried over.
- Aid payments from the state may be less than anticipated based on economic conditions:**
The majority of district revenues come from the state. If the state experiences a revenue shortfall during the year, funding to school districts may be prorated, which results in a loss of revenues to the districts.
- Budget assumptions may have changed:**
Two of the biggest assumptions used to build the school district's budget are the amount of state funding the district will receive and total student enrollment, as districts are funded based on the number of students enrolled. The district's preliminary budget must be developed by the administration and approved by the School Board before July 1 each year. Official enrollment for the year is not determined until October 1 each year and in funding years (every other year) the state does

not determine education funding levels until the legislative session concludes in the spring.

4) Does the district consider budget suggestions?

Yes. The district invites residents and employees to submit suggestions on ways to reduce costs and increase revenues in the district's budget. Budget reduction suggestion forms are available at all district schools and offices, at regularly scheduled School Board meetings and at www.district196.org/District/Departments/Finance.

Suggestions should be addressed to:

Director of Finance and Operations
District Office
3455 153rd Street West
Rosemount, MN 55068.

All submitted suggestions are reviewed by members of the district's citizen-led Budget Advisory Council (BAC).

Budget information for the current and previous nine school years is available on the district website at:

www.district196.org/District/Departments/Finance

The site includes information about the annual budget process and timelines, an introduction to school finance and printable capital expenditure budgets, preliminary budgets, final budgets and year-end audit reports.

SECTION II

Organizational Section

NOTE 1 – DISTRICT OVERVIEW**A. Legal Autonomy**

Under the provisions of the Constitution of the State of Minnesota, Article XIII, Section 1 states the "...legislature shall make such provisions by taxation or otherwise as will secure a thorough and efficient system of public schools throughout the state." As such, the state provides financial assistance to school districts under statutes enacted by the Legislature, with the primary purpose to provide a basic educational opportunity available to all students regardless of local fiscal capacity of the district in which they live.

Independent School District 196 was formed and operates pursuant to applicable Minnesota laws and statutes. The district was incorporated in 1950 and serves a portion of nine suburban communities within Dakota County located on the southeastern edge of the Minneapolis/St. Paul metropolitan area. The district encompasses all or part of the cities of Apple Valley, Burnsville, Coates, Eagan, Inver Grove Heights, Lakeville, Rosemount and Empire and Vermillion townships. The district is governed by a seven-member School Board elected by voters of the district to serve four-year terms.

The district is a fiscally independent entity and has the exclusive responsibility and accountability for the decisions it makes. It has statutory authority to adopt its own budget, levy taxes and issue bonded debt without the approval of another government. It has the right to buy, sell, lease or mortgage property in its own name. As such, the district is considered a primary government and there are no other governments or agencies whose budgets should be combined and presented in this budget.

Extracurricular student activities are determined primarily by student participants under the guidance of an adult and are generally conducted outside of school hours. In accordance with Minnesota Statutes, the School Board has elected not to control or be otherwise financially accountable with respect to the underlying extracurricular activities. Accordingly, the extracurricular student activity accounts are not included as part of these budget documents.

B. Programs and Services

The district provides a full range of public education services appropriate to grade levels ranging from pre-kindergarten through grade 12, as well as young adults ages 18-21 with special needs. These include regular and enriched academic education, special education and career/vocational education. Food service and transportation are provided as supporting programs. The district's community education program includes early childhood family education and adult basic education programs, and a variety of classes for lifelong learning experiences for children through senior adults.

C. Student Enrollment and Demographics

District 196 is the state's fourth largest school district, serving approximately 28,800 students from a population of approximately 157,000 people residing in a 108.6 square mile area.

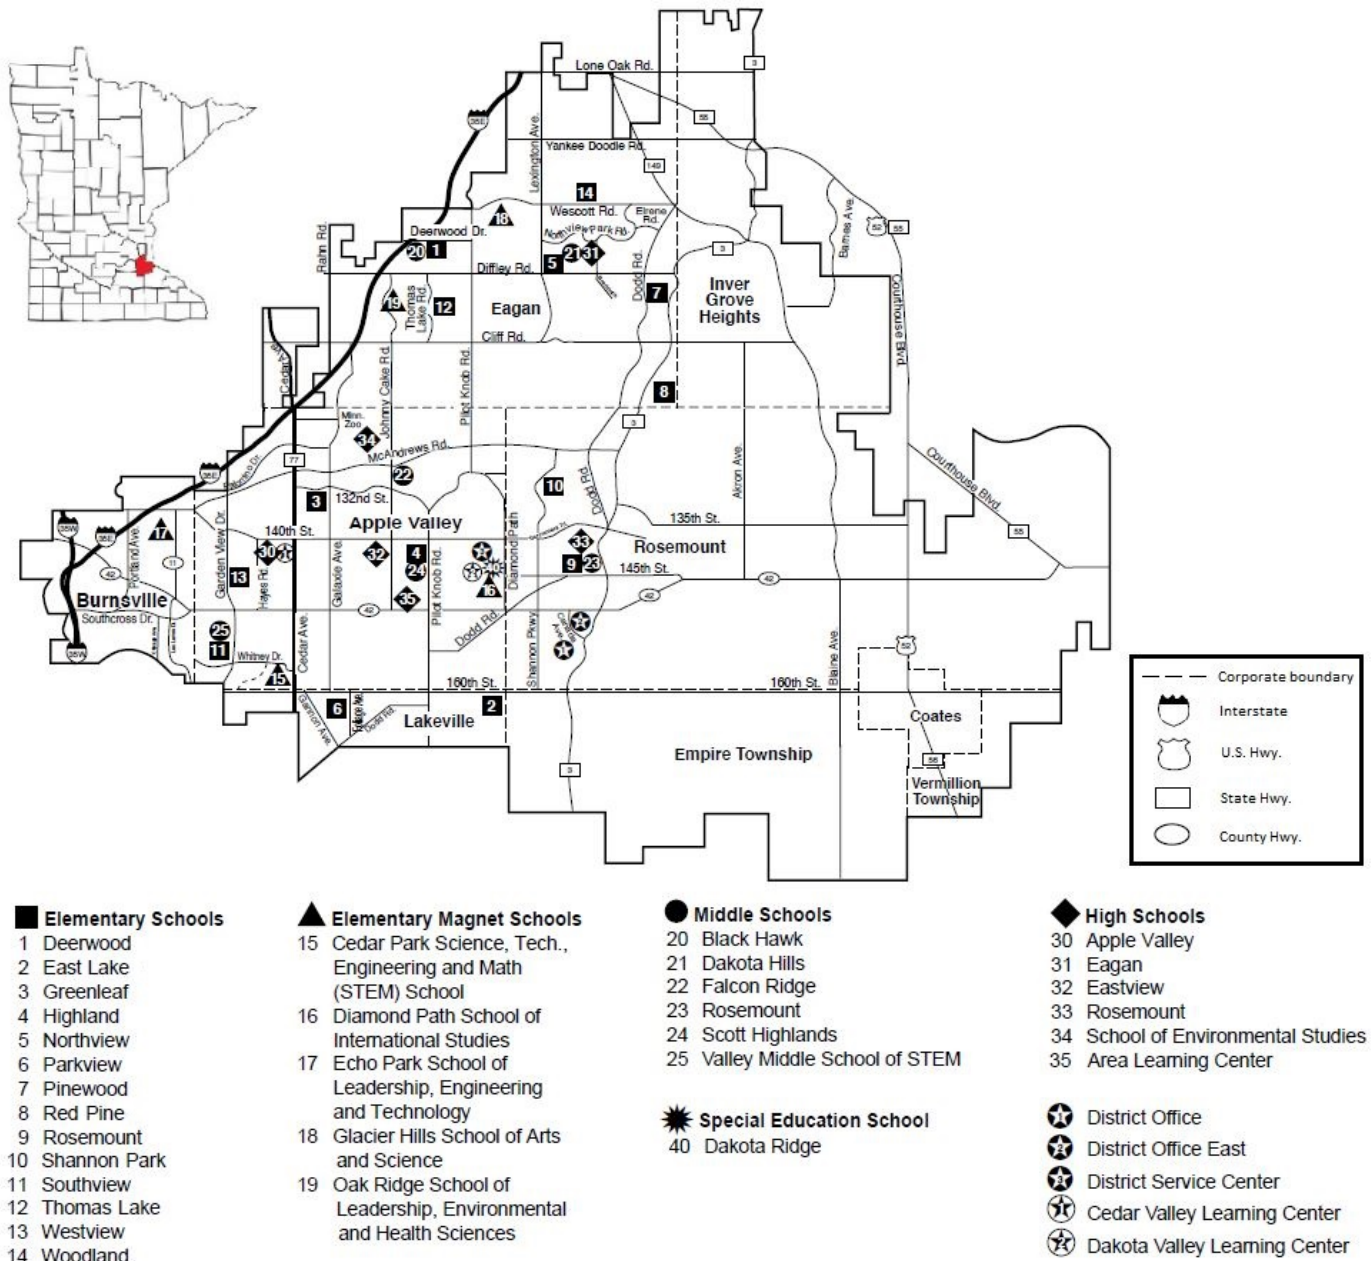

The district has an increasingly diverse population of students with a variety of needs. For the 2017-18 school year, nearly 65 percent of students are Caucasian, 14 percent are African American, 11 percent Asian, 9 percent Hispanic and 1 percent are American Indian.

In the 2016–17 school year, 23.8 percent of district students qualified for free or reduced-price school meals and 15.56 percent students qualified to receive special education services.

NOTE 1 – DISTRICT OVERVIEW (CONTINUED)**D. District Schools and Facilities**

The district operates 34 school buildings including four comprehensive high schools (grades 9–12), one optional high school (grades 11–12), six middle schools (grades 6–8), 18 elementary schools (kindergarten through grade 5), one area learning center, one school for students with special needs (K-12), and two learning centers dedicated to adult basic education, early childhood education and early childhood special education.

The average age of the district's facilities is approximately 31 years. The district qualifies for Alternative Facilities funding from the state, which has enabled the district to keep up with routine repairs, maintenance and other facility improvements.

NOTE 3 – DISTRICT MISSION AND STRATEGIC PLAN

In spring 2011, the superintendent convened a 60-member task force to develop a vision for education that is guiding district goals through 2016. The task force included parents, staff, School Board members, business, civic and faith community leaders. Task force members attended four informational meetings to establish a shared base of knowledge about district enrollment and demographics, school finance, teaching and learning, community and partnerships, educational trends and innovation. These informational meetings, led by a facilitator, were followed by four planning meetings where the task force members developed revised belief statements for the district and four guiding strategies. The School Board approved the plan in December 2011. A brief summary of the plan is listed below.

Mission Statement: *Educating our students to reach their full potential*

Belief Statements:

- Students come first
- All students can learn
- High expectations inspire students and staff to excel
- Learning is maximized in a safe, respectful, and inclusive environment
- A well-rounded education includes opportunities in academics, the arts and athletics
- Learning is a lifelong pursuit
- Effective management of resources is critical
- Partnerships and collaboration enhance educational programming
- A culture of innovation and continuous improvement prepares students to be college and/or career ready
- An informed and engaged community guides effective decision-making

Strategies and Goals:

- **Strategy One – Teaching and Learning**
 - Deliver a high-quality instructional program that anticipates and meets the needs of all learners
- **Strategy Two – Early Learning**
 - Provide a well-aligned continuum of high-quality, culturally responsive, early learning (birth to grade 3) services to meet the needs of all students
- **Strategy Three – Educational Equity**
 - Implement a systemic process that increases achievement for all students by addressing equitable access to opportunities in our schools and programs
- **Strategy Four – Partnerships**
 - Develop and implement sustainable strategies to increase collaboration between the district and community partners

NOTE 4 – SIGNIFICANT BUDGET AND FINANCIAL ITEMS**A. Budget Policies**

The School Board has adopted several policies, administrative regulations (AR) and procedures (P) related to the budget process. Below is a summary of these policies. See appendix for the full text of each policy, administrative regulation and procedure.

- **Policy 702 – Budget**
 - The district shall adopt annual budgets for each fund (general [including all accounts within the general fund], food service, community education, debt service, building construction, trust and agency, and internal service), in accordance with state law;
 - The district budget, once approved by the board, is the district's plan showing expected revenue and expenditures for the coming fiscal year and is the district's legal authorization for spending funds, and
 - The budget reflects and supports state and federal requirements, district initiatives and board policies.
- **Administrative Regulation 702.2AR – Budget Planning and Development**
 - This regulation mandates the due dates for preliminary and final budgets to be presented to the School Board and the requirement for board approval of budget assumptions to be used to develop the budgets.
- **Administrative Regulation 702.2.3AR – Budget Advisory Council (BAC)**
 - The Budget Advisory Council ensures active community participation in and enhances community understanding of the district's budget planning process, and
 - Provides input to the board and administration on budget plans that support district goals, policies and initiatives.
- **District Procedure 702.2.3P – Application to Serve on Budget Advisory Council (BAC)**
 - Applicants must complete this form to be considered for membership on the committee.
- **Administrative Regulation 702.4AR – Capital Expenditure Budget**
 - This regulation establishes the requirements for the district's capital expenditure budget, including the process of developing a list of current needs and proposal of final selections to be presented to the board for approval.
- **Policy 712 – Fund Balance**
 - Policy 712 requires the maintenance of reasonable fund balances to mitigate financial risk from unforeseen circumstances and provide adequate cash flow.

NOTE 4 – SIGNIFICANT BUDGET AND FINANCIAL ITEMS (CONTINUED)**B. Financial Presentation**

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this basis of accounting transactions are recorded in the following manner:

Revenue Recognition – Revenue is recognized when it becomes measurable and available. “Measurable” means the amount of the transaction can be determined and “available” means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the district generally considers revenues to be available if they are collected within 60 days after year-end. Grants and similar items are recognized when all eligibility requirements imposed by the provider have been met. State revenue is recognized in the year to which it applies according to Minnesota Statutes (which include state aid funding formulas for specific fiscal years) and accounting principles generally accepted in the United States. Proceeds of long-term debt and acquisitions under capital leases are reported as other financing sources.

Recording of Expenditures – Expenditures are generally recorded when a liability is incurred, except for principal and interest on long-term debt, compensated absences, severance and other post-employment benefits (OPEB), which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as capital outlay expenditures in the governmental funds. In the general fund, capital outlay expenditures are included within the applicable functional areas.

Proprietary and fiduciary funds use the accrual basis of accounting and are reported using the economic resources measurement focus.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund’s principal ongoing operations. The principal operating revenue of the district’s internal service funds are charges to other district funds for services. Operating expenses for the internal service fund include the cost of providing the services. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

C. Description of Funds

The existence of the various district funds has been established by the Minnesota Department of Education. Each fund is accounted for as an independent entity. Descriptions of the funds included in this report are as follows:

Governmental Funds

- **General Fund** – Used to account for all financial resources except those required to be accounted for in another fund. The district maintains five sub-accounts within the General Fund:
 - Operating Account
 - Transportation Account
 - Capital Expenditure Account
 - Quality Compensation (Q Comp) Account
 - Special Education Account
- **Capital Projects – Building Construction Fund** - Used to account for financial resources used for the acquisition or construction of major capital facilities authorized by bond issue or capital project levies.
- **Debt Service Fund** – Used to account for the accumulation of resources for, and payment of, general obligation long-term debt principal, interest and related costs. The district maintains a separate Other Post-Employment Benefits (OPEB) account within the debt service fund to account for OPEB-related debt activity. All other debt service is recorded in the general debt service account.
- **Food Service Special Revenue Fund** – The food service special revenue fund is primarily used to account for the district’s child nutrition program.

NOTE 4 – SIGNIFICANT BUDGET AND FINANCIAL ITEMS (CONTINUED)

- **Community Service Special Revenue Fund** – The community service special revenue fund is used to account for services provided to residents in the areas of recreation, civic activities, nonpublic pupils, adult or early childhood programs, or other similar services.

Proprietary Funds

- **Internal Service Funds** – Internal service funds account for the financing of goods or services provided by one department to other departments or agencies of the government, or to other governments, on a cost-reimbursement basis. The district has established four internal service funds:
 - Severance Benefits
 - Other Post-Employment Benefits
 - Self-Insured Dental Benefits
 - Self-Insured Health Benefits

Fiduciary Funds

- **Employee Benefit Trust Fund** – The district maintains an employee benefit trust fund used to administer resources received and held by the district as the trustee for employees participating in the district's flexible benefit plan (Internal Revenue Code § 125 Cafeteria Plan).
- **Scholarship Private-Purpose Trust Fund** – The scholarship private-purpose trust fund is used to account for resources held in trust to be used by various other third parties to award scholarships to students.
- **Agency Funds** – Agency funds are established to account for cash and other assets held by the district as the agent for others. The district maintains two agency funds used to account for a Graduate Credit Program (a continuing education program organized for the benefit of district certified staff) and Local Collaborative Time Study (LCTS) grant funds.

D. Classification of Revenues and Expenditures

Uniform Financial Accounting and Reporting Standards (UFARS) as developed by the Minnesota Department of Education (MDE), mandates that each financial transaction be identified with a specific accounting code for administrative and reporting purposes. As defined by Minnesota Statute 123B.77, each school district must adopt the uniform financial and reporting standards as provided by MDE.

UFARS requires the revenue and expenditure account code structure to be multi-dimensional. Each dimension identifies one aspect of a revenue or expenditure account. No single dimension could provide enough information for local and state reporting of financial information, however, once combined, the account code describes a lot of information about a transaction. Below is a list of the six dimensions of a UFARS account code in sequential order:

FUND	ORG/SITE	PROGRAM	FINANCE	OBJ/SRC	COURSE
XX	XXX	XXX	XXX	XXX	XXX

The same dimensions are used in both revenue and expenditure accounts with the exception of the object dimension, which is used for expenditures, while the source dimension is used with revenues.

Description of Dimensions

- **Fund Dimension (FD)** – A fund is a fiscal entity with a set of accounts that record financial resources, liabilities and equities. Each fund is segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations.
- **Organization / Site Dimension (ORG)** – Allows for the identification of expenditures and revenues by a site or building.

