

INDEPENDENT SCHOOL DISTRICT 196  
Rosemount-Apple Valley-Eagan Public Schools  
*Educating our students to reach their full potential*

Series Number 406.3.4.2.2P Adopted January 1995 Revised June 2015

Title Post-Accident Testing Procedure for Employees Required to have a CDL

**Every employee in a position which requires the employee to hold a commercial driver's license shall complete this form.**

I understand that federal regulations require drivers to provide a urine sample to be tested for use of controlled substances as soon as possible, but not later than 32 hours, after a reportable accident in which the driver of the commercial motor vehicle receives a citation under state or local law for a moving traffic violation arising out of the accident or if the accident involves the loss of human life.

I understand that in order for me to locate the nearest collection site where a urine sample can be taken, I can contact MEDTOX Laboratories at 651-636-7466 or at 1-800-832-3244, 24 hours a day, seven days a week.
