"coming together is a beginning...keeping together is progress...working together is success!"

March 1999

Volume Two Number Four

Winter Quarter Parent-Teacher Conferences March 11-12

Parent-teacher conferences provide an all-important link between families and the school. A strong correlation exists between parents' interest and the education of their children and success in school. We strongly encourage Eastview parents to make use of these opportunities to meet with the administrators, counselors, teachers, and related staff of EVHS, to ask questions, to provide staff members with information about specific needs, or simply to show interest in your child's education.

The following are some questions parents might ask classroom teachers about their child or the classroom in particular:

- The quality of the student's academic progress
- The behavior of the student
- The student's attitude toward school, peers and adults
- How much the student participates in class
- The kind of work habits the student has
- Special interests or talents the student exhibits
- When and how report cards/test results are sent home
- How often do the students have homework
- Policies about notifying parents of problems or concerns
- The most convenient time and place to call the teacher
- Special projects the students are working on currently

Additional information will also be distributed to students with mid-terms on Monday, March 1.

QUARTER THREE

PARENT-TEACHER CONFERENCES

Thursday, March 11 5:00-9:00 p.m.
Friday, March 12 7:00-11:00 a.m.

Eastview Selects First AAA Award Nominees

Arts, Athletics and Academics each play a vital role in many students' high school careers, but few students excel at all three. The Minnesota State High School league honors these outstanding students through its Arts, Academics and Athletics Award. This year Eastview's nominees, Kim Paradeise and Jeffrey Jackson, provide clear examples of the qualities the program is designed to honor.

Kim is an All-American swimmer, vocalist and top student. Highlights of her senior year include participation in the State Swimming Meet in November and an appearance at the select Dorian Music Festival in January. Kim has recently committed to attend Purdue University in the fall where she will pursue a degree in engineering and compete on their Big Ten Women's swimming team.

Jeff Jackson is a familiar face to most EVHS students, as he frequently appears on the Flash, the weekly student broadcast. Jeff has been an active member of the football and baseball teams. In December, Jeff made his theatrical debut in our production of The Odd Couple, which also traveled to Section 6AA One Act Play competition in January. Jeff will also appear in the upcoming production of Romanoff and Juliet. Congratulations to Kim and Jeff for this well-deserved honor.

Marketing Students Make Quite a Showing at District Career Development Conference

On February 5, 1999, twenty-three marketing students from Eastview High School headed off to the Maplewood Inn to compete in the 1999 District II DECA Career Development Conference. For the majority of them, this was their first experience ever competing in an event such as this. That evening, Eastview students returned to EVHS with 19 of them placing in the top 10 of their events and advancing to the state conference and 28 trophies and awards. This is a huge accomplishment for Eastview students, due to the fact that there are over 360 students who compete in the district competition. DECA is a co-curricular student organization for students interested in marketing, management and entrepreneurship. It allows students to apply what they have learned in the classroom to real-life marketing situations. Students compete in a variety of events that directly relate to their career objective using role-plays, tests, interview and speeches. The following students qualified for the state conference in one or more of their events: Ryan Kuklinski, Nick Jensen, Eric Hannenberger, Jennifer Brand, Deena Grotjohn, Emily Green, Stephanie Hansen, Jessica Shimeck, Stacy Tamble, Kjirsten Youngren, Andrea Hall, Julie Mendel, Bethany Maurer, Kelly Moore, Erica Johnson, Heidi Worrel, Erin Ronnestrand, Jennifer Schneewind and Dan Smith.

Looking Fine in '99

Tradition has been a buzzword around Eastview High School for the past year and a half. On March 16, 1999, Business and Marketing students from EVHS will begin a tradition of their own. Fashion Merchandising students have been busy planning and organizing the first annual EVHS spring fashion show. Students are responsible for all aspects of the show including staging, choreography, publicity, modeling and commentary. The theme for this year's show is "Looking Fine in '99" and is guaranteed to be a show you won't want to miss. The show will take place in the EVHS Performing Arts Center at 7:00 p.m. on March 16, 1999. So whether you'd like to check out the new spring fashions for '99 or see our Business and Marketing students at work, please join us on March 16, 1999 and be part of our tradition.

Winterfest '99

What is it with snow in the month of February, or should we say lack there of? The Eastview Student Council spent hours again this year planning Winterfest Activities for the week of February 8-13, but for the second year in a row, due to a lack of snow, many of the activities had to be cancelled. The following is a list of the planned activities for Winterfest '99.