NOTE 4 – SIGNIFICANT BUDGET AND FINANCIAL ITEMS (CONTINUED)

- **Program Dimension (PRG)** – Used to separate sets of instructional and support service activities associated with public schools. The codes in this dimension are divided into 10 categories: administration, district support services, elementary and secondary regular instruction, vocational instruction, special education instruction, community education and services, instructional support services, pupil support services, sites and buildings, fiscal and other fixed costs programs, and other.
- **Finance Dimension (FIN)** – Establishes the revenue and expenditure relationship for financial accounting and reporting to a specific purpose, grant, or other source. The series in this dimension are district-wide, state, federal, child nutrition, transportation, special education, state placement, levy supported programs and secondary vocational.
- **Object Dimension (OBJ)** – Identifies the generic service or commodity obtained as the result of the expenditure, this is the most detailed level of expenditure reporting. The codes in this dimension are divided into eight series: salaries, benefits, purchased services, supplies and materials, capital expenditures, debt service, other expenditures and other financing uses.
- **Source Dimension (SRC)** – Identifies the origin of revenues. The codes in this dimension are divided into five series: local sources, state sources, federal sources, sales and other conversions, and other financing sources.
- **Course Dimension (CRS)** – For state reporting purposes, used to report revenues and expenditures for projects that overlap school district fiscal years.

The UFARS reporting structure does not control or constrain local operations or account codes. For example, the district has several internal codes that crosswalk to the appropriate UFARS code when transmitting reporting data to the MDE. Below is an example of a district code and the applicable UFARS code.

TYPE	FUND	ORG/SITE	PROGRAM	FINANCE	OBJ/SRC	COURSE
Internal Code	01	225	051	201	115	000
UFARS Code	01	025	050	000	110	000

The table below shows how crosswalks allow the district to break out revenues and expenses in much further detail than is required by UFARS for reporting. See the appendix for a list of district dimensions and the applicable UFARS crosswalk.

Dimension	District Description	UFARS Description
FD	General Fund	General Fund
ORG	Dakota Hills Middle School	Dakota Hills Middle School
PRG	School Administration - Middle School	School Administration
FIN	Staffing Allocation	District-Wide
OBJ	Assistant Administrator / Principal	Administrator / Supervisor
CRS	Non-Federal Projects Ending in the Current Year	Non-Federal Project Ending in the Current Year

NOTE 4 – SIGNIFICANT BUDGET AND FINANCIAL ITEMS (CONTINUED)**F. Financial Philosophy, Practices and Fund Balance Management**

Financial Philosophy – The basic principles that drive the development of the district’s financial policies and regulations are:

- Maintain a clear definition of accountability and spending authority.
- Maintain a long-term financial approach for responding to both current and future issues. An example of this approach is multi-year outlooks for budget planning.
- Maintain appropriate level of fund balances for:
 - time-limited projects or services
 - enhance funding for School Board approved initiatives
 - unplanned events or unforeseen expenditures

Financial Practices – The district operates under a decentralized or site-based environment. The budget planning process is more collaborative and school principals and budget administrators have flexibilities in determining how to manage their allocations from the district to comply with district policies and regulations.

Each year, school principals are given three major allocations to operate their schools. The three major allocations are capital expenditure, instructional/operating and staffing. All three allocations are determined by the schools’ enrollment, School Board approved funding guidelines, and federal and state mandates. Detailed information regarding these three allocations can be found in Note 7 – Budget Allocation. In general, with the exception of federal and state funds, school principals have the ability to determine how to budget for these allocations to meet their students’ needs. School principals are allowed to “carryover” their unspent instructional allocations to the following school year. Financial performance of the school is based on the bottom-line; this eliminates the need for line item budget transfers or budget adjustments within the school’s budget.

To comply with federal and state financial reporting requirements, the district adjusts the budgets for federal and state categorical grants each spring. The purpose of these adjustments is to account for grant dollars the district may have received during the year and align actual spending with the appropriate expenditure categories. These adjustments also allow for accurate funding for programs and provide the most accurate basis for developing the preliminary budget for the next fiscal year.

Fund Balances – Prudent fiscal management requires the maintenance of reasonable fund balances to mitigate financial risk from unforeseen circumstances and expenditures, and provides cash flow liquidity for general operations. The School Board formally adopted a fund balance policy requiring a minimum general fund balance of 5 percent of the annual projected operating expenditures. District administration monitors and maintains fund balance levels through the use of multi-year financial planning tools. When financial projections indicate future fund balance levels below minimum established levels, budget adjustments are implemented to programs and departments to ensure that established fund balance targets are maintained.

Governmental funds report fund balance in classifications that disclose constraints for which amounts in those funds can be spent. These classifications are as follows:

- **Nonspendable** – Consists of amounts that are not in spendable form, such as prepaid items, inventory and other long-term assets.
- **Restricted** – Consists of amounts related to externally imposed constraints established by creditors, grantors or contributors, or constraints imposed by state statutory provisions.
- **Committed** – Consists of internally imposed constraints that are established by resolution of the School Board. Those committed amounts cannot be used for any other purpose unless the School Board removes or changes the specified use by taking the same type of action it employed to previously commit those amounts.
- **Assigned** – Consists of internally imposed constraints. These constraints consist of amounts intended to be used by the district for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds, assigned amounts represent intended uses established by the governing body itself or by an official to which the governing body delegates the authority. Pursuant to School Board resolution, the district’s superintendent or other designee is authorized to establish assignments of fund balance.
- **Unassigned** – The residual classification for the general fund that includes all spendable amounts not contained in other fund balance classification. It also reflects negative residual amounts in other funds.

NOTE 5 – SCHOOL FUNDING**A. Introduction**

The Minnesota school finance system is the method by which funds are provided to operate public elementary and secondary schools. The bulk of state support for elementary and secondary education is distributed to school districts through the general education revenue program, which provides money for the current operating expenditures of the districts. The remaining portion of the state's appropriation to local districts is provided through special purpose or categorical aids, such as special education aid and local property tax relief aids. Historical, legal and descriptive information in the following pages provide the context for understanding the school finance system.

B. Historical and Legal Background

Public education in the United States is the legal responsibility of state government. In Minnesota, as in most states, the state constitution charges the legislature with responsibility for public schools:

"The stability of a republican form of government depending mainly upon the intelligence of the people, it is the duty of the legislature to establish a general and uniform system of public schools. The legislature shall make such provisions by taxation or otherwise as will secure a thorough and efficient system of public schools throughout the state." (Constitution of the State of Minnesota, Article XIII, Section 1)

"Minnesota delegates responsibility for the actual operation of schools to local school districts whose powers and duties are prescribed by state statute. Historically, the property taxes levied by the school boards governing these school districts have been the primary source of revenue for running schools. Sometime after 1900, property taxes were supplemented by limited amounts of state appropriations for aid to school districts. By 1970-71, the Minnesota state foundation aid program provided all districts a flat grant per pupil unit (a pupil unit is a weighted enrollment measure) and provided some districts an additional "equalized" amount which varied inversely with a district's property valuation. Under this system, state aid funded about 43 percent of the cost of running schools, and school expenditures per pupil varied widely from district to district. Local property taxes rose rapidly in all districts in the late 1960s and the tax rate for schools also varied widely among districts.

The 1971 Legislature addressed these disparities by substantially increasing the amount of equalized state foundation aid per pupil unit and imposing a uniform statewide limit on the property tax rate for schools. The 1973 Legislature eliminated flat grants and established a system whereby the amount of foundation aid program revenue available per pupil unit to low-spending districts would be increased to the state average over a six-year period. From 1973 to 1983, the Legislature adjusted the foundation aid formula several times, making it more responsive to differences among districts and altering the relationship between local tax effort and state aid, without changing the formula's basic structure.

The 1983 Legislature enacted a new foundation aid program that became effective in the 1984-85 school year. The new program replaced several components of the previous foundation aid formula (i.e., discretionary, replacement, grandfather, and low-fund balance aids and levies) with five tiers of optional aids and levies. The main characteristics of the new five-tier program were equal access to revenues, recognition of some specific cost differences and more discretion on the part of school boards in choosing the necessary level of revenue." (Minnesota School Finance, A Guide for Legislator" House Research Department)

C. Current Program Design

The 1987 Legislature replaced the foundation aid program with a modified funding formula called the general education revenue program effective for the 1988-89 school year. General education formula components have remained relatively stable since 1989. In general, each component reflects school district funding needs in different areas and is based on pupil counts and the extent of need for each school district. General education revenue is the primary source of general operating funds for Minnesota's public schools.

NOTE 5 – SCHOOL FUNDING (CONTINUED)**D. General Education Revenue**

Schools receive the bulk of their general operating funds from the state through the general education revenue program. For FY 2005 and later, basic general education revenue is provided entirely through state aid payments, but there are equalized levies for operating capital, equity revenue and transition revenue. Components of general education revenue are as follows:

- 1. Basic Formula Allowance** – Basic education revenue for each district equals the product of the formula allowance multiplied by the adjusted marginal cost pupil units for the school year. Adjusted marginal cost pupil units are a statutorily defined count of pupils in daily attendance. The basic formula allowance for the 2016-17 school year is \$6,067 per adjusted pupil unit (APU).

School Year	Formula Allowance	
	Amount	Percent Change
2012-13	5,224	1.0
2013-14	5,302	1.5
2014-15(1)	5,831	2.0
2015-16	5,948	2.0
2016-17	6,067	2.0
2017-18	6,188	2.0

(1) The increase of \$529 in 2016 is offset by changes to pupil weightings and the general education aid formula that reduced the increase to the equivalent of \$105 or 2.0 percent statewide.

- 2. Extended Time Revenue** – Beginning in FY 2004, school districts were prohibited from counting a student as more than 1.0 in average daily membership (ADM). Prior to this, a student could be counted in excess of 1.0 if the student was participating in a learning year program. A learning year program may include extended day, extended week, summer school programming, or an independent study program. The 1987 Legislature eliminated funding for summer school when it replaced the foundation aid program with the general education revenue program. During the 1990s, many school districts started using the learning year program as a method to fund summer school programs. As a result, the growth in learning year pupils was quite significant. The 2003 Legislature adopted a provision that limits a student's annual average daily membership to 1.0.

The extended time revenue program allows a school district to count a student who participates in extended programming for up to an additional 0.2 students in ADM for the time the student spends in extended day, extended week, summer school or other additional programming authorized by the learning year program. This additional ADM counts only for purposes of generating extended time revenue.

- 3. Basic Skills Revenue** – Basic skills revenue consists of compensatory revenue and English Learner (EL) revenue.

Compensatory Revenue - The vast majority of basic skills revenue is generated by the compensatory revenue formula. Compensatory revenue is site-based revenue that is calculated on the characteristics of each school site, and the revenue must be distributed to, and spent on, qualifying programs at each site. Compensatory revenue must be used to meet the educational needs of pupils whose progress toward meeting state or local content or performance standards is below the level that is appropriate for learners of their age.

Compensatory revenue must be reserved in a separate account and each district must produce an annual report describing how compensatory revenue has been spent at each site within the district.

The formula that generates compensatory revenue is a concentration formula based on each school's count of students that are eligible for free or reduced-price school meals.

NOTE 5 – SCHOOL FUNDING (CONTINUED)

The compensatory revenue increases as the number of compensatory pupil units goes up, which is driven by the number of students qualifying for free or reduced-price school meals, as well as the percentage of such students at the school. A higher percentage concentration of qualifying students leads to a higher count of compensatory pupil units.

Districts receive EL revenue to provide instruction to students with limited English skills. Programs may include bilingual programs or English-as-a-second-language (ESL) programs. Bilingual education programs provide curriculum instruction to students in their native language. Students in ESL programs are taught to read, write, listen, and speak in English. The state has provided funding for EL programs since 1980. In 1997, the EL formula was significantly expanded by adding a pupil concentration formula to the cost-based formula. Beginning with the 2016-17 school year an EL student is eligible for EL revenue for up to seven years, increased from six years.

There are two parts to the EL portion of basic skills revenue: the first part or basic formula is a set amount per eligible EL pupil unit and the second part of the EL formula is a concentration formula. A school district with at least one student eligible for EL services has a statutorily assigned minimum EL pupil count of 20.

4. **Gifted and Talented Revenue** - Beginning in FY 2006, each school district received \$4 per pupil unit for gifted and talented programming. This amount was increased to \$9 per pupil unit for FY 2007 and further increased to \$12 per pupil unit for FY 2008 through FY 2014. For FY 2015 and later, the formula allowance is \$13 per pupil unit to reflect the new, lower adjusted pupil unit count. The revenue must be used to identify gifted and talented students, to provide programming for gifted and talented students, or to provide staff development to prepare teachers to teach gifted and talented students.
5. **Sparsity Revenue** – Secondary sparsity revenue provides additional revenue to geographically large districts that have relatively few secondary pupils. The formula measures sparsity and isolation of the district and provides additional revenue to the district using an assumption about how many pupil units are necessary to run an acceptable secondary program. The formula assumes that a district with 400 secondary pupils in average daily attendance can provide an acceptable secondary program. Therefore, a district with one high school, no matter how few pupils per square mile it has, will not receive any sparsity aid if the district has a secondary average daily membership (SADM) in excess of 400. In addition, the requirement of large geographic size ensures funding for districts that have few pupils due to geographic isolation and not due to a school board's reluctance to provide cooperative programming with a neighboring school district.

Elementary Sparsity Revenue - A school district qualifies for elementary sparsity revenue if it has an elementary school that is located 19 or more miles from the next nearest elementary school and has fewer than 20 pupils per elementary grade. As with secondary sparsity revenue, the more elementary pupils in average daily membership (EADM) attending the school, the lower the elementary sparsity revenue per pupil.

6. **Operating Capital Revenue** - Operating capital revenue replaced two former capital formulas known as equipment revenue and facilities revenue and moved the revenue stream to each district's general fund. Operating capital revenue must be reserved and used for equipment and facility needs. A school board may spend other general fund money for operating capital expenses, but general fund money provided by the operating capital revenue component must be reserved and spent only for eligible equipment and facility needs.

Operating capital revenue is computed by adding a fixed dollar amount for all districts to a variable amount per pupil unit times the age of the district's school facilities. The age index is called the maintenance cost index (MCI). Operating revenue is an equalized formula. The equalizing factor for FY 2018 will increase to \$17,473; and in FY 2019 it will increase to \$20,510.

For FY 2018, the district's operating capital revenue is estimated to be \$221.68 per adjusted pupil unit times the district's maintenance cost index. Districts with older buildings receive more revenue because of the maintenance cost index. Districts with newer buildings receive less revenue.

NOTE 5 – SCHOOL FUNDING (CONTINUED)

- 7. Equity Revenue** - The equity revenue formula consists of three parts: basic equity revenue, low referendum revenue and a supplemental formula that was added in FY 2007. Equity revenue was added as a component to the general education revenue formula beginning with FY 2000. The state is divided into a seven-county metro region and a greater Minnesota region, and equity revenue is calculated separately for districts within each region. School districts located in cities of the first class (Minneapolis, St. Paul and Duluth) are excluded from receiving basic equity revenue. For FY 2002 and later, a school district's equity revenue is based only on the sum of its basic formula allowance and referendum revenue per pupil unit.

The first step in calculating equity revenue is to determine the 5th and 95th percentiles of the portion of general education revenue equal to the basic formula allowances and referendum revenue for the metro and greater Minnesota regions.

The second step in calculating equity revenue is to divide districts into two classes, those with a referendum and those without.

Equity revenue for a district with a referendum equals \$14 plus the product of \$80 and the district's equity index, all times the district's adjusted pupil units (APU). For districts in the seven county metropolitan area, the revenue amount resulting from both the regular and low-referendum equity calculations is multiplied by 1.25. Equity revenue for a district without a referendum equals \$14 times the district's APU.

Supplemental Equity Revenue - All school districts receive supplemental equity revenue equal to an additional \$50 per pupil unit.

Low Referendum Revenue - School districts with referendum amounts below 10 percent of the state average referendum amount are eligible for the supplemental low-referendum equity portion of equity revenue. Qualifying districts receive an amount per pupil equal to the difference between their referendum amount and 10 percent of the statewide average referendum revenue, with a \$100,000 limit.

Equity Aid and Levy - Beginning in FY 2005, a district's equity revenue is equalized on referendum market value using an equalizing factor of \$476,000.

- 8. Small Schools Revenue** – Small schools revenue is allocated to school districts (excluding charter schools) based on their enrollment. Districts with more than 960 adjusted pupil units do not qualify for the revenue. The formula for the revenue is \$544 times the district's adjusted pupil units, multiplied by a factor that allocates more revenue per pupil to smaller school districts on a sliding scale. The definition of a district for small schools revenue purposes includes a high school that is eligible for sparsity aid in a district with at least two high schools.

Beginning in FY 2013, a school district (but not a charter school) that serves fewer than 1,000 pupil units is eligible for small schools revenue. For FY 2013 and 2014, small schools revenue equals \$5,224 times 0.1, times the district's adjusted marginal cost pupil units, times the ratio of the 1,000 less the district's AMCPUs to 1,000. For FY 2015 and later, the maximum threshold changes to 960 pupil units to conform to the new lower pupil units, and small schools revenue equals \$544 times the district's adjusted pupil units, times the ratio of 960 less the district's adjusted pupil units to 960.

- 9. Transition Revenue** - Transition revenue guarantees school districts that changes to various funding formula will not result in the districts receiving less revenue in the current fiscal year than it received in the prior fiscal year. It is a 'hold harmless' provision. Transition revenue was originally a revenue guarantee for 2003-04 revenue, fixed at the 2004-05 amount per pupil. Since then it has been expanded to include additional components. Beginning in FY 2015 the following components have been added:
- Achievement and integration revenue transition;
 - Pension adjustment transition;
 - Special education transition, and
 - Special education excess cost aid transition.

Transition revenue is a fixed amount that is undesignated and may be used for any general fund purpose. Transition revenue is a mix of aid and levy, levied against referendum market value, using \$510,000 as the equalizing factor.

NOTE 5 – SCHOOL FUNDING (CONTINUED)

10. Pension Adjustment Revenue - Some of the changes in the school district employer-paid retirement contributions have been linked to other changes in school funding. For years prior to FY 2015, a school district's general education revenue is reduced by two decreases in employer contribution rate and increased by two increases in the employer contribution rate. The calculation for the reduction is as follows:

- *General Education Retirement Reduction =*
- *1984 PERA Adjustment (1) +*
- *FY 1997 TRA Adjustment (2) -*
- *FY 1999 PERA Adjustment (3) -*
- *FY 2007 TRA Adjustment (4)*

- (1) The 1984 PERA (Public Employees Retirement Association) adjustment equaled the amount of the 1984 PERA rate reduction times the school district's 1984 PERA payroll.
- (2) The fiscal year 1997 TRA (Teachers Retirement Association) reduction equaled 2.34 percent times the district's 1997 TRA payroll. (Prior to 1997, the reduction was .84 percent of TRA payroll. This reduction was added to the 2 percent reduction made in 1997, then reduced to the net amount of 2.34 percent after compensating for the PERA revenue increase under (3)).
- (3) The fiscal year 1999 PERA increase equaled .70 percent times the district's 1999 PERA payroll.
- (4) The fiscal year 2007 increase equaled .50 percent times each district's 2007 TRA payroll.

The reduction is a fixed total dollar amount (not a per pupil amount) and does not change each year unless the district's teacher payroll is significantly lower than in the previous fiscal year, in which case the Commissioner of Education recalculates a lower reduction based on the new payroll data. The adjustment will be statutorily eliminated as of June 30, 2020. For FY 2015 and later, a district's pension adjustment revenue equals the difference between its per pupil pension adjustment for FY 2014 and the statewide average adjustment for that year.

11. Options Adjustment - A school district's general education revenue is adjusted by the options adjustment based on enrollment changes made under student movement programs. A district's general education revenue is reduced for referendum aid attributable to resident pupils who are open enrolled, certain aid payments for resident pupils who attend the Minnesota Academies for the Deaf or Blind and certain charter school transportation payments. A district's general education revenue is increased by an amount equal to the referendum aid attributable to nonresident students served by the school district, plus an aid amount equal to the transportation portion of each charter school pupil whom the district transports.

12. Local Optional Revenue - The 2013 Legislature created a new component of general education revenue called location equity revenue. Effective FY 2016 and later, this revenue source has been renamed as local optional revenue and is equal to \$424 per pupil for every school district. Local optional revenue is offset from each district's approved amount of referendum revenue, so for most qualifying districts, local optional revenue provides no direct additional revenue. Instead, local optional revenue provides space under the referendum allowance cap and provides enhanced equalization revenue for some districts.

13. Declining Enrollment - Districts that experience declining enrollment from year to year are eligible for declining enrollment revenue. Previously, declining enrollment revenue was captured as part of "marginal cost pupil unit" calculations in many funding formulas. Due to pupil weighting simplification effective for FY 2015, a separate declining enrollment category is established.

Declining enrollment revenue acknowledges that lost per pupil funding due to fewer students does not always align neatly with the district's ability to cut its personnel and other operating costs. The declining enrollment formula is 28 percent of the current year formula allowance times the difference between the adjusted pupil units for the current year and the adjusted pupil units for the previous year.

NOTE 5 – SCHOOL FUNDING (CONTINUED)

E. Alternative Teacher Compensation Revenue – Alternative teacher compensation, also called Q Comp revenue, was created to encourage districts to adopt alternative pay structures for teachers. Q Comp revenue of \$260 per prior year unweighted pupils is available to school districts, intermediate school districts and charter schools that develop and implement an alternative teacher pay system by October 1 of that school year. In order to qualify for the revenue, the district must, one full school year prior to the year of implementation, notify the Commission of Education of the district's intent to implement an alternative pay system.

The \$260 per pupil of revenue is a mix of aid and levy, with 65 percent, or \$169, of the per pupil amount coming in the form of state aid and the remaining \$91 per pupil in the form of equalized levy revenue. The levy revenue is equalized using an equalizing factor of \$6,100 of adjusted net tax capacity per pupil.

F. Aid and Levy Calculations - School districts receive general education revenue from both state aid payments and local property taxes while charter schools receive their general education revenue entirely in state aid. The mix of aid and levy is designed to equalize local tax burdens. A school finance program that provides the same amount of total revenue per pupil unit to each district and requires the same tax rate of local effort is said to be fully equalized. Under an equalized system, the higher a district's property wealth per pupil unit, the lower the amount of general education aid the district receives from the state and the higher the amount of revenue provided through the local district's property tax.

1. **Student Achievement Levy** - Beginning in FY 2015, a general education levy called the student achievement levy is reinstated. It is intended to raise \$20 million. This levy is based on adjusted net tax capacity and is set at a rate of 0.30 percent for FY 2017. Districts may choose to levy all or part of this levy. If a district chooses to levy less than the maximum in this category, its share of total general education revenue not subject to an aid/levy split is reduced proportionately.
2. **Operating Capital Levy and Aid** - Beginning in FY 2005 (taxes payable in 2004), a district's operating capital is provided through an equalized aid and levy. For the decade prior to FY 2005, the full amount of operating capital was provided through state aid). The equalizing factor for FY 2018 is \$17,473.
3. **Equity Levy and Aid** - Beginning in FY 2005, a district's equity revenue was equalized on referendum market value using an equalizing factor of \$476,000 (the same equalizing factor used for calculating the first tier of referendum revenue). This revenue is calculated and spread on referendum market value, so the levy is not spread on agricultural lands or seasonal recreational property. Prior to FY 2005, a district's equity revenue was provided entirely in state aid. For FY 2014, about \$21 million in equity revenue was provided in state aid; the remaining \$72 million was raised through the levy. For FY 2015 and later, the equalizing factor is changed to \$510,000 to adjust for the lower pupil weight.
4. **Transition Levy and Aid** – Prior to FY 2005, a district's equity revenue was provided entirely in state aid. Beginning with FY 2005, a district's transition revenue was equalized on referendum market value using an equalizing factor of \$476,000. For FY 2015 and later, the equalizing factor is changed to \$510,000 to adjust for the lower pupil weights.
5. **Referendum Revenue** - The referendum revenue program, often referred to as the excess operating levy, is a mechanism that allows a school district to obtain voter approval to increase its revenue beyond the limits set in statute. Because of the exceptional growth in the referendum levy in the late 1980s and early 1990s, the legislature has made several changes to the program, including equalizing a portion of the revenue, capping the total amount of per pupil revenue a district may have, limiting the length of time that new referendums may run and requiring referendums approved after November 1, 1992 to be spread on referendum market value instead of tax capacity.

The 2001 Legislature greatly reduced the referendum levy beginning in FY 2003. Each district's referendum revenue was reduced by \$415 per pupil unit. (A district with less than \$415 per pupil in referendum authority lost the full amount of its authority.) At the same time the referendum was reduced, the basic formula allowance for all districts was increased by \$415 per pupil unit. As a result, referendum revenue was reduced by approximately \$200 million. Since that time, referendum revenue has increased substantially as a result of subsequent elections. The 2013 Legislature made a number of significant changes to referendum revenue beginning in FY 2015. These changes include:

- a. Changing the allowance from an amount per resident marginal cost pupil unit to an amount per adjusted pupil unit (the FY 2015 conversion will keep the total dollar amount of authority the same);
- b. Allowing a district to implement the first \$300 per pupil of referendum authority by board action;

NOTE – SCHOOL FUNDING (CONTINUED)

- c. Creating a new category of revenue called location equity revenue and allowing a board to choose to convert referendum authority to location equity revenue;
- d. Dividing the equalization aid into three tiers and increasing the equalization of the first tier, and
- e. Modifying the referendum revenue cap and eliminating the grandfather cap.

Referendum Revenue Cap - A school district eligible for sparsity revenue is not subject to a cap on referendum revenue. For other districts, for years prior to FY 2015, a district's maximum total referendum allowance is limited to 26 percent of the formula allowance adjusted for inflation (\$1,597 for FY 2014). For those districts with authority from 1994 that were above the cap, their capped authority increased by 26 percent of the formula allowance or 17.7 percent less \$215 (instead of the \$415 subtraction that applies to other school districts, whichever is greater). For FY 2015 and later, the referendum revenue cap is \$1,845 adjusted for inflation.

Referendum Revenue Equalization - A portion of each district's referendum revenue is subject to equalization. The first tier of equalization aid is \$300 per adjusted pupil unit with an equalizing factor of \$880,000 per pupil. The equalizing factor for the second is \$510,000 and \$290,000 for the third tier.

Referendum Tax Base Replacement Aid - Referendum tax base replacement aid was implemented by the 2001 Legislature as a mechanism designed to compensate school districts for the loss of agricultural land and cabin tax base. Tax base replacement aid is a frozen dollar amount based on FY 2003 characteristics. Any referendum equalization aid earned by the school district is first offset by referendum tax base replacement aid. The remaining equalization aid, if any, is the amount used when computing the referendum aid accompanying charter schools and open enrollment pupils. Referendum tax base replacement aid was eliminated for FY 2015 and later.

Election Requirements - A district's general levy can be increased with the approval of the voters at a referendum called by the school board on its own initiative or on petition of 15 percent of the school district residents. The election must be held during the November General Election only, unless the election is held by mail ballot or upon approval of the Commissioner of Education if the district is in statutory operating debt. If the election is conducted by mail ballot, it must be in accordance with state election law and each taxpayer must receive notice by first-class mail of the election and of the proposed tax increase at least 20 days before the referendum. A similar election may also be held to reduce or revoke the increase.

Beginning in FY 2015, the first \$300 per pupil of authority may be approved by board action and does not need to be voter approved.

Referendum Market Value - Unlike most other school district levies, referendum levies are spread on referendum market value instead of net tax capacity. Referendum market value is the market value of all property within the school district with two exceptions. First, all seasonal recreational property (cabins) and farmland are excluded from referendum market value. Second, any property with a class rate of less than 1 percent is taxed at its market value times its class rate.

G. Permanent School Fund Income - The Permanent School Fund (PSF) of Minnesota consists of the proceeds of the lands granted to the state by the federal government for the use of schools, proceeds from swamp lands granted to the state, and cash and investments credited to the fund. While much of the initial land granted to the state has been sold, the state Department of Natural Resources is responsible for managing about 2.5 million acres of school trust land. The net proceeds from the land management activities (timber sales, minerals activities, lease revenue, etc.) annually are added to the principal of the fund.

The state holds the land and accumulated revenues from the land in trust for the benefit of public schools in Minnesota. The State Board of Investment is responsible for investing the principal of the fund, subject to direction from the Constitution and the legislature. The interest and dividends arising from the fund are required by the Constitution to be distributed to the state's school districts according to the method described in statute.

Prior to FY 2010, the earnings from the PSF were simply offset against each district's general education aid. Beginning in 2010, the offset was eliminated and school districts began receiving income from the PSF as additional state aid. The aid payments are distributed to schools through a formula that provides two semiannual payments of aid to schools based on each school's count of pupils. For FY 2010 and FY 2011 and for the September payment in FY 2012, the payments were based on resident pupils. Beginning

NOTE 5 – SCHOOL FUNDING (CONTINUED)

with the March 2012 payment, the PSF payments to schools are based on pupils served, and payments go to both traditional school districts and charter schools.

H. Capital Finance - School districts must finance both ongoing capital needs, such as equipment purchases, repairs and maintenance, as well as major building construction projects. Major building projects are usually financed at the local level, often with the assistance of state-paid debt service equalization aid. Districts borrow money through the sale of bonds and levy an annual tax to repay the money over a period of years. Smaller remodeling projects, equipment purchases and other ongoing capital needs are normally financed by capital revenue programs.

Beginning with the 1996-97 school year, two of the largest capital funding formulas – the equipment formula and the facilities formula – were moved from the capital fund to a reserved account in the general fund. The purpose of this change was to allow districts greater discretion in the use of operating money for capital needs. The new formulas, named operating capital revenue, are a component of the general education revenue program. School districts may now use general fund operating revenue for capital programs, but operating capital revenue must be used for specified capital purposes and may not be used for general operating purposes.

The financing methods available to districts to obtain funds for ongoing capital needs and major construction projects are explained below.

Review and Comment on Construction Projects - When a new school building is constructed or when an existing facility is substantially remodeled, a district incurs a substantial financial obligation that must be met immediately. School districts issue bonds to obtain the funds necessary to pay the contractors. The district then pays back the bonds over a period of years with money raised from the debt service levy and any debt service aid received from the state.

Because of the importance and cost of major construction projects, the Minnesota Department of Education provides a review and comment on each major project.

Any project that requires an expenditure of more than \$2,000,000, except for certain deferred maintenance projects, must be submitted by the district to the commissioner for review and comment, unless the school district has an outstanding capital loan, in which case the project must be submitted for review and comment for any expenditure in excess of \$500,000.

The commissioner may give the project a positive, unfavorable or negative review and comment. If the project receives a positive review and comment, the district may hold a referendum to authorize the sale of bonds and upon approval of a simple majority of the voters, the project may proceed. If the commissioner submits an unfavorable review and comment, the local school board must reconsider the project. If the local school board decides to continue with the project, the referendum to authorize the sale of bonds must receive the approval of at least 60 percent of the voters. If the commissioner submits a negative review and comment, the school board cannot proceed with the project.

I. Debt Service Revenue - Minnesota's local school districts have generally financed the construction of new school buildings through the sale of bonds. The bonds are repaid with revenue raised from the local district's property tax receipts. The total amount of building bonds issued by the district determines the yearly debt service that the district must pay and the amount of bonds issued is, directly related to the district's building needs. The tax rate that the district levies in order to make its debt service payments depends both on the amount of debt and the size of the district's property tax base. The larger the debt, and the smaller the property tax base, the greater the district's tax rate for debt service needs.

J. Debt Service Equalization Aid - The debt service equalization aid program provides state aid to local school districts to help repay the bonds issued to finance construction. The amount of a school district's debt service that the state will pay depends on two factors, the district's total amount of annual debt service and the district's taxable property tax base (net tax capacity) per pupil.

Debt service equalization aid is available for a school district's qualifying debt service. Debt service amounts that qualify for debt equalization are general debt service amounts for land acquisition, construction costs and capital energy loans. Net debt is the sum of these amounts reduced by any excess balance that the district has in its debt redemption account. All debt incurred prior to July 1, 1992, will be included in the district's net debt. However, debt incurred after July 1, 1992, must be for facilities that:

NOTE 5 – SCHOOL FUNDING (CONTINUED)

- Receive a positive review and comment from the Commissioner of Education;
- Are comparable in size and quality to facilities in other districts, and
- Have been reviewed by all neighboring school districts.

The debt service revenue is divided into tiers. For FY 2013 and later, the first tier applies to the portion of a school district's debt that is less than 15.74 percent of the district's adjusted net tax capacity. The first tier must be provided entirely through the local levy. The second tier applies to the portion of debt revenue between 15.74 percent and 26.24 percent of adjusted net tax capacity. This tier is equalized at a relatively low level. For FY 2018, a district qualifies for state aid only if its per pupil tax base is less than \$4,400. The remaining debt revenue makes up the third tier, which is equalized at a high rate of \$8,000 per pupil.

K. Capital Project Referendum - A school district may conduct an election to approve funds for certain capital projects. (This program was formerly called the Down Payment Levy.) When approved by a voter referendum, school districts may levy for no more than 10 years the amount authorized for a down payment on future construction costs or for specific capital projects. Proceeds of the levy must be placed in a special account and used only for the approved purposes.

L. Maximum Effort School Aid Law - Some districts find it difficult or impossible to finance construction projects through conventional bond sales because the district property tax base is too small. These districts can qualify for state assistance under the Maximum Effort School Aid Law. Under this program, the state borrows money via bond sales and lends it to qualifying school districts on favorable terms.

Two types of loans are available, capital loans (for new construction projects) and debt service loans (to reduce the amount which districts must levy for debt service on completed projects). Qualifying districts can obtain either or both types of loans. A district is eligible for a capital loan only if its net debt tax rate, after any state-paid debt service equalization aid, is more than 32 percent of adjusted net tax capacity.

Capital loans and debt service loans are initially funded by the sale of state bonds. In addition to the bond proceeds, supplemental appropriations by the legislature are necessary to make principal and interest payments because repayments of loans by districts are occurring at a slower rate than that required to meet the state's obligations.

M. Cooperative Facilities Grant Program - The cooperative facilities grant program provides state grants to groups of local school districts that desire to build or remodel a facility. Prior to July 1, 2007, the program focused only on secondary facilities. A district must meet the same criteria as required by the consolidation program in order to qualify for a grant; for nonconsolidated districts, a minimum of two school districts must agree to apply for the grant. Grant amounts are currently limited to the lesser of 75 percent of the project cost, \$20 million for a new facility or \$10 million for a remodeling project.

A consolidated school district or a group of districts that wants a cooperative facility grant must apply to the Minnesota Department of Education for project approval. If the state makes state general obligation bond proceeds available, the district or districts must hold a referendum to approve the sale of bonds for the local portion of the project costs within 180 days of receiving a state grant. The referendum must be approved by a majority of those voting on the bond issue. In some years, the legislature has awarded a \$100,000 planning grant to potential grant recipients and has also named specific grantees in law when the bond proceeds are made available.

N. Bonds for Certain Capital Facilities - A district may issue general obligation bonds without voter approval for certain capital projects. The bonds must be repaid within fifteen years of issuance with the district's annual operating capital revenue.

O. Long-Term Facilities Maintenance Revenue (LTFMR) – The 2015 Legislature created a new program to support facilities maintenance needs for school districts, charter schools, and cooperatives, including intermediate school districts. Beginning with the 2016-17 school year, Long-Term Facilities Maintenance Revenue, a per pupil, formula-driven revenue source, will replace health and safety revenue, alternative facilities revenue, and deferred maintenance revenue.

LTFMR is provided through a per pupil allowance. The per pupil allowance for school district is \$292 for FY 2018 and \$380 for FY 2019 and later. To determine the initial revenue, the school district allowance is multiplied by the lesser of one, or the ratio of the average building age to 35, and the pupil units for that year.

NOTES – SCHOOL FUNDING (CONTINUED)

A school district may add to its per pupil amount the costs for health and safety for indoor air quality projects, asbestos abatement projects, or fire alarm and suppression where the cost of any of these projects at any site exceeds \$100,000. If this amount is less than the amount the district would have received under the former alternative facilities and health and safety formulas, the district is grandfathered in at the higher level of revenue. Districts may add to their revenue amount the proportional share of any qualifying costs allocated from any cooperatives to which the district belongs.

P. Health and Safety Revenue – For FY 2016 and earlier, a district with a building problem related to health or safety concerns may submit an application to the Commissioner of Education for authorization to receive health and safety revenue.

Health and safety revenue may be used for the following purposes:

- Remove or encapsulate asbestos;
- Dispose of polychlorinated biphenyls (PCBs);
- Remove and dispose of fuel oils;
- Eliminate a fire hazard;
- Remove a life safety hazard, and
- Correct certain air quality problems

The 2003 Legislature narrowed the scope of projects that qualify for health and safety revenue (particularly indoor air quality projects). The legislature also required any project in excess of \$500,000 to be handled through the Alternative Facilities Program. Beginning in FY 2017, health and safety revenue is replaced by long-term facilities maintenance revenue.

Q. Alternative Facilities Program – For FY 2016 and earlier, certain school districts may choose to participate in the Alternative Facilities Program instead of the health and safety revenue program. A district qualifies to participate in the Alternative Facilities Program if the district has:

1. More than 66 students per grade;
2. Either:
 - a. More than 1,850,000 square feet of space and an average age of building space that is 15 years or older, or
 - b. More than 1,500,000 square feet of space and an average age of building space that is 35 years or older;
3. Insufficient funds from projected health and safety revenue and capital facilities revenue to meet the district's need for deferred maintenance repairs, to make accessibility improvements, or to make fire, safety or health repairs, and
4. A 10-year facility plan approved by the commissioner.

Four districts have been granted program eligibility through special laws that have been enacted.

In addition to the eligibility factors listed above, the 2003 Legislature required any health and safety project with a cost exceeding \$500,000 to be funded through alternative facilities bonds.

An eligible school district may issue general obligation bonds without voter approval to finance the approved facilities plans. The district may then levy to repay the bonds. This levy qualifies for debt service equalization aid. Alternatively, an eligible district may make an annual levy for the costs incurred under the 10-year facility plan. The 1997 and 1998 Legislatures provided ongoing state aid payments to reduce these levy amounts for districts that qualified at that time.

For FY 2017 and later, alternative facilities revenue is incorporated in the long-term facilities maintenance program.

R. Deferred Maintenance Revenue - Beginning in FY 2008, a school district that is not eligible for alternative facilities revenue under Minnesota Statutes, section 123B.59, subdivision 1, paragraph (a), is eligible for deferred maintenance revenue. Deferred maintenance revenue must be maintained in a reserve account and used only for deferred maintenance purposes. For FY 2017 and later, deferred maintenance revenue is replaced by long-term facilities maintenance revenue.

S. Disabled Access and Fire Safety Levy - A district that has insufficient money in its capital expenditure fund to either remove architectural access barriers from a building or to make fire safety modifications required by the fire inspector, may submit an application to the commissioner for approval of levy authority of up to \$300,000 spread over an eight-year period. For disabled

NOTE 5 – SCHOOL FUNDING (CONTINUED)

access projects, the commissioner shall develop criteria to determine the cost effectiveness of removing barriers in consultation with the Minnesota State Council on Disabilities. The commissioner shall approve or deny an application within 60 days of receiving it. The state has also provided state bond proceeds to help small school districts remove barriers: \$1 million was approved in 1993, \$4 million was approved in 1994, \$2 million was approved in 1996 and \$1 million was approved in 1998.

T. Building Lease Levy - The leased facilities levy authority allows districts to levy to pay rent on leased facilities. The levy authority has been modified many times in the last two decades. The allowable purposes of the levy were narrowed and then expanded. Currently, upon the commissioner's approval, districts may levy for leased facilities when the leased facility would be economically advantageous. The lease levy must not exceed the lesser of the lease costs or \$212 per pupil unit, except that a school district that is a member of an intermediate school district may levy an additional \$65 per pupil unit for space in intermediate facilities. The facilities must be used for instructional purposes.

U. Telecommunications/Internet Access Aid - School districts, charter schools and nonpublic schools are eligible for state aid to pay for a portion of their telecommunications and Internet access costs. Beginning in FY 2006, the telecommunications/Internet access aid program grants school districts and charter schools aid equal to 90 percent of the schools' unreimbursed telecommunications costs exceeding \$15 per pupil unit, unless the district is a member of a telecommunications cluster, in which case the aid equals 90 percent of the unreimbursed cost.

School districts are required to provide telecommunications and Internet access to nonpublic schools (excluding a homeschool) located within the district's boundaries through a reimbursement equal to 90 percent of the nonpublic school's unreimbursed costs exceeding \$10 per pupil unit. The school district receives additional telecommunications/Internet access aid from the state for this purpose.

In order to qualify for the aid, school districts and charter schools must submit their actual telecommunications and Internet access costs to the Commissioner of Education and file applications for federal Internet funds (commonly referred to as e-rate funds).

V. Literacy Incentive Aid - Schools are eligible for additional aid based on how well students in the third grade read (proficiency aid), and how much progress is being made between the third and fourth grades in reading skills (growth aid). Proficiency aid is calculated by multiplying \$530 times the average percentage of students in a school that meet or exceed proficiency over the current year and previous two years on the third-grade reading portion of the Minnesota Comprehensive Assessment (MCAs), multiplied by the number of students enrolled in the third grade at the school in the previous year. Similarly, growth aid is calculated by multiplying \$530 times the percentage of students that make medium or high growth on the fourth-grade reading MCAs multiplied by the previous year's further grade student count.

W. Special Education Mandate – Local school districts are required by state law to provide appropriate and necessary special education to children with disabilities from birth to 21 years of age. Children with disabilities are defined in statute to include children who have a hearing impairment, visual disability, speech or language impairment, physical disability, mental disability, emotional/behavior disorder, specific learning disability, deaf/blind disability, or other health impairment. The definition of a child with disability also includes every child under age five who needs special instruction and services, as determined by state standards, because the child has a substantial delay or an identifiable and known physical or mental condition. The mandate for services does not include pupils with short-term or temporary physical or emotional disabilities.

Special Education Funding Formulas - School districts receive state aid and some federal aid to pay for special education services. If these funds are insufficient to pay for the costs of the programs, districts must use other general fund revenue to make up the difference.

- 1. Special Education Revenue for FY 2014 and Later** - The 2013 Omnibus Education Finance bill modified the way Minnesota's special education services are funded for FY 2014 and later. Prior to the changes, Minnesota's special education formula was considered a partial cost reimbursement formula. As described on the previous two pages, this formula calculated each district's authorized spending on special education services (consisting primarily of the salary costs of special education teachers and aides providing services to students with IEPs) and reimbursed the district for a portion of those costs.

NOTE 5 – SCHOOL FUNDING (CONTINUED)

During the 2013 session, Governor Mark Dayton proposed modifying the formula to base a portion of the funding on a “census style” of funding. Under a census-funding basis, a count (census) of different types of students is made and funding is assigned for each category of disability.

The 2013 Legislature adopted a modified version of the governor’s funding proposal. The goal of the formula is to provide some special education funding based on student characteristics and to partially move away from a cost-reimbursement formula.

For FY 2014 and 2015, the new formula is being phased in and combines elements of the cost-based special education aid formula with a cross-subsidy reduction aid based on the characteristics of the district. A district’s cross-subsidy reduction aid equals the lesser of:

- a. the product of the cross-subsidy reduction aid limit and the district’s average daily membership, or
- b. the product of the cross-subsidy reduction aid percentage, the district’s average daily membership and the sum of:
 - \$450;
 - \$400 times the district’s number of pupils eligible for free school meals and 50 percent of the number of pupils eligible for reduced-price school meals; and
 - .008 times the district’s average daily membership, plus
 - \$10,100 times the count of students with autism spectrum disorder, developmental delay or severely impaired;
 - \$17,500 times the count of students who are deaf/hard of hearing or have an emotional behavioral disorder, and
 - \$26,000 times the count of students who are developmentally cognitive mild-moderate, developmentally cognitive severe-profound, physically impaired, visually impaired, or deaf/blind.

Once the formula is phased in, beginning in FY 2016, a district will be eligible for the sum of its special education-related transportation services, and the lesser of:

- a. 50 percent of the district’s nonfederal expenditures for the previous year;
- b. 62 percent of the district’s special education revenue computed under the old formulas, or
- c. 56 percent of the sum of the district’s average daily membership times the sum of:
 - \$450;
 - \$400 times the district’s number of pupils eligible for free lunch and 50 percent of the number of pupils eligible for reduced-price school meals;
 - .008 times the district’s average daily membership;
 - \$10,100 times the count of students with autism spectrum disorder, developmental delay, or severely multiply impaired
 - \$17,500 times the count of students who are deaf/hard of hearing or have an emotional behavioral disorder, and
 - \$26,000 times the count of students who are developmentally cognitive mild-moderate, developmentally cognitive severe-profound, physically impaired, visually impaired or deaf/blind.

2. Excess Cost Aid – For FY 2016 and later, a district’s special education excess cost aid equals the greater of:

- a. 56 percent of the difference between the district’s unreimbursed special education expenditures and 7 percent of the district’s general revenue, or
- b. 62 percent of the difference between the district’s unreimbursed special education revenue under the former formula and 2.6 percent of the general revenue.

3. Home-based Travel Aid - The state pays 50 percent of the expenditures on necessary travel of essential personnel to provide home-based services to children with a disability who are under 5 years old.

NOTE 5 – SCHOOL FUNDING (CONTINUED)

4. **Aid for Children with Disabilities (Special Pupil Aid)** - Some disabled children don't have a resident district because their parents' rights have been terminated, or their custodial parent or guardian lives outside Minnesota or is an inmate or resident of a state correctional facility. In these cases, the state pays to the serving school district 100 percent of the costs of instruction and services, less the general education basic revenue allowance and any other aid earned on their behalf.
5. **Court-placed Special Education Revenue** - When a school district serves a child from another state who was placed by a court in Minnesota and when the school district responsible for providing services for that student is unable to collect tuition from the resident state or school district, the school district may request reimbursement from the state of Minnesota for the unreimbursed special education costs.
6. **Out-of-State Tuition for Special Education Students** - When a court places a Minnesota child in a care and treatment facility in another state and when the resident school district receives a bill for services from the out-of-state provider, the Minnesota district may seek reimbursement for the unfunded services.

NOTE 6 – BUDGET DEVELOPMENT PROCESS**A. Budget Timeline**

The school district budget cycle is a continuous five-step process that is mandated by state law. Each step outlined below requires School Board approval and is open for public inspection and comment. Since the process spans multiple school and calendar years, the district can be in multiple phases of the process at any given time.

- 1.) **Property Tax Levy** - The budget process begins with submission of estimated property tax levy information to the Minnesota Department of Education (MDE) by mid-July. The MDE sets the maximum amount each district may levy based on current legislation. The School Board certifies the levy before the end of the calendar year.
- 2.) **Preliminary Budget** – State Statute requires the school boards to approve a preliminary budget before the start of the school year on July 1. This process includes completion of enrollment projections and five-year budget forecast, development of staffing guidelines and determination of revenue and expenditure assumptions.
- 3.) **Final Budget** - Each fall, the Finance Department prepares a final budget that includes actual October 1 enrollment and any changes in law that affect education finance. The School Board approves the final budget in December or January.
- 4.) **Budget Adjustments** - Each spring, the School Board approves budget adjustments to account primarily for grant dollars the district may have received during the year. These adjustments allow for accurate funding for programs and provide the most accurate basis for developing the preliminary budget for the next fiscal year.
- 5.) **Annual Financial Report and Audit** - The final step in the budgeting process is closing the books and preparing financial statements for the year. During this step the district undergoes an independent audit as required by state law. The School Board typically reviews the audited financial report in October or November.

Item / Activity	Fiscal Year												Calendar Year

NOTE 6 – BUDGET DEVELOPMENT PROCESS (CONTINUED)**B. Budget Assumptions and Projections**

This budget and future projections are developed based on assumptions and parameters which were discussed with the district's Budget Advisory Council and ultimately approved by the School Board. Below is a summary of the assumptions and parameters.

Enrollment: The district uses several methods to project student enrollments. These projection methods are reviewed by the district enrollment committee and a combination of the projection methods described below as agreed upon and presented to the School Board for approval.

1. **Cohort Survival (grade progression):** Based on the ratio between the number of students at one grade level versus the number in the previous grade level the prior year.
2. **Live births-to-actual:** Live births information obtained from the Minnesota Department of Health is used to project the number of eligible kindergarten students who will reside in the district at age five.
3. **Eligible-to-actual enrolled:** The actual number of eligible kindergarten students is determined by the number of preschoolers within the kindergarten age group in each elementary school attendance area.
4. **Census based:** The district is divided into 130 census/sub areas. Student Information staff work with various utilities companies within the district boundary to track the number of household units, school-aged children and actual number of students per household enrolled in the district's schools, other private or public schools, or being educated at home. To project student enrollment, students who are enrolled in the district as of October 1 of each school year are advanced to the next grade. In addition, the district also maintains child per housing unit (CPU) by dwelling types and uses this data to project the number of additional school-aged children who might attend from new housing developments within each attendance area. CPU ratios are calculated based on actual October 1 information per dwelling types (i.e. single family homes, townhomes and apartments). The number of new students to be added to the preliminary enrollment projection totals is determined by applying the appropriate CPU ratios to the respective new housing units. These numbers are then added to the preliminary enrollment projection totals.

Below is a summary of enrollment projections approved by the School Board at the November 14, 2016 meeting:

	<u>2017-18</u>	<u>2018-19</u>	<u>2019-20</u>	<u>2020-21</u>	<u>2022-22</u>
Projected Enrollment	27,803	28,968	29,276	29,803	30,077

Expenditures:

The following key expenditure assumptions and parameters are used in the preparation of the five-year financial forecast:

- Fund balance reserve goal is not less than 5 percent of total projected expenditures
- Staffing contracts/increases as approved by the board included in the plan
- Medical Costs increase by 6 percent for future years
- General inflation increases of 2 percent for all future years and the following other independent increases:
 - Contracted services increased by 5 percent
 - Snow removal increased by 3 percent
 - Electricity and natural gas increased by 5 percent
 - Property and liability insurance increased by 3 percent
 - Contracted transportation increased by 3 percent
 - Transportation fuel costs increased by 4 percent
 - District contribution to TRA and PERA remain at current level as stated in state statutes

NOTE 6 – BUDGET DEVELOPMENT PROCESS (CONTINUED)

The district maintains a five-year financial forecast system. This system is used for financial planning and is updated several times throughout the year to reflect legislative changes, student enrollment, staffing adjustments, new programs, inflationary adjustments and salary and employee benefits per approved contracts.

Listed below are some of the key revenue and expenditure assumptions used in the district's most recent five-year financial forecast.

Revenues:

- Basic general education funding formula increases of 1.5 percent per year (not currently legislated)
- Other categorical revenues held at current legislative authority levels
- Referendum authority at level authorized in the 2013 levy referendum election

Expenditures:

- Maintain a minimum fund balance of no less than 5 percent of total expenditures
- Instructional staffing ratios held at current level
- General inflationary adjustment at 2 percent
- Salary and employee benefits based on budget planning parameter or contracts approved by the School Board
- Electricity, property and liability insurance, health insurance and workers' compensation premiums are based on industry trends and/or district experience

Five-Year Forecast Summary:

The following table is a summary of the district's most recent five-year financial forecast. It was developed using enrollment projections reviewed by the School Board in November 2016 and the revenue and expenditure assumptions listed above.

	2017-18	2018-19	2019-20	2020-21	2021-22
Revenues	352,667,592	358,853,107	363,137,799	371,271,072	377,270,637
Expenditures	358,000,133	362,904,599	363,159,872	378,197,591	393,560,822
Revenues over expenditures	<u>(5,332,541)</u>	<u>(4,051,492)</u>	<u>(22,073)</u>	<u>(6,926,519)</u>	<u>(16,290,185)</u>

NOTE 7 – BUDGET ALLOCATIONS

The district operates in a decentralized or site-based environment. Annually, schools receive three different allocations from the district to support their operations: staffing, instructional and capital expenditure. Other programs, such as curriculum materials, major maintenance projects, special education program and facilities and grounds maintenance are centrally managed. A majority of the allocations to the schools are driven by student enrollment and per student allocations reviewed by the School Board.

A. Staffing Allocation

- Staffing allocations to the schools are based on the staffing guidelines and ratios developed by the administration and reviewed by the School Board. The 2017-18 staffing allocations to the schools are based on the guidelines and ratios approved by the School Board on February 6, 2017, and enrollment projections completed in November 2016. School principals and department managers are responsible for staffing their building or department according to their allocations.
 - Staffing for learning and development program – School districts are required to reserve a portion of the general education formula revenue to reduce and maintain class size in elementary grades, with first priority on kindergarten, first-, second- and third-grade class sizes. The allocations to each elementary school are based on enrollment projections presented to the School Board in November 2016.
- Staffing allocations for districtwide departments such as facilities and grounds, business services and human resources are based on guidelines and ratios reviewed by the School Board on February 6, 2017. Administrators are responsible for staffing their departments according to these allocations.
- Salary budgets are initially calculated by the Finance Department using the contract salaries for all employee groups that have an approved contract and verified by school principals and other administrators. These employee groups include bus drivers, custodians, secretarial and clerical employees and teachers. For building chiefs, food service workers, nonunion employees, and vehicle technicians, salaries and related expenditures are estimated based on budget guidelines as determined by the School Board on February 6, 2017.
- Employee benefits are estimated using a variety of techniques. Retirement benefits, social security and workers' compensation premium budgets are calculated as specified percentages of salaries. Budgets for health, dental, life insurance and the tax sheltered annuity match are estimated based on the projected number of employees reported by school principals and other budget administrators, premium information provided by the insurance carriers and current employee contracts. For groups that have no contract but for which there is a limit on the district contribution, increase in the maximum district contribution is based on budget guidelines as determined by the School Board on February 6, 2017.

NOTE 7 – BUDGET ALLOCATIONS (CONTINUED)

B. Instruction Allocations for Schools – The district maintains eight different allocations to the schools for instructional purposes. All of the district schools receive allocations for instruction, staff development, professional growth plan, team leaders, cocurricular staffing, compensatory education and basic skills. In addition, middle schools and high schools also receive cocurricular supplies allocations. **Instructional allocations** – Consistent with the School Board-approved budget-planning parameters, the 2017-18 instructional allocations to the schools have been increased by 2 percent to reflect a 2 percent inflationary adjustment.

- **Staff development** – This per pupil allocation is earmarked for staff development activities.
- **Professional Growth Plan (PGP)** – This allocation is used to supplement the per pupil staff development activities at the building. Funding authority for this allocation is based on a letter of understanding between the School Board and Dakota County United Educators (teacher's union).
- **Cocurricular staffing and supplies** – Middle schools and high schools receive cocurricular staffing and supplies allocations to support their cocurricular programs. Cocurricular staffing allocations for 2017-18 include a 2.4 percent increase. Cocurricular supplies allocations for 2017-18 have been increased to reflect a 2 percent inflationary adjustment.

Cocurricular Substitute Teachers – This allocation is given to the high schools to pay for substitute teachers who are hired to fill in for the teachers involved in state tournaments. Cocurricular substitute teacher allocations are specifically for high schools.

The following is a table showing the per pupil instructional allocations to the schools:

	Instructional	Staff Development	PGP	Cocurricular Staffing	Cocurricular Supplies	Cocurricular Sub-Teacher.
Alternative Learning Center	355.36	8.00	3.30	-	-	-
High Schools	173.33	8.00	3.30	74.49	142.25	3,023/school
Cocurricular Fixed Costs	-	-	-	682,700	-	-
Middle School	110.62	8.00	3.30	19.77	30.25	-
Cocurricular Fixed Costs	-	-	-	107,827	-	-
Title I Elementary School	120.45	8.00	3.30	1,141/Stipend	-	-
Non-Title I Elementary School	124.38	8.00	3.30	1,141/Stipend	-	-
Special Education						
Early Childhood Special Education, under 5 years old	34.48	8.00	3.30	-	-	-
Other-Elementary Schools	53.28	8.00	3.30	-	-	-
Other-Middle & High Schools	57.83	8.00	3.30	-	-	-

In addition to information listed above, the School of Environmental Studies receives cocurricular staffing allocations to support stipend payments for yearbook, Students Against Drunk Driving and Student Council.

- **Team Leaders** – This allocation provides stipends to department coordinators/team leaders in schools. The table below shows the formula used to calculate team leader allocations to the schools:

	Fixed Allocation per Building	Amount per FTE of Licensed Staff
Area Learning Center	-	100
School of Environmental Studies	2,000	220
High Schools	5,500	225
Middle Schools	4,000	175
Elementary Schools	10,524	109

NOTE 7 – BUDGET ALLOCATIONS (CONTINUED)

- **Compensatory Education Allocations** – Compensatory education revenues for the 2017-18 school year are based on estimates prepared by the Minnesota Department of Education dated March 3, 2017. These estimates are based on the district's actual enrollment and actual free and reduced-price school meal counts on October 1, 2016. Five percent of the revenue has been set aside for districtwide initiatives.
- **Basic Skills** – Per pupil unit allocations for grades K-8 remain at \$40.50 per pupil for non-Title I elementary and middle schools and \$20.25 for Title I elementary schools.

C. District Office Non-salary Budget Allocations

Non-salary budgets are determined by each administrator based on parameters established by the School Board, then reviewed and approved by the superintendent or the director of finance and operations. For 2017-18, the inflationary adjustment is 2 percent except for budget items, such as heating fuel and electricity, which are based on recent trends and industry directions.

D. Operating Capital Allocations for Schools

Annually, the district sets aside an amount to be allocated to the schools for capital expenditure needs that have been determined as the school's responsibility. Other capital expenditure needs that have been determined as responsibilities of the district are funded centrally.

Operating capital allocations to the schools are determined by the following factors:

- **Regular and special education student enrollment counts** are based on the district enrollment projections reviewed by the School Board in November 2016 and weighted as follows:
 - Kindergarten and grades 1-3 at 1.0
 - Grades 4-6 at 1.1
 - Grades 7-12 at 1.5
- **Building facilities' age and square footage** information compiled by the Minnesota Department of Education, and
- **Amount approved by the School Board** for distribution to the schools with a guaranteed minimum of \$6,500 per school.

NOTE 7 – BUDGET ALLOCATIONS (CONTINUED)

Staffing allocations for elementary schools are shown below.

School	Enrollment				Teachers (Licensed Staff)				
	SpEd	K-2	3-5	Total	K-2 (1)	Grades 3-5	Specialists	Band	Gifted
Cedar Park	-	338	387	725	14.707	13.808	5.141	0.510	0.550

Westview	34	184	220	437	7.979	7.852	3.600	0.240	0.300
Woodland	29	316	297	641	13.720	10.593	4.547	0.290	0.300
Totals					261.801	223.629	91.064	8.940	9.700

Staffing allocations are based on the staffing allocation guidelines approved by the School Board on February 6, 2017. The following shows some of the key staffing ratios:

- **Classroom teachers:** grades K-2, 1.0 FTE to 23 students, by building; grades 3-5, 1 to 28 students, by building
- **Specialists:** grades K-5, enrollment plus students in center-based special education program (CBSE) divided by 141, a guaranteed minimum of 3.6 FTEs per building
- **Instrumental music specialists:** 1.0 FTE per 177 students
- **Gifted and talented teachers:** allocations are based on actual number of students identified for the gifted and talented program
- **Nurses:** 0.875 FTE per building
- **Principal:** 1.0 FTE per building
- **Assistant administrator:** (grades K-5 enrollment times 0.00815) plus (grades K-5 center-based special education (CBSE) enrollment times 0.00815)
- **12-month secretary:** 1.0 FTE per building
- **10-month secretary:** (grades k-5 enrollment, including CBSE enrollment, times 1.88 secretary hours/year/student) divided by 1,392, with a guaranteed minimum of 0.9 FTE per building
- **10-month clerk:** (grades K-5 enrollment times 8.363 clerk hours/student) divided by 1,392, with a guaranteed minimum of 3.45 FTE per building

Total FTE Allocations	<u>47.759</u>	<u>57.823</u>	<u>56.897</u>	<u>65.611</u>	<u>54.285</u>	<u>53.519</u>	<u>335.894</u>

Staffing allocations are based on the staffing allocation guidelines approved by the School Board on February 6, 2017. The following shows some of the key staffing ratios:

- **Classroom teachers:** 1.0 FTE per 26.25 students, by building
- **Developmental psychology teachers:** 0.798 FTE per grades 9-12 high school
- **Librarians/media specialists:** 1.8 FTE per building
- **Counselors/deans:** 1.0 FTE per 445 students
- **Technology assistant:** 0.45 FTE of teacher per building
- **Teacher allowance for 6th and 7th student class requests:** 1.0 FTE per 1,000 students (adjusted with SES allocation)
- **Work experience disadvantaged:** 1.0 FTE per 31 students
- **Principal:** 1.0 FTE per building
- **Assistant principal:** 3.0 FTE per building
- **Assistant administrator:** 0.095 FTE per building, plus 0.5 FTE per 708 students for enrollment over 2,000 students
- **12-month secretary:** 4.0 FTE per building
- **10-month secretary:** (enrollment times 1.81 secretary hours/year/student) divided by 1,392
- **10-month clerk:** (enrollment times 3.33 clerk hours/student) divided by 1,392
- **Building security specialists:** 2.0 FTE per building

NOTE 7 – BUDGET ALLOCATIONS (CONTINUED)

Staffing allocations for high schools are shown below.

	AVHS	EHS	EVHS	RHS	SES	ALC	Total

Total FTE Allocations	<u>88.633</u>	<u>105.601</u>	<u>115.256</u>	<u>113.941</u>	<u>21.968</u>	<u>8.620</u>	<u>454.019</u>

Staffing allocations are based on the staffing allocation guidelines approved by the School Board on February 6, 2017. The following shows some of the key staffing ratios:

- **Classroom teachers:** 1.0 FTE per 26.25 students, by building
- **Developmental psychology teachers:** 0.798 FTE per grades 9-12 high school
- **Librarians/media specialists:** 1.8 FTE per building
- **Counselors/deans:** 1.0 FTE per 445 students
- **Technology assistant:** 0.45 FTE of teacher per building
- **Teacher allowance for 6th and 7th student class requests:** 1.0 FTE per 1,000 students (adjusted with SES allocation)
- **Work experience disadvantaged:** 1.0 FTE per 31 students
- **Principal:** 1.0 FTE per building
- **Assistant principal:** 3.0 FTE per building
- **Assistant administrator:** 0.095 FTE per building, plus 0.5 FTE per 708 students for enrollment over 2,000 students
- **12-month secretary:** 4.0 FTE per building
- **10-month secretary:** (enrollment times 1.81 secretary hours/year/student) divided by 1,392
- **10-month clerk:** (enrollment times 3.33 clerk hours/student) divided by 1,392
- **Building security specialists:** 2.0 FTE per building

SECTION III

Financial Section

Summary of Funds

All Funds

Funds Overview – Below is a summary of all the governmental funds, internal service funds and fiduciary funds of the district. The governmental funds include the general fund, special revenue funds which include food service and community service, building construction fund, and the debt service funds which include regular and other post-employment benefits (OPEB) bonds.

This summary provides an overview of the financial information for all of the district funds. Detailed analysis of the individual funds follows this page.

	2015-16 Actual	2016-17 Final Budget	2017-18 Prelim. Budget
Revenue

Note: The June 30, 2017 general fund projected fund balance shown includes as estimated \$5 million better-to budget performance. The original July 1, 2017 fund balance estimate is \$24,218,309.

As stated in Note 4 – Financial Philosophy, Practices and Fund Balance Management, the School Board adopted a fund balance policy requiring a minimum general fund balance of 5 percent of the annual projected operating expenditures. The resources represented by this fund balance are critical to the district's ability to maintain adequate cash flow throughout the year, to retain its programs and to cushion against the impact of unexpected costs for funding shortfalls.

Actual performances for the three prior years and projection for the current school year of this fund indicated that the district has been able to maintain a fund balance well over the 5 percent minimum requirement. This is mainly due to schools not spending all of their allocations; conservative budgeting practices for budgeting miscellaneous local revenues such as fees, admission, gifts, etc., and principals and administrators seeking ways to achieve efficiency.

Based on the latest general fund budget to actual performance analyses, the district expects that it will close the 2016-17 school year with a \$24.2 million fund balance, or \$5 million higher than the projected for June 30, 2017. This will bring the anticipated general fund June 30, 2017 fund balance to \$29.21 million, or 6.67 percent of projected operating expenditures.

The projection for the 2018-19 through 2020-21 school years are very preliminary, the district continues to monitor its budget to actual performance and update the projections on a regular basis. Necessary adjustments will be made to ensure that the fund balance requirement is met.

General Fund**All Sub-Accounts (continued)**

Revenues – Below is a summary of the general fund revenues by source:

	2013-14	2014-15	2015-16	2016-17	2017-18
	Actual	Actual	Actual	Final Budget	Prelim Budget
Revenues					
State Sources	248,498,786	244,220,251	254,809,742	259,108,590	261,793,897
Property Taxes	30,849,977	58,338,748	62,523,327	66,489,979	70,426,840
Federal Sources	7,811,310	8,318,521	8,655,141	10,737,990	11,386,881
Other Sources	12,577,673	11,459,730	10,566,455	8,017,913	9,059,974
Total revenue	299,737,747	322,337,250	336,554,666	344,354,472	352,667,592

The 2017-18 general fund revenue budget totaled \$352.66 million. This is \$8,313,120 or 2.41 percent more than the estimate for the current fiscal year. The primary reasons for this increase are:

- 1) A projected net increase of \$3.94 million in property tax revenue. This increase is mainly due to the passage of a 10-year, \$5.0 million per year capital project levy in November 2015.
- 2) A projected \$.99 million increase in basic general education aid. This increase is due to a \$61 per pupil unit formula allowance increase and an increase of 110 adjusted pupil units used to calculate basic general education aid.
- 3) A projected increase of \$1.69 million in special education state aid, due to projected changes in enrollment and expenditures.
- 4) A projected increase of \$0.64 million in federal aid from the U.S. Department of Labor to support the Youth Career Connect grant (E3 STEM Grant) activities at Apple Valley High School.

The pie chart shows the 2017-18 projected general fund revenues. State sources account for the largest share of general fund revenues, at 74.2 percent. State sources include per pupil basic general education aid, special education regular and excess cost aid, basic skills aid, compensatory education aid, English Learners aid and literacy incentive aid, operating capital state aid for equipment and facilities maintenance, and aid for gifted and talented education. State sources are set by the Minnesota Legislature, with most aids determined by per pupil allowances and actual allocations based on district pupil counts. Property taxes, at 20 percent, make up the second largest share of the revenue budget. As with state sources, tax levy limits are established by the Minnesota Legislature. The district also has the ability, through a levy referendum election, to seek additional property taxes (up to a per pupil maximum amount are established by the legislature) to support special programs and initiatives. Other and federal sources, both at approximately 5.8 percent of the budget, make up the remaining share of general fund revenues. Other sources include gifts, donations and miscellaneous income that do not fit into one of the other three revenue sources. Federal sources include revenues for Title programs and special education. Most of the federal revenues received by the district are passed through the state of Minnesota and not received directly from the federal government.

General Fund**All Sub-Accounts (continued)**

Expenditures – Below is a summary of the general fund expenditures by object:

	2012-13 Actual	2013-14 Actual	2014-15 Actual	2015-16 Actual	2016-17 Final Budget	2017-18 Prelim Budget
Expenditures						
Salaries and wages	188,018,282	194,127,469	202,126,161	208,886,709	216,037,041	223,933,661
Employee benefits	63,383,808	67,515,737	70,510,734	79,327,431	78,148,203	80,218,763
Purchased services	21,161,112	22,548,716	21,318,182	19,951,350	24,541,271	21,850,874
Supplies and materials	9,805,225	9,724,590	10,474,957	10,298,052	16,491,111	15,948,340
Capital expenditures	6,238,429	6,175,866	7,060,004	7,001,926	15,095,069	13,268,115
Other expenditures	1,704,713	626,792	753,187	632,004	734,084	613,573
Debt service	1,740,805	1,756,409	3,076,604	3,291,053	231,406	2,166,807
Total expenditures	292,052,373	302,475,579	315,319,828	329,388,523	351,278,185	358,000,133

The 2017-18 general fund expenditure budget totaled \$358 million. This is \$6.7 thousand or 1.91 percent more than the estimate for the current fiscal year. The two main reasons for this increase are:

- 1) An increase of \$9.76 million in the budgets for salary and employee benefits based on School Board approved contracts or budget planning guidelines reviewed by the School Board on February 8, 2017.
- 2) Reductions of \$5.1 million in other discretionary budget areas.

Expenditures – Object categories of general fund expenditures are salaries and wages, employee benefits, purchased services, supplies and materials, capital, other expenditures and debt service. Salaries and benefits account for the largest portion of general fund expenditures. For the 2017-18 school year, close to 85 percent of the expenditure budget is budgeted for salaries and benefits. Purchased services include utilities, legal services and other contracted work provided by outside sources and account for approximately 6.1 percent of the budget. Supplies and materials account for 4.5 percent of the budget. Capital expenditures, such as technology equipment, furniture and fixtures, site and building improvements and LTFM projects total \$13.2 million, or 3.7 percent of the total budget.

Special Revenue Funds

All Sub-Accounts Combined

Fund Overview – The special revenue funds consists of two separate funds. They are: 1) food service special revenue fund, and 2) the community service fund. Detailed financial information for these two special revenue funds can be found in the pages immediately following this summary page.

The following schedule shows the combined actual, budgeted and projected activities of the food service and community service special revenue funds for 2013-14 through 2020-21 school years, with revenues reported by the source and expenditures reported by object.

	2013-14	2014-15	2015-16	2016-17	2017-18	2018-19	2019-20	2020-21

The district's two special revenue funds (food service and community service) are used to report revenues and expenditures specifically specified in Minnesota Statutes. Both funds have a long history of self-sustaining.

The combined fund balance for the food service and community service fund has been declining. The actual and projected fund balance decrease can be totally attributable to the food service special revenue fund. The main reasons for the decrease are 1) increases in food and milk costs, and 2) the Healthy Hunger-Free Kids Act of 2010 requires more fresh fruit and vegetables, whole grain items and low-fat dairy be served on all menus. This United States Department of Agriculture (USDA) puts additional pressure on the food service special revenue fund's ability to maintain a healthy fund balance. The district will continue to monitor the budget to actual performance of this fund, look for ways to streamline the operation to achieve higher level of efficiency. See page 58 for food service special revenue fund actual and projected fund balances for 2013-14 through 2017-18 school years.

Similar to the food service special revenue fund, the community service special revenue fund is also self-sustaining. Unlike the food service special revenue fund, the fund balance for the community service special revenue fund remain rather stable through the years. This is likely due to the partnerships with local business to enhance and broaden our adult and youth enrichment program offerings which allows the program to be self-support without use of fund balance. See page 60 for community service special revenue fund actual and projected fund balances for 2013-14 through 2017-18 school years.

Special Revenue Funds
Food Service Fund

Fund Overview – The food service special revenue fund is used to account for the district’s food and nutrition program, which provides high-quality, nutritious breakfasts and lunches for students. The food service special revenue fund is self-sustaining. All costs of the food and nutrition programs are covered by receipts from sales to students and adults, and reimbursements from federal and state governments. Below is a summary of the food service special revenue fund activity, with revenues reported by the source and expenditures reported by object.

	2013-14 Actual	2014-15 Actual	2015-16 Actual	2016-17 Final Budget	2017-18 Prelim Budget

Special Revenue Fund**Food Service Fund (continued)**

Revenues – At 53 percent of the budget, other revenues represent the largest share of revenues in the food service special revenue fund. A majority of this source of the revenue comes from meal and a la carte food sales. Federal sources, at 41 percent, represent the second largest share of the revenue budget. The district receives reimbursement from the federal government for meals served to students who qualify for meal assistance. At 6 percent, state sources make up the remaining food service revenues. Similar to the federal reimbursements, the state of Minnesota also reimburses the district for each meal served to students who qualify for meal assistance. Beginning with the 2016-17 school year, the School Board approved a 10 cent per breakfast and lunch price increase for grade K-12 students and adults. Milk prices will remain unchanged for the 2017-18 school year. Price increases are driven by a federal mandate to improve the nutritional standards of school lunches

2016-17 Paid Meal Prices		
	Breakfast	Lunch
Elementary Schools	1.55	2.50
Middle Schools	1.60	2.55
High Schools	1.60	2.65
Adults	2.05	3.70
Milk (all)	0.40	0.40

nationwide. In addition, the Healthy Hunger-Free Kids Act of 2010 requires equity in school-lunch pricing to ensure the same level of financial support for meals served to all students. The table above shows district prices for lunch and breakfast for the 2016-17 school year. The 2017-18 food service fund revenue budget is \$12.53 million, an increase of \$203,137 over the 2016-17 final budget.

Expenses – At approximately 49 percent, supplies and materials represent the largest single share of food service expenditures; of which food and milk are the largest costs drivers. The Healthy Hunger-Free Kids Act of 2010 requires more fresh fruit and vegetables, whole grain items and low-fat dairy be served on all menus. This requirement, established by the United States Department of Agriculture (USDA), puts additional pressure on the food service special revenue fund's ability to maintain a healthy fund balance and remain a self-supporting fund. Salaries and benefits combined account for approximately 45 percent of the food service fund expenditures. The 2017-18 food service expenditure budget is \$12.26 million, a decrease of \$350,953, or 2.82 percent over the 2016-17 final budget. The projected increase is a result of many factors, both positive and negative. However, the main reason is projected increases in salary and benefits based on School Board approved contracts or budget planning guidelines reviewed by the School Board on February 6, 2016.

Special Revenue Fund Community Service Fund

Fund Overview – The community service special revenue fund is used to account for services provided to residents in the areas of recreation, civic activities, nonpublic pupils, adult and early childhood programs, or other similar services. The community service special revenue fund is required to be self-sustaining, in which all fees, sales and other reimbursements are expected to cover the operating costs associated with this fund. Below is a summary of the community service special revenue fund activity, with revenues reported by the source and expenditures reported by object.

Special Revenue Fund**Community Service Fund (continued)**

Expenses – Salaries and benefits represents close to 80 percent, and accounts for the largest portion of the budget. Purchased services, including utilities, legal services and other contracted work provided by outside sources, account for approximately 15 percent of the budget. The budgets for supplies and materials account for 5.3 percent of the budget. Capital and other expenditures, such as technology equipment, furniture and fixture, site and building improvements, memberships and license fees totaled 0.6 percent of the total budget.

The 2017-18 community service fund expenditure budget totaled \$8.79 million, a net increase of \$450,764, or 5.4 percent over the 2016-17 final budget.

The major reason for the increase is an increase of \$255,094 in the budgets for salary and benefits to reflect School Board approved contracts or budget planning guidelines reviewed by the School Board in February 2017 and additional teachers and non-licensed specialists to support additional program offerings.

Capital Projects

Building Construction Fund

Fund Overview – Up through 2015-16 school year, the capital projects building construction fund is used to account for financial resources used for the acquisition or construction of major capital facilities authorized by bond issue and state-approved alternative facility projects supported by property tax levy. Effective July 1, 2016, alternative facility projects is supported by the newly created long-term facilities maintenance (LTFM) program. The revenues and expenditures for LTFM projects must be reported in the general fund if they are supported by local property taxes. LTFM projects revenues and expenditures must be reported in the capital projects building construction fund if they are funded by bond proceeds. Since the district levied for its 2017-18 LTFM projects, they are reported in the district's general fund.

On November 3, 2015, district residents approved a referendum question for \$180 million in capital improvements and technology funding. The question was approved by a more than 2-to-1 margin. The approved referendum provides the district with \$130 million in bonding authority to make safety and security improvements at all schools, provide a new elementary school, and upgrades to technology infrastructure districtwide. The referendum questions also included a capital project levy that will provide approximately \$5 million per year for 10 years to increase access to technology for all students and maintain that access over the life of the levy.

Capital Projects**Building Construction Fund (continued)**

To comply with state reporting requirements, proceeds from the February 2016 \$130 million bond sales were budgeted and reported as FY 2015-16 revenue in this capital projects building construction fund. The 2017-18 revenue budget includes the district estimate for investment earnings from the bond proceeds. The \$5.0 million per year for 10 years capital project levy revenue and expenditure are included in the district's general fund.

The 2017-18 capital projects building construction fund expenditure budget is \$67.73 million. This is \$24.97 million more than the projected expenditure amount for the 2016-17 school year. This expenditure budget will be used to fund the second phase constructions including building improvements, safety and security projects and infrastructure upgrades, and mobile learning devices to support learning.

As stated above, effective July 1, 2016, revenues and expenditures for the alternative facilities projects, replaced by LTFM, are reported in the district's general fund.

The drastic fund balance changes in the capital projects building construction fund can be attributable the elimination of the alternative facilities revenue and expenditure and replacing it with a newly created LTFM program. Funding for these projects are supported by levy and the district is required to report LTFM activities in its general fund. In addition, as mention above, the increase in fund balance from 2014-15 to 2015-16 is a direct result of the passage of a \$130 million building bond referendum and the sale of the 2016A bonds in February 2016. The fund balance for this fund will decline as the district spends down the proceeds to complete all projects by February 2019.

Debt Service Funds

All Sub-Accounts Combined

Fund Overview – The district maintains two separate debt service funds. They are: 1) regular debt service, and 2) other post-employment (OPEB) debt service fund.

Funding for debt service is controlled in accordance with each outstanding debt issue's financing schedule. The resources of the debt service funds are dedicated to the payment of outstanding debt obligations of the district.

In spring 2008, the Minnesota Legislature enacted Minnesota Statutes Section 471.6175 which authorized a Minnesota political subdivision that has created an actuarial liability to pay other post-employment benefits (OPEB) to employees to establish a trust to pay those benefits and to finance those other post-employment benefits in advance.

The School Board awarded the sale of \$37.44 million general obligation taxable OPEB bonds in January 2009. The annual principal and interest payments for these bonds are funded by the OPEB debt service levy. The district's OPEB debt service fund was established in January 2009 to account for other post-employment benefits debt service payments.

The following schedule shows the actual, budgeted and projected activities of the regular debt service and OPEB debt service funds for 2013-14 through 2020-21 school years, with revenues reported by the source and expenditures reported by object.

Revenues and expenditures for the district's debt service funds are directly tied to the district's bond principal and interest payments. Almost all debt service revenue comes from property tax levy. School districts are required to certify their debt service needs to the Minnesota Department of Education (MDE) annually in July, and are allowed to request an additional five percent of the total request to cover potential tax delinquencies. This is the main reason for school districts to have a fund balance in their debt service funds. MDE reviews school districts' debt service fund balances annually and, as need, make adjustments to reduce the districts' fund balances. This allows the debt service fund balances to remain relatively stable.

The debt service fund balance fluctuations in 2012-13 and 2013-14 school years are chiefly due to the issuance of two refunding bonds at lower borrowing costs to replace two existing bond issues that have refunding options. Proceeds from the refunding issues were placed with escrow agents and were used when the old bonds were recalled. Refunding bond activities are reported in the regular debt service fund.

Debt Service Funds

Regular Debt Service Fund

Fund Overview – The regular debt service fund is used to account for the accumulation of resources for, and payment of, general obligation long-term debt principal, interest and related costs.

Revenues for the regular debt service fund are directly tied to the district's bond principal and interest payment needs. Our revenue projection for the 2017-18 school year is \$6.74 million. Close to 100 percent of the projected revenue come from property tax levy; only a very small percentage comes from the state in the form of homestead and agricultural market value credits.

Similar to the regular debt service fund revenues, our regular debt service fund expenditure projection for the 2017-18 school year is \$9.23 million. Similar to the revenues projection, this projection is directly tied to the district's bond principal and interest payments. The \$1.8 million decrease over the current year projection is mainly due to the principal and interest payments for the Series 2016A bond issue.

The table below shows a list of the district's current outstanding debt; additional information regarding debt issues and future minimum payments can be found in the Informational Section-of this document.

Issue	Type	Issue Date	Interest Rate (%)	Issue Amount	Final Maturity	Prindpal Outstanding	Due In One Year

The significant increase in the principal payments is the result of a scheduled increase in the debt service schedule when the bond was issued. The district has a practice of organizing its debt service schedules to avoid significant fluctuations in its debt service levy, which in turn minimizes the change in property tax levies on district residents. Below are details of this bond issue. Additional information regarding debt issues and future minimum payments can be found in the Informational Section-IV of this document.

Issue	Type	Issue Date	Interest Rate (%)	Issue Amount	Final Maturity	Prindpal Outstanding	Due in One Year

The district maintains four internal service funds to report activities related to other post-employment benefits, severance, and self-insured health and dental plan. Below is the projected ending fund balance for each of the four internal service funds; explanation and analysis of each fund can be found on the following page.

Total Fund Balance	38,000,922	35,550,885	32,568,184	33,363,938	32,263,938

Proprietary Funds**Internal Service Funds (continued)**

GASB #16 (Severance/Retirement Benefits) – The district uses this internal service fund to pre-fund severance or retirement pay for eligible retirees. Eligibility for these benefits is based on years of service and/or minimum age requirements. The amount of the severance or retirement benefit is calculated by converting a portion of unused accumulated sick leave, by computing a benefit based solely on years of service, or a combination of both. No retiree can receive severance benefits that exceed one year's salary.

The 2017-18 revenue estimate includes projected interest income of \$100,000 from short-term investments and \$450,000 estimated severance payments (unused sick leave and vacation days) to be paid from the general account of the general fund. The district is required to report severance payments paid from the general account of the general fund as revenue and expenditure in this internal service account.

OPEB Revocable Trust – In winter 2009, the School Board awarded the sale of general obligation taxable OPEB bonds in the amount of \$37.44 million and approved the establishment of a revocable trust for reporting activities related to all eligible other post-employment benefits. For eligible employees that meet certain age and/or length of service requirements, the district is required to pay health insurance premiums upon retirement until the employee reaches the age of eligibility for Medicare. The maximum monthly district contribution per retiree for post-employment health insurance premiums is set forth in the contracts for each eligible bargaining group.

The 2017-18 projected revenues include an estimate of \$850,000 in interest income and/or realized gains, as well as a contribution of \$880,000 from the general fund to pay for estimated OPEB payments for eligible retirees. Projected expenditures for the 2017-18 school year include \$2,380,000 in estimated OPEB payments to eligible retirees.

Self-Insured Dental Plan - The district uses this internal service fund to record all activities related to its self-insured dental plan. The plan was established in September 2011 (the start of the district's dental plan year) and the district uses a third-party administrator to handle claims and benefits. This self-insured dental plan provides coverage for the superintendent, cabinet-level directors, principals, non-union administrators, special staff, non-licensed specialists, assistant administrators and vehicle technicians. The 2017-18 projected revenue is \$320,000 and the projected expenditure is \$370,000.

Self-Insured Health Plan - The district moved from a fully insured health plan with an outside party to a self-insured health plan in summer 2012. The district uses a third party to handle claims and benefits of the plan. The district assumes all costs up to 115 percent of expected claims as established by a third-party administrator. In addition, the district has stop-loss coverage of \$300,000; any claims from a single individual exceeding this amount are covered by the third-party administrator.

Projected revenues for the 2017-18 school year total \$44.00 million. This represents the district's contributions, employees' share of the premium costs, COBRA payments, payments from eligible retirees and employees who are on leave but have elected to stay on the district's health plan.

Projected expenditures for the 2017-18 school year are estimated to be \$44.05 million, which is based on prior claims, plan membership, inflation and other cost increases. The district anticipates performing better than maximum claims, but the maximum claims for which the district could potentially be liable for are \$49.25 million for the 2017-18 plan year.

Fiduciary Funds
Agency Funds

Fund Overview – Agency funds are established to account for cash and other assets held by the district as the agent for others. The district maintains two agency funds used to account for the activities related to: 1) a continuing education program (District Graduate Credit), organized for the benefit of district certified staff, and 2) Local Collaborative Time Study (LCTS) funds received from Dakota County.

The district does not budget for the District Graduate Credit Program. The LCTS agency fund is managed by a committee comprising representatives from various local agencies and school districts within Dakota County. Both funds are self-supporting with the district acting as their fiscal agent.

Fiduciary Fund
Trust Funds

Fund Overview – Trust funds are used to account for assets held in trust by the district for the benefit of individuals or other entities. The district maintains two trust funds: 1) an employee benefit trust fund used to report resources received and held by the district as the trustee for employees participating in the district’s flexible benefit plan, and 2) a scholarship trust fund.

The employee benefit trust fund is used to report activities related to the district’s employee flexible benefit plan. This flexible benefit plan is an Internal Revenue Code § 125 Cafeteria Plan and is self-supporting. The district does not prepare a budget for this fund. The scholarship trust fund was established to account for gifts and scholarship contributions. The main source of income for this fund is interest revenue. The annual interest revenue from the investment of principal amounts will be awarded to recipients selected by the appropriate committees.

Cedar Park Elementary Science, Technology, Engineering and Math (STEM) School
7500 Whitney Drive, Apple Valley, MN 55124

Principal: John Garcia
Phone: 952-431-8360

Cedar Park's enrollment remains relatively stable for the past 5 years. Actual October 1, 2016 student count for the 2016-17 school year was 731. Projection for 2017-18 school year is 726. As the school's enrollment remains stable, the percentage of students eligible for free or reduced-price school meals has remained consistent over the same time period, at approximately 47 percent of the student population. The projection for the 2017-18 school year is 45.2 percent. The table at right shows the history of the school's enrollment by year and by grade. The total free or reduced-price school meal counts are summarized at the bottom of the enrollment schedule. Below is the school's actual spending and budget by object series for the same time period.

The pie chart at left shows the school's 2017-18 preliminary expenditure budget by object series. The budgets for salary and employee benefits continue to be the largest cost drivers, accounting for 94.8 percent of the total expenditure budget at the school. Purchased services, at 2.7 percent, make up the next largest share of the budget. These expenses include professional fees, utilities, postage, communication, etc. The budget for supplies and materials, including classroom and instructional supplies, textbooks and workbooks, media resources, and office supplies totaled \$128,528, or 1.9 percent of the total budget. The remaining .6 percent of the budget is planned for capital and other expenditures, such as equipment, dues, membership and license fees.

Deerwood Elementary School
1480 Deerwood Drive, Eagan, MN 55122

Principal: Jeremy Sorenson
Phone: 651-683-6801

Deerwood's enrollment has increased from 583 students on October 1, 2012, to 625 on October 1, 2016. The projected student count for the 2017-18 school year is 635. This is an increase of approximately 9 percent over the six-year period. As the school's enrollment increases, the percentage of students eligible for free or reduced-price school meals has remained consistent over the same time period, at approximately 21 percent of the student population. The percentage for the 2017-18 school year is projected to be 23.1 percent. The table at right shows the history of the school's enrollment by year and by grade. The total free or reduced-price school meal counts are summarized at the bottom of the enrollment schedule. Below is the school's actual spending and budget by object series for the same time period.

The budgets for salary and benefits continue to be the largest cost drivers, accounting for 96.1 percent of the total expenditures budget at the school. Purchased services, at 2.4 percent, make up the third largest share of the budget. These expenses include professional fees, utilities, postage, communication, etc. 1.5 percent of the budget is earmarked for supplies and materials, including classroom and instructional supplies, textbooks and workbooks, media resources and office supplies. The remaining expenditure budget of 0.1 percent is planned for capital and other expenditures, such as equipment, dues, memberships and license fees.

East Lake Elementary School
4715 162nd Street West, Lakeville, MN 55044

Principal: Miles Haugen
Phone: 952-423-7896

East Lake Elementary school is the latest addition to our district's elementary school offering. The attendance area established for East Lake Elementary includes parts of the current attendance areas of Diamond Path, Highland, Parkview, Rosemount, and Shannon Park elementary schools. The building's construction was part of the first phase of the three phase use of the 2015 voter approved building referendum question.

Glacier Hills Elementary School of Arts and Science
3825 Glacier Drive, Eagan, MN 55123

Principal: Scott Thomas
Phone: 651-683-8570

Glacier Hills' enrollment has been on the rise since 2012-13 school year. The actual enrollment for 2016-17 is 759. The projection for 2017-18 school year is 742 students. As the school's enrollment increases, the percentage of students eligible for free or reduced-price school meals decreased from 29.7 percent in 2012-13 to a projected 24.1 percent for 2017-18. The increase in enrollment is mainly due to the arts and science magnet program established by the School Board in 2007-08 and allowing open enrollment of students from throughout the district. The table at right shows the history of the school's enrollment by year and by grade. The total free or reduced-price school meal counts are summarized at the bottom of the enrollment schedule. Below is the school's spending by object series for the same time period.

The pie chart at left shows the school's 2017-18 preliminary expenditure budget by object series. The budgets for salary and employee benefits continue to be the largest cost drivers, accounting for slightly more than 96 percent of the total expenditure budget at the school. Purchased services at 1.8 percent, make up the next largest share of the budget. These expenses include professional fees, utilities, postage, communication, etc. Close to 2.0 percent of the budget is earmarked for supplies and materials, including classroom and instructional supplies, textbooks and workbooks, media resources, and office supplies. The remaining 0.4 percent of the budget is planned for capital and other expenditures, such as equipment, dues, membership and license fees.

Greenleaf Elementary School
13333 Galaxie Avenue, Apple Valley, MN 55124

Principal: Michelle deKam Palmieri
Phone: 952-431-8270

Greenleaf's enrollment has remained fairly stable, at over 900 students since 2012-13 school year. The projected student count for 2017-18 is 950. This is an increase of approximately 4.7 percent over the six-year period. While the school's enrollment remains stable, the percentage of students eligible for free or reduced-price school meals increased from 26.4 percent in 2012-13 to a projected 37.8 percent for 2017-18. The table at right shows the history of the school's enrollment by year and by grade. The total free or reduced-price school meal counts are summarized at the bottom of the enrollment schedule. Below is the school's actual spending and budget by object series for the same time period.

Spending per student	7,847	8,087	8,805	9,050	9,227	9,499

The pie chart at left shows the school's 2017-18 preliminary expenditure budget by object series. The budgets for salary and employee benefits remain the largest cost drivers, accounting for 94.6 percent of the total expenditures at the school. Purchased services, at 2.3 percent, make up the next largest share of the budget. These expenses include professional fees, utilities, postage, communication, etc. 2.8 percent of the budget is earmarked for supplies and materials, including classroom and instructional supplies, textbooks and workbooks, media resources and office supplies. 0.3 percent of the budget is planned for capital and other expenditures, such as equipment, dues, membership and license fees.

Highland Elementary School
14007 Pilot Knob Road, Apple Valley, MN 55124

Principal: Chad Ryburn
Phone: 952-423-7595

Highland's enrollment increased from 642 students on October 1, 2012, to 721 on October 1, 2013 and declined to 650 for the 2014-15 school year. The projection for 2017-18 is 712. As the school's enrollment fluctuates, the percentage of students eligible for free or reduced-price school meals increases from 14.7 percent in 2012-13 to a projected 15.3 percent for 2017-18. The table at right shows the history of the school's enrollment by year and by grade. The total free or reduced-price school meal counts are summarized at the bottom of the enrollment schedule. Below is the school's actual spending and budget by object series for the same time period.

The pie chart at left shows the school's 2017-18 preliminary expenditure budget by object series. The budgets for salary and employee benefits remain the largest cost drivers, accounting for 96.6 percent of the total expenditures at the school. Purchased services make up the next largest share at approximately 1.8 percent. These expenses include professional fees, utilities, postage, communication, etc. Supplies and materials account for 1.3 percent of the budget, including classroom and instructional supplies, textbooks and workbooks, media resources and other general office supplies. The remaining budget of 0.2 percent is planned for capital and other expenditures, such as equipment, dues, membership and license fees.

Shannon Park Elementary School
13501 Shannon Parkway, Rosemount, MN 55068

Principal: Erik Davis
Phone: 651-423-7670

Shannon Park's enrollment increased from 812 students on October 1, 2012 to 843 on October 1, 2015. Since then enrollment has slightly declined. The projected student count for 2017-18 is expected to decline to 669. As the school's enrollment fluctuates, the percentage of students eligible for free or reduced-price school meals has remained stable at 6.8 percent in 2012-13 to a projected 7.1 percent in 2017-18. The table at right shows the history of the school's enrollment by year and by grade. The total free or reduced-price school meal counts are summarized at the bottom of the enrollment schedule. Below is the school's actual spending and budget by object series for the same time period.

The pie chart at left shows the school's 2017-18 preliminary expenditure budget by object series. The budgets for salary and employee benefits remain the largest cost drivers, accounting for 93.6 percent of the total expenditures at the school. Purchased services, at 4.5 percent of the budget, make up the third largest share. These expenses include professional fees, utilities, postage, communication, etc. Supplies and materials account for 1.8 percent of the budget, including classroom and instructional supplies, textbooks and workbooks, media resources and other general office supplies. The remaining 0.1 percent of the budget is planned for capital and other expenditures, such as equipment, dues, membership and license fees.

Falcon Ridge Middle School
12900 Johnny Cake Ridge Road, Apple Valley, MN 55124

Principal: Noel Mehus
Phone: 952-431-8760

Falcon Ridge's enrollment declined from 1,129 on October 1, 2012, to 1,064 on October 1, 2016. The projection for 2016-17 is expected to increase to 1,086 students. During the same time period, the percentage of students eligible for free or reduced-price school meals increased from 17.8 percent in 2012-13 to a projected 23.6 percent for 2017-18. The table at right shows the history of the school's enrollment by year and by grade. The total free or reduced-price school meal counts are summarized at the bottom of the enrollment schedule. Below is the school's actual spending and budget by object series for the same time period.

The pie chart at left shows the school's 2017-18 preliminary expenditure budget by object series. The budgets for salary and employee benefits remain the largest cost drivers, accounting for 93.3 percent of the total expenditures. Purchased services, at 3.9 percent, make up the next largest share. These expenses include professional fees, utilities, postage, communication, etc. Supplies and materials account for 2.1 percent of the budget, including classroom and instructional supplies, textbooks and workbooks, media resource and general office supplies. The remaining 0.6 percent of the budget is planned for capital and other expenditures, such as equipment, dues, membership and license fees.

Rosemount High School
3335 142nd Street West, Rosemount, MN 55068

Principal: John Wollersheim
Phone: 651-423-7501

Rosemount's enrollment was 2,042 students in 2012-13 and is projected to be 2,167 for the 2017-18 school year. The percentage of students eligible for free or reduced-price school meals remains close at 15.7 percent in 2012-13 to a projected 15.5 percent in 2017-18. The table at right shows the history of the school's enrollment by year and by grade. The total free or reduced-price school meal counts are summarized at the bottom of the enrollment schedule. Below is the school's actual spending and budget by object series for the same time period.

The pie chart at left shows the school's 2017-18 preliminary budget by object series. The budgets for salary and benefits are the largest cost drivers, accounting for nearly 91.0 percent of the total expenditures. Purchased services, at 5.7 percent, make up the next largest share of the budget. These expenses include professional fees, utilities, postage, communication, etc. Supplies and materials account for 2.5 percent of the total budget, including classroom and instructional supplies, textbooks and workbooks, media resources, and office supplies. The remaining 0.9 percent of the budget is planned for capital and other expenditures, such as equipment.

School of Environmental Studies
12155 Johnny Cake Ridge Road, Apple Valley, MN 55124

Principal: Dan Bodette
Phone: 952-431-8750

The School of Environmental Studies' enrollment fluctuates from year to year, as the school draws most of its students from the district's four comprehensive high schools. The projected enrollment for the 2017-18 school year is 425. Similar to other schools within the district, the percentage of students eligible for free or reduced-price school meals has increased, from 10.2 percent in 2012-13 to a projected 14.8 percent for 2017-18. The table at right shows the history of the school's enrollment by year and by grade. The total free or reduced-price school meal counts are summarized at the bottom of the enrollment schedule. Below is the school's actual spending and budget by object series for the same time period.

The pie chart at left shows the school's 2017-18 preliminary expenditure budget by object series. The budgets for salary and employee benefits remain the largest cost drivers, accounting for 83.8 percent of the total expenditures. Purchased services, at 13.9 percent, make up the next largest share of the budget. These expenses include professional fees, utilities, postage, communication, student travel, etc. Supplies and materials account for 1.9 percent of the budget, including classroom and instructional supplies, textbooks and workbooks, media resources and general office supplies. The remaining 0.4 percent of the budget is planned for capital and other expenditures, such as equipment, dues, membership and license fees.

Area Learning Center
5840 149th Street West, Apple Valley, MN 55124

Principal: Dave Schmitz
Phone: 952-431-8720

Enrollment for the district's Area Learning Center, an alternative high school program, fluctuates from year to year. The projected student count for the 2017-18 school year is 102. The percentage of students eligible for free or reduced-price school meals has increased, from 32.0 percent in 2012-13 to a projected 48.5 percent for 2017-18. The table at right shows the history of the school's enrollment by year and by grade. The total free or reduced-price school meal counts are summarized at the bottom of the enrollment schedule. Below is the school's actual spending and budget by object series for the same time period.

Graduation Data (3)					
District graduation rates	91	92	92	90	92
State graduation rates	78	80	81	82	82

(1) Percentage of students scoring at or above proficiency.

(2) Percentage of students who met or exceeded their mean growth projection.

(3) To comply with U.S. Department of Education reporting requirements, calculations for high school graduation rates have changed. The district rates shown for FY 2012 are percentages of students graduating from high school within four years after they enrolled in grade nine. Students who took an additional year to meet graduation requirements are not included in this calculation.

Glossary

Glossary of Terms:**A**

Accounting Procedure: The policy and systematic arrangement of methods and operations for recording accounting information to provide internal control and produce accurate and complete records and reports.

Accounting System: The total set of records and procedures which are used to record, classify and report information on the financial status and operations of an entity.

Accrual Basis of Accounting: The method of accounting under which revenues are recorded when they are earned (whether or not cash is received at that time) and expenditures are recorded when goods and services are received (whether cash disbursements are made at that time or not).

Adjusted Marginal Cost Pupil Units: The current pupil units or sum of 77 percent of the adjusted pupil units computed using current year data, plus 23 percent of the adjusted pupil units computed using prior year data, whichever is greater.

Adjusted Net Tax Capacity (ANTC): The net tax capacity of a school district as adjusted by the sales ratio (Net Tax Capacity divided by the sales ratio). The purpose of the adjustment is to neutralize the effect of different assessment practices among the taxing jurisdiction of the state.

Adjusted Pupil Units: The sum of pupil units served plus pupil units whom the district pays tuition under an agreement with another district, minus pupil units for whom the district receives tuition under an agreement with another district.

Apportionment: (1) The act of apportioning; (2) An item of receipts resulting from the act of apportioning, such as state apportionment (see *allotment*).

Assessed Valuation: A valuation set upon real estate or other property by a government as a basis for levying taxes.

Assessment: (1) The process of making the official valuation of property for the purpose of taxation, and (2) The valuation placed upon property as a result of this process. **Note:** *Assessment* is sometimes used to denote the amount of taxes levied but such usage is not recommended since it fails to distinguish between the valuing process and the tax levying process. The term is also used erroneously as a synonym for *special assessment*.

Assets: Economic resources that are owned or controlled by an entity.

Audit: The result of an independent accountant's review of the statements and footnotes to ensure compliance with generally accepted accounting principles and to render an opinion on the fairness of the financial statements.

Audit Report: A report issued by an independent certified public accountant that expresses an opinion about whether the financial statements fairly present an organization's financial position, operating results and cash flows in accordance with generally accepted accounting principles.

Average Daily Attendance (ADA): The aggregate attendance of students in a school during a reporting period (normally a school year) divided by the number of days that school is in session during this period.

Average Daily Membership (ADM): The aggregate membership of students in a school during a reporting period (normally a school year) divided by the number of days that school is in session during this period.

B

Balance Sheet: A formal statement of assets, liabilities and equity as of a specific date.

Bond: A written promise to pay a specified sum of money, called the face value or principal amount, at a specified date in the future (the maturity date), together with periodic interest at a specified rate.

Bond Discount: The difference between the face value and the sales price when bonds are sold below their face value.

Bond Maturity Date: The date at which a bond principal or face amount becomes payable.

Bond Premium: The difference between the face value and the sales price when bonds are sold above their face value.

Bond Rating: Ratings for bonds to be issued that primarily reflect the ability of the issuer to repay the bonds. Better bond ratings result in lower interest rates for the bonds issued.

Bond Referendum: Funding for a proposed public building or major remodeling project submitted for local voter approval.

Budget: A plan of financial operation expressing the estimates of proposed expenditures for a fiscal year and the proposed means of financing them (revenue estimates).

Budgeting: Pertains to budget planning, formulation, administration, analysis and evaluation.

Budget Calendar: Schedule of key dates which the School Board and administrators follow in preparation, adoption and administration of the budget.

C

Capital Lease: A leasing transaction that is recorded as a purchase by the lessee; ownership is transferred to the lessee at the conclusion of the leasing agreement.

Capital Outlay: An expenditure that is generally greater than \$5,000 and results in ownership, control or possession of assets intended for continued use over relatively long periods of time.

Cash Basis: Gross income is recognized when cash is received.

Cash Basis Accounting: A system of accounting in which transactions are recorded and in which revenues and expenses are recognized only when cash is received or paid.

Chart of Accounts: A list of all accounts generally used in an individual accounting system. In addition to account title, the chart includes an account number that has been assigned to each account. Accounts in the chart are arranged with accounts of a similar nature, for example, assets and liabilities.

Compensatory Revenue: A portion of general education revenue based on the number of students in a school district that qualify for free or reduced-price school meals.

Contracted Services: Service rendered by personnel who are not on the payroll of the school district, including all related expenses covered by the contract.

Credit: An entry on the right side of the account.

D

Debt: Money owed by one party (the debtor) to a second party (creditor), generally subject to contractual terms regarding the amount and timing of repayments of principal and interest.

Debt Service: Expenditures for the retirement of principal and payment of interest on debt.

Debt Limit: The maximum amount of bonded debt for which a governmental unit (school district) may legally obligate itself.

Debit: An entry on the left side of an account.

Delinquent Taxes: Taxes remaining unpaid on and after the date on which they become delinquent by statute.

Double Entry Accounting: A system of recording transactions in a way that maintains the equality of the accounting equation. Every entry made to the debit side of an account or accounts will have a corresponding amount or amounts made to the credit side.

E

Elementary School: A school classified as elementary by state and local practice and composed of any span of grades not above grade eight. Preschool or kindergarten is included under this heading only if it is an integral part of an elementary school or a regularly established school system.

Employee Benefits: Compensation, in addition to regular salary, provided to an employee. This may include such benefits as health insurance, life insurance, annual leave, sick leave, retirement and Social Security.

Enrollment: The total number of students registered in a given school unit at a given time, generally in the fall. (October 1 in Minnesota)

Entry: The record of a financial transaction in its appropriate book of accounts. Also, the act of recording a transaction in the books of accounts.

Equalization: The process of (1) reducing the tax rate or tax base disparities among different taxing jurisdictions, or (2) reducing net tax disparities among different properties within the same class in a given taxing jurisdiction.

Expenditures: Charges incurred, whether paid or unpaid, which are presumed to benefit the current fiscal year. For elementary/secondary schools, these include all charges for current outlays plus capital outlays and interest on school debt.

Expenditures Per Pupil: Charges incurred for a particular period of time divided by a student unit of measure, such as enrollment, average daily attendance, or average daily membership.

Expenses: Costs incurred in the normal course of operations.

F

Fiscal Year: The twelve-month period of time to which the annual budget applies. All Minnesota school districts, by law, must observe a fiscal year that runs July 1 through June 30.

Free School Meals: In order to qualify for free school meals, a household must submit an application. The federal government, comparing the household's size to its income, sets guidelines.

Full-Time Equivalency (FTE): The result of a computation that divides the amount of time for a less than full-time activity by the amount of time normally required in a corresponding full-time activity.

Fund: A sum of money or other resources segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations, and constituting an independent fiscal and accounting entity.

Fund Balance (equity): Mathematical excess of assets over liabilities.

Federal Sources: Revenues received from federal government appropriations.

Fiduciary Funds: Account for assets held in a trustee capacity or as an agent for individuals, organizations or other governmental units and/or funds.

Formula Allowance: Minnesota's basic general education formula allowance provided school districts with a majority of their revenue.

G

General Fund: Typically, the largest fund in the budget. It is comprised of money not in other funds. Most of this fund is not earmarked for specific purposes.

Generally Accepted Accounting Principles (GAAP): Standard framework of guidelines for financial accounting used in any given jurisdiction; generally known as accounting standards or standard accounting practice. These include the standards, conventions and rules that accountants follow in recording and summarizing financial transactions and in the preparation of financial statements.

General Obligation Bonds (GO Bonds): Bonds that the state stands behind with its taxing powers.

Grant: A contribution of assets (usually cash) by one governmental unit or other organization to another. Typically, these contributions are made to local governments (school districts) from state and federal governments and are usually made for specified purposes.

H

High School: A secondary school offering the final years of high school work necessary for graduation, usually including grades 9-12.

I

Interest: The payment (cost) for the use of money.

Internal Service Funds: Funds internal to the operation of a unit that provide a variety of services to that unit, such as a printing activity. The funds must recover the full costs of services provided through billing back.

J

No entries

K

Kindergarten: This category of students includes transitional kindergarten, kindergarten and pre-first-grade students, and is traditionally found in elementary schools.

Kindergarten Handicapped (or disabled): This is a special category within kindergarten that provides for increased weighting of these kindergarten students that provides more revenue to a district.

L

Lease: A contract that specifies the terms under which the owner of an asset (the lessor) agrees to transfer the right to use the asset to another party (the lessee).

Lessee: The party that is granted the right to use property under the terms of a lease.

Lessor: The owner of property that is rented (leased) to another party.

Levy: A tax imposed on property, which a school board may levy, and is limited by statute.

Liabilities: Obligations measurable in monetary terms that represent amounts owed to creditors, governments, employees and other parties.

Local Education Agency (LEA): See *school district*.

Long-Term Liabilities: Debts or other obligations that will not be paid within one year.

M

Mandates: Requirements imposed by one level of government on another.

Marginal Cost Pupil Unit: Used to indicate pupil count. It is a calculation whereby 77 percent of the current year pupil count is added to 23 percent of the prior year pupil count.

Market Value: The value assigned to property by an assessor. The market value is intended to reflect the sales value of the property.

Middle School: A secondary school following elementary school and preceding high school, usually including grades 6-8.

Minnesota Automated Reporting Student System (MARSS): A system of pupil accounting which maintains essential data elements for each public school student attending school in Minnesota and reported by school districts to the state.

Minnesota Department of Education (MDE): The formal agency within the executive branch of government in Minnesota that oversees the operations of education, K-12 education in particular.

Modified Accrual Basis of Accounting: The basis of accounting under which expenditures, other than accrued interest on general long-term debt, are recorded at the time liabilities are incurred and revenues are recorded when received in cash, except for material and/or available revenues, which should be accrued to reflect property taxes levied and revenue earned.

N

Net Tax Capacity (NTC): This value is derived by multiplying the estimated market value of each parcel by the appropriate class (use) rate for that parcel.

Net Tax Liability: The amount of tax computed by subtracting tax credits from the gross tax liability.

Non-Resident Student: A student whose legal residence is outside the geographical area served by the district.

O

Operating Lease: A simple rental agreement where ownership is retained by the lessor at the conclusion of the leasing agreement.

P

Principal (face value or maturity value): The amount that will be paid on a bond at its maturity date.

Public Employees Retirement Association (PERA): This group administers pension plans that cover local, county and school district non-teaching employees.

Pupil Units: A weighted count of pupils in average daily membership used in the calculation of state aid and local tax levies.

Q

No entries

R

Review and Comment: A process by which the commissioner of Minnesota Department of Education reviews and comments on the feasibility and practicality of proposed school district building projects.

Refunding Bonds: Bonds issued to pay off bonds already outstanding.

Reserve: An amount set aside for some specified purpose.

Resident Student: A student whose legal residence is within the geographic area served by the district.

Revenues: Money received by a unit from external sources net of refunds and other correcting transactions, other than from the issuance of debt, liquidation of investments, and as agency and probate trust transactions.

S

School Board: Elected or appointed body which has been created according to state law and vested with responsibilities for educational activities in the school district.

School District: A unit for administration of a public-school system often comprising several cities within a state.

Social Security (FICA) Taxes: Federal Insurance Contributions Act taxes imposed on employees and employers; used mainly to provide retirement benefits.

Staff Automated Reporting System (STAR): The system by which staff data elements are recorded and transmitted to the Minnesota Department of Education.

Stated Rate of Interest: The rate of interest printed on the bond.

Statute: A written law passed by a legislative body.

T

Tax Base: The value of commercial, industrial, residential, agricultural and other properties in a school district, city, municipality and county.

Tax Capacity: The taxable value of property. Tax capacity of a property is determined by the type of property, taxable market value of the property and state-determined class rates for different types or property.

Tax Credit: A state-allowed reduction on local property taxes.

Teachers Retirement Association (TRA): A statewide public pension fund for public school teachers throughout Minnesota, except for teachers in the first class cities, and some teachers in community colleges, state universities and technical colleges.

Transfer: The movement of money between funds; transfer must be consistent with legislative intent.

Trial Balance: A listing of all account balances; provides a means of testing whether total debits equal total credits for all accounts.

Trust Fund: A fund consisting of resources received and held by the district as trustee to be expended or invested in accordance with the conditions of the trust.

U

Uniform Financial Accounting and Reporting Standards (UFARS): Minnesota's legally prescribed set of accounting standards for all school districts.

Useful Life: The term used to describe the life over which an asset is expected to be useful to the company; cost is assigned to the periods benefited from using the asset.

V

No entries

W

Weighted Pupil Units: A varied weighting of pupils by grade. For example, a student in grades 1-6 may be counted as a 1.06 pupil unit, whereas a student in grades 7-12 may be counted as a 1.3 pupil unit.

Appendix

APPENDIX A – Budget Policies, Administrative Regulations and Procedures

The following is a summary of the budget policies, administrative regulations (AR) and procedures (P) related to the budget process. Full text of these policies, administrative regulations and procedures can be found on the pages immediately following this page.

Policy 702 – Budget

- The district shall adopt annual budgets for each fund (general [including all accounts within the general fund], food service, community education, debt service, building construction, trust and agency, and internal service), in accordance with state law;
- The district budget, once approved by the board, is the district's plan showing expected revenue and expenditures for the coming fiscal year and is the district's legal authorization for spending funds, and
- The budget reflects and supports state and federal requirements, district initiatives and board policies.

Administrative Regulation 702.2AR – Budget Planning and Development

- This regulation mandates the due dates for preliminary and final budgets to be presented to the School Board and the requirement of board approval of budget assumptions to be used to develop the budgets.

Administrative Regulation 702.2.3AR – Budget Advisory Council (BAC)

- The Budget Advisory Council ensures active community participation in and enhances community understanding of the district's budget planning process, and
- Provides input to the board and administration on budget plans that support district goals, policies and initiatives.

District Procedure 702.2.3P – Application to Serve on Budget Advisory Council (BAC)

- Applicants must complete this form to be considered for membership on the committee.

Administrative Regulation 702.4AR – Capital Expenditure Budget

- This regulation establishes the requirements for the district's capital expenditure budget, including the process of developing a list of current needs and proposal of final selections to be presented to the board for approval.

Policy 712 – Fund Balance

- Policy 712 requires the maintenance of reasonable fund balances to mitigate financial risk from unforeseen circumstances and provide cash flow.

Full text of each policy, administrative regulations and procedure can be found on the district's website:

<http://www.district196.org/District/SchoolBoard/policies/DistrictPRP.cfm>

Policy 702, Budget**Adopted:** June 1993**Last Revised:** May 2012

1. Purpose
 - 1.1. The district shall adopt annual budgets for each fund (general [including all accounts within the general fund], food services, community education, debt service, building construction, trust and agency, and internal service), in accordance with state law.
 - 1.2. The district budget, once approved by the board, is the district's plan showing expected revenue and expenditures for the coming fiscal year and is the district's legal authorization for spending funds.
 - 1.3. The budget reflects and supports state and federal requirements, district initiatives and board policies.
2. Planning the Budget
 - 2.1. The superintendent has the overall responsibility for preparation of the annual budget.
 - 2.2. The superintendent shall develop budget regulations and procedures which support the district's shared decision-making process.
 - 2.3. Budget planning will relate to the goals and objectives of the district. It should include an assessment of existing programs and services, an examination of alternatives and input from a board-appointed Budget Advisory Council.
 - 2.4. The budget provides resources adequate to support the learning programs provided to all district students -preschool, K-12 and adult.
 - 2.5. Any amendments to the final budget must be approved by the School Board.
3. Requirements of the Budget Document - the budget document must include:
 - 3.1. Itemized statements of estimated revenues by fund and by source.
 - 3.2. Itemized statements of estimated expenditures by fund and by object.
 - 3.3. A summary of the board-approved assumptions used to build the budget.
 - 3.4. A review of major new initiatives or changes in district policies or programs which affect the budget.
 - 3.5. Comparative information with the budget from the previous year.
 - 3.6. *Budget Guide for Our Community* will be included in the final budget.
4. Capital Expenditure Account Budget
 - 4.1. The capital expenditure account budget details the district's expenditure plans for facilities, equipment, major maintenance, special assessments, lease and rental costs, energy projects and other revenue and expenses authorized by the state as capital expenditures.
 - 4.2. The budget development process includes forecasting revenues, seeking expenditure requests from schools and departments, developing spending guidelines (which are reviewed and approved by the School Board) and creation of a detailed budget based on the guidelines. The budget is approved by the School Board, and is incorporated into the district's preliminary and final budget.
5. Building Construction Fund Budgets - Budgets for building construction funds are developed by project, not annually as are other district budgets.

- UFARS Manual
- Minnesota Statute 123B.77, Accounting, budgeting, and reporting requirement

Administrative Regulation 702.2AR, Budget Planning and Development**Adopted:** June 1993**Last Revised:** May 2012

1. Budget planning and development shall be carried out by the superintendent and designees in the following manner:
 - 1.1. Budget planning begins with a review of budget parameters, and development of a preliminary budget forecast based on projected enrollment and revenue and expenditure assumptions for the coming year.
 - 1.2. The preliminary budget forecast is reviewed with the School Board then used as the basis for the development of budget guidelines (assumptions about staffing, program changes, allocations to schools and departments, etc.). The guidelines are reviewed and approved by the School Board in February or March.
 - 1.3. The administration prepares a detailed preliminary budget based on the approved guidelines and brings that to the School Board for approval no later than the last board meeting in June.
 - 1.4. The administration prepares the final budget and presents it to the School Board for approval no later than January 31 in the year for which the budget is effective.
2. The process and deadlines noted above may be adjusted as needed after consultation between the superintendent and the School Board.

- Financial Accounting Instructions (FAI) 10.3, Budget Adoption

Administrative Regulation 702.2.3AR, Budget Advisory Council (BAC)**Adopted:** December 2000**Last Revised:** April 2009

1. Purpose – The purpose of the Budget Advisory Council (BAC) shall be to:
 - 1.1. Ensure active community participation in and enhance community understanding of the district's budget planning process, and
 - 1.2. Provide input to the board and administration on budget plans that support district goals, policies and initiatives.
2. Role
 - 2.1. The BAC shall promote the district's budget reduction suggestion program, review submitted suggestions and, as appropriate, provide input regarding budget changes to the school board.
 - 2.2. The BAC shall provide the board and administration with input on:
 - 2.2.1. spending priorities and effective utilization of the district's limited financial resources;
 - 2.2.2. cost effectiveness of programs and services;
 - 2.2.3. ways to decrease expenditures and increase revenue, and
 - 2.2.4. short-term and long-term financial planning.
 - 2.3. The BAC shall review long-range financial projections.
 - 2.4. The BAC shall study and provide input on specific financial issues or areas of the budget, as identified by the BAC, the School Board or the administration.
3. Membership
 - 3.1. The BAC will be composed of 12 people who are stakeholders in the school district (a district resident, the parent or guardian of a district student, or a district employee).
 - 3.1.1. At least seven members must be parents/guardians or other community residents.
 - 3.1.2. A district employee who is a district resident may not also count as a parent/guardian or community resident.
 - 3.1.3. One member must represent district principals.
 - 3.1.4. One member must represent district licensed staff.
 - 3.1.5. One member must represent district non-licensed staff.
 - 3.1.6. At least one member must have a school-aged child or children.
 - 3.1.7. All members should generally have, but are not required to have, some expertise, understanding and/or background in financial matters and budgeting (e.g., accounting, banking, economics, etc.).
 - 3.2. The district's Director of Finance and Operations and the three members of the Board Audit and Finance Committee shall serve as ex-officio members of the BAC.
 - 3.3. Terms of office shall begin on July 1 and end on June 30. Terms of office shall last for three years, and shall be staggered with one-third of the positions up each year.
 - 3.4. Selection of Members
 - 3.4.1. Openings on the BAC will be advertised in district publications and area newspapers. Applications will be accepted until April 30 for terms beginning the following July 1. Applicant recruitment may take place after April 30 until as late as June 1 for openings for which there are no applicants meeting the guidelines in section 3.1 above.
 - 3.4.2. After April 30, the Board Audit and Finance Committee, and the district's Director of Finance and Operations, will receive and review all BAC applications, meet to review and prioritize candidates based on the membership criteria described above, and make recommendations for BAC membership to the School Board.
 - 3.4.3. The School Board will be asked to approve new members.
 - 3.5. Filling Unexpired Terms
 - 3.5.1. If less than one year of the term remains, the position will remain open until the next regular membership selection period (see section 3.3 above).
 - 3.5.2. If more than one year of the term remains, the Board Audit and Finance Committee and the Director of Finance and Operations will review the most recent round of applications and make a recommendation for membership to the School Board for final approval. If no applicant is available to complete that term among the applications, the Board Audit and Finance Committee and the Director of Finance and Operations will request applications from people representing the appropriate group(s) and then proceed as described above.

Administrative Regulation 702.2.3AR, Budget Advisory Council (BAC) (Continued)

- 3.6. Officers – At its first meeting each year, the BAC will elect officers, including a chairperson and a vice-chairperson, or co-chairpersons from the committee.
 - 3.6.1. The chairperson or co-chairperson shall preside at all meetings.
 - 3.6.2. The vice chairperson, if the BAC chooses to elect one, shall perform the duties of the chairperson in the absence of the chairperson.
 - 3.6.3. The Director of Finance and Operations shall ensure that minutes are taken at each meeting and maintain a copy in district records.
- 3.7. Expectations and Roles of Members
 - 3.7.1. Members must attend at least 75 percent of BAC meetings each year.
 - 3.7.2. A member who has not shown suitable commitment (as defined in sections 3.7.1 above) or who isn't able to fulfill their commitment may resign or may be asked to resign by the BAC. A member with three consecutive absences who has not contacted the district or the BAC chairperson or co-chairperson about the absences will be considered to have resigned from the BAC and will be so notified by the BAC chairperson or co-chairperson. The vacant position will then be filled in accordance with section 3.5 above.
4. Meetings
 - 4.1. The BAC will hold at least four meetings each year, as determined by the council.
 - 4.2. BAC meetings will be publicized in district publications and area newspapers.
 - 4.3. BAC meetings will be open to the public. The BAC chairperson or co-chairperson may, at his or her discretion, permit members of the public to address the council.

Administrative Regulation 702.4AR, Capital Expenditure Account Budget**Adopted:** June 1993**Last Revised:** May 2012

1. Budget Report - The capital expenditure account budget report includes a summary of the estimated revenues and expenditures in the account for the next year, and a list and description of purchases the district plans to make using the resources of the account.
2. Budget Development Process
 - 2.1. The administration will develop parameters which assign budgetary responsibility to school or districtwide budgets for various categories of capital expenditures.
 - 2.2. In the fall, the administration will develop a list of needs and requests for capital expenditures for the following fiscal year, with input from administrators in all schools and administrative departments.
 - 2.3. By January 1, the administration will prepare a forecast of capital expenditure revenue for the following fiscal year.
 - 2.4. Budget Guidelines
 - 2.4.1. The administration will develop proposed capital expenditure budget guidelines for the following fiscal year, which will be reviewed by the School Board no later than March 1.
 - 2.4.2. The budget guidelines will include estimated revenues, allocations to schools, and estimated expenditures in broad categories of the budget (e.g., major maintenance, leasing costs, energy projects, curriculum revision).
 - 2.5. After the School Board approves the budget guidelines, the administration will inform each school and administrative department of its allocation. Each school and administrative department will then prepare a detailed capital spending plan for the funds allocated.
 - 2.6. The administration will compile the spending plans from each school and administrative department and prepare a detailed budget document to be approved by the School Board no later than May 1.
 - 2.7. The approved budget will be used as the basis for purchasing, and will be incorporated into the district's preliminary budget for the following fiscal year.
3. Revisions - Revisions to the capital expenditure budget may be made as part of the process of developing the district's preliminary budget in the spring or the final budget in the fall.

Policy 712, Fund Balance**Adopted:** June 2011**Last Revised:** June 2011

1. Purpose – Prudent fiscal management requires the maintenance of reasonable fund balances to mitigate financial risk from unforeseen circumstances and provide cash flow liquidity for general operations. Fund balance classifications described in this policy allow for more useful fund balance reporting and for compliance with the reporting guidelines specified in Statement No. 54 of the Governmental Accounting Standards Board (GASB).
2. General Statement of Policy – The intent of this policy is to comply with GASB Statement No. 54. Should a conflict occur between this policy and the provisions of GASB Statement No. 54, the GASB statement shall prevail.
3. Classification of Fund Balances – The school district shall classify fund balances in its various funds in one or more of the following five classifications: nonspendable, restricted, committed, assigned and unassigned.
4. Definitions – In accordance with GASB Statement No. 54, definitions are as follows.
 - 4.1. “Fund balance” means the arithmetic difference between the assets and liabilities reported in a school district fund.
 - 4.2. “Nonspendable” fund balance amounts are comprised of funds that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. They include items that are inherently unspendable, such as, but not limited to, inventories, prepaid items, long-term receivables, nonfinancial assets held for resale, or the permanent principal of endowment funds.
 - 4.3. “Restricted” fund balance amounts are comprised of funds that have legally enforceable constraints placed on their use that either are externally imposed by resource providers or creditors (such as through debt covenants), grantors, contributors, voters, or laws or regulations of other governments, or are imposed by law through constitutional provisions or enabling legislation.
 - 4.4. “Unrestricted” fund balance is the amount of fund balance remaining after determining both nonspendable and restricted net resources. This amount can be determined by adding the committed, assigned and unassigned fund balances.
 - 4.5. “Committed” fund balance amounts are comprised of unrestricted funds used for specific purposes pursuant to constraints imposed by formal action of the School Board and that remain binding unless removed by the board by subsequent formal action. The formal action to commit a fund balance must occur prior to fiscal year end; however, the specific amounts actually committed can be determined in the subsequent fiscal year. A committed fund balance cannot be a negative number.
 - 4.6. “Assigned” fund balance amounts are comprised of unrestricted funds constrained by the school district’s intent that they be used for specific purposes, but that do not meet the criteria to be classified as restricted or committed. In funds other than the general fund, the assigned fund balance represents the remaining amount that is not restricted or committed. The assigned fund balance category will cover the portion of a fund balance that reflects the school district’s intended use of those resources. The action to assign a fund balance may be taken after the end of the fiscal year. An assigned fund balance cannot be a negative number.
 - 4.7. “Unassigned” fund balance amounts are the residual amounts in the general fund not reported in any other classification. Unassigned amounts in the general fund are technically available for expenditure for any purpose. The general fund is the only fund that can report a positive unassigned fund balance. Other funds would report a negative unassigned fund balance should the total of nonspendable, restricted and committed fund balances exceed the total net resources of that fund.
 - 4.8. “Enabling legislation” means legislation authorizing a school district to assess, levy, charge or otherwise mandate payment of resources from external providers and includes a legally enforceable requirement that those resources be used only for the specific purposes listed in the legislation.
5. Minimum Fund Balance – District 196 will plan annual revenue and expenditure budgets that provide an operating funds balance of no less than five percent of annual operating fund expenditures.
6. Order of Resource Use – If resources from more than one fund balance classification could be spent, the district will strive to spend resources from fund balance classifications in the following order (first to last): restricted, committed, assigned and unassigned.

Policy 712, Fund Balance (Continued)

7. Committing Fund Balance – A majority vote of the School Board is required to commit a fund balance to a specific purpose and subsequently to remove or change any constraint so adopted by the board.
8. Assigning Fund Balance
 - 8.1. The School Board, by majority vote, may assign fund balances to be used for specific purposes when appropriate. The School Board also delegates the power to assign fund balances to the superintendent or designee. Assignments so made shall be reported to the board on a monthly basis, either separately or as part of ongoing reporting by the assigning party if other than the School Board.
 - 8.2. An appropriation of an existing fund balance to eliminate a projected budgetary deficit in the subsequent year's budget in an amount no greater than the projected excess of expected expenditures over expected revenues satisfies the criteria to be classified as an assignment of fund balance.
9. Stabilization Arrangements – When the superintendent becomes aware of conditions that may cause the operating funds balance to fall below 5 percent of annual operating expenditures within a given year, he or she will alert the School Board to the situation and recommend appropriate short-term actions to maintain the desired balance.
10. Review – The School Board will conduct an annual review of the sufficiency of the minimum unassigned general fund balance level.

APPENDIX C – Budget Calendar

Below is a detailed budget calendar for the 2017-18 Preliminary Budget:

Activity	Person Responsible	Delivery Date
Completion of long range enrollment projections and 2017-18 enrollment projections by school	Director of Finance & Operations Coordinator of Finance Student Information Supervisor School Board	November 14, 2016
Preparation of preliminary five-year general fund budget forecast	Director of Finance & Operations Coordinator of Finance Manager of Financial Systems, Reporting & Compliance	November 2016 through January 2017
Budget Advisory Council meet to provide assumptions for preliminary five-year general fund budget forecast	Director of Finance & Operations Budget Advisory Council	January 11, 2017
School Board meet to discuss assumptions and review a range of five-year general fund forecast scenarios. School Board identify “most likely” scenario for 2017-18 preliminary budget planning, including budget assumptions	Superintendent Director of Finance & Operations School Board	January 23, 2017
School Board meet to review 2017-18 capital expenditure account budget	School Board Superintendent Director of Finance & Operations Coordinator of Finance	February 6, 2017
School Board review 2017-18 staffing guidelines (Other Action Item)	Superintendent Director of Human Resources School Board	February 6, 2017
Preliminary 2017-18 staffing allocations to director of elementary education and director of secondary education	Coordinator of Finance Manager of Financial Systems, Reporting & Compliance	February 24, 2017
2017-18 staffing allocations, building allocations and budget instructions send to principals and district-level administrators	Coordinator of Finance Manager of Financial Systems, Reporting & Compliance	March 15, 2017
MyBudgetFile® budget centers open for 2017-18 budget preparation	Coordinator of Finance & Staff	March 17, 2017
Principals and district-level administrators complete and submit budgets for directors’ review and submission	Elementary Principals District-level Administrators Middle School Principals High School Principals	April 14, 2017
Directors review budgets with superintendent, then submit budgets to finance when ready for processing	Superintendent Directors	April 21, 2017
Director of Finance & Operations review 2017-18 preliminary budgets analysis with Superintendent	Superintendent Director of Finance & Operations	April 27, 2017
Prepare draft copy of 2017-18 preliminary budget	Director of Finance & Operations Coordinator of Finance Manager of Financial Systems, Reporting & Compliance	May 26, 2017
Cabinet review proposed 2017-18 preliminary budget	Cabinet	June 5, 2017
School Board Audit/Finance committee meet to review proposed 2015-16 preliminary budget	School Board Audit and Finance Committee	June 12, 2017
First reading of proposed 2017-18 preliminary budget (new business)	School Board	June 12, 2017
Second reading and approval of 2017-18 preliminary budget (old business)	School Board	June 26, 2017
2017-18 preliminary budget in place and being expended and monitored	Coordinator of Finance, Principals District-Level Administrators	July 1, 2017

APPENDIX D – Capital Projects Plans

As mentioned in the financial section, the district's capital projects building construction fund is used to report financial resources used for the acquisition or construction of major capital facilities authorized by bond issue and state-approved alternative facility projects supported by property tax levy. Effective July 1, 2016, alternative facility projects will be supported by the newly long-term facilities maintenance (LTFM) program. Since the district has elected to fund LTFM projects with local property tax levies, LTFM revenue and expenditures are reported in the district's general to comply with state reporting requirements.

The 2016-17 preliminary budget for capital projects building construction fund as presented in this budget document reflects the administration's projected revenue and expenditures for capital projects included in the \$180 million referendum question approved by district voters on November 3, 2015. The approved referendum provides the district with \$130 million in bonding authority to make safety and security improvements at all schools, a new elementary school, and upgrades to technology infrastructure districtwide. The remaining \$50 million will come from \$5 million per year for 10 years capital project levy to increase access to technology for all students and maintain that access over the life of the levy. Capital projects levy revenue and expenditures are reported in the district's general fund.

To comply with Minnesota Statute 123B.595, Subd. 10, the School Board adopted the district's 10-year long-term facilities maintenance plan. In August 2015. Pages 161-164 contain details of the LTFM plan and the estimated annual costs.

A detailed listing of the \$130 million capital projects can be found in pages 165-166.

APPENDIX E – ASBO Meritorious Budget Award for Fiscal Year 2015-2016

ASSOCIATION OF
SCHOOL BUSINESS OFFICIALS
INTERNATIONAL

This Meritorious Budget Award is presented to

**INDEPENDENT SCHOOL DISTRICT
NO. 196
ROSEMOUNT-APPLE VALLEY-EAGAN
PUBLIC SCHOOLS**

For excellence in the preparation and issuance of its budget
for the Fiscal Year 2015-2016.

The budget adheres to the principles and standards
of ASBO International's Meritorious Budget Award criteria.