Activity

Monday

Snow Tubing at Trapp Farm

Tuesday

Snow Fort Contest

Wednesday

Snow Football

Thursday

Games and Relays

Friday

Pepfest

Saturday

Dance

Dress Up Day

K108

K102

Disney Radio

Rock 100

Spirit Day

Student Council also broke into the Valentine's spirit during Winterfest week and took orders for balloons and candy, delivering them to first hour classes on Thursday. During the pepfest, the faculty regained the crown in the tug-of-war contest, beating the seniors with a unanimous decision. For the first time ever, EVHS had a live-band play for a portion of the dance on Saturday night. The Wiese Guys (Brandon Schultz, Andy Uzendowski, Charlie Wiese, Sam Cirese, Ashley Kjos, and Ben Stewart) entertained the audience from 9:30-10:30.

Marketing students pictured at left:

Back Row: Erin Ronnestrand, Heidi Worrel, Jennifer Brand, Tom Tan, Ryan Kuklinski and Eric Hanenberger.

Middle Row: Kjirsten Youngren, Andrea Hall, Leslie Armenta, Dan Smith, Stephanie Hansen, and Erica Johnson.

Front Row: Julie Mendel, Kelly Moore, Bethany Maurer, Prudy Nilchaikovit and Molly Greime.

Someone To Look Up To!

Eastview High School students are turning the tables on student life and taking a different approach to learning. In the Family and Consumer Science Department students involved in the Elementary Mentoring class are making a difference in the life of a Highland Elementary School child.

Students from EVHS are linked with a student or classroom at Highland Elementary and have the opportunity to learn and mentor in a hands-on learning environment. Through this class they get the opportunity to work with a student or group of students in an individualized setting that fosters a caring and supportive relationship.

Following a brief training period, students then spend the remainder of the quarter working at Highland. The high school student and elementary student meet daily to spend time working on classroom material, enrichment activities, and one-on-one interactions like reading and interpersonal communication skills. A portfolio and enrichment project is incorporated into both student's learning experience.

This program provides a valuable and unique experience for those interested in child related careers.

Perspectives on Parenting

**March 1, Wednesday
Reducing Family Stress
7:00 to 8:30 p.m.
EVHS Media Center**

Valley Middle School counselor, Linda Prince will give hints on how to recognize and deal with stress within our families. No family of the 90's is immune to the stresses of today's society. Linda's presentations are an excellent source of information and inspiration for all families. Bring your experiences, your ideas and your questions to learn more about Reducing Family Stress on Wednesday, March 18 from 7-8:30 in the EVHS Media Center.

Perspectives from the Principal

Academic Achievement at Eastview High School

We often speak about our emphasis on educating the "total student" at Eastview High School, with a strong focus on high expectations in the area of academics. We place a strong value on the intellect here at EVHS and we make it a priority to recognize the academic achievements of our young women and men.

Achievement in academics is something for which everyone should strive and the **ACADEMIC LETTER** has become a symbol of that achievement at EVHS. Students in grades 9-12 are awarded an academic letter based on the attainment of a specified grade point average (GPA) during a specified period of time. Students must meet **ONE** of the following criteria:

- a) Attainment of a **cumulative GPA** as follows (measured in April each year):

9th graders:	3.800 or higher
10th graders:	3.666 or higher
11th graders:	3.666 or higher
12th graders:	3.500 or higher

- b) **Four consecutive quarters** with a quarter GPA = 3.666 or higher (measured during any four consecutive quarters within or across grade levels).

Since last May, we have recognized 327 students as academic letter winners at Eastview High School. We will identify our next group of honorees immediately after quarter three grades are finalized in April, 1999. These individuals will be recognized at our annual Academic Awards Ceremony to be held in May.

We are proud of the work that our faculty and staff do with students to encourage and facilitate this kind of success. We are equally proud of the work that you parents do, as you have set the expectations early on and provided the needed support and encouragement. And, we are most proud of our student achievers. These young men and women are the all-important academic leaders at Eastview High School.

TO PARENTS OF 8th GRADERS:

You are receiving another edition of our EVHS newsletter at this time because home-school communication becomes extremely important as your children prepare to enter Eastview High School next fall. Be sure to discuss with your child the high academic expectations we set at EVHS. Encourage your child to make the most of the resources we have to offer and engage themselves in pursuing their potential over the next four years.

Sincerely,

Dr. J. Richard Dewey
Principal

Summer School 1999

Eastview High School will once again offer summer school opportunities for students who have failed one or two courses in the following areas: English, social studies, science, math and wellness. Specific times and dates will be announced in April. Student applications will also be available in the month of April. Keep your eyes open for announcements.

Strategies for Funding Your Children's Education

Mick Endersbe, Personal Financial Advisor with American Express Financial Advisors, will be presenting a 70-minute overview of funding strategies for a college education. You will learn about:

- How to make realistic plans for sending your children to college.
- Determine the "real" cost of college.
- How the Taxpayer Relief Act of 1997 could affect your family's college funding.
- Competing for scholarships and financial aid.
- Tax-favored saving vehicles. The rules on series for college Stock and bond mutual funds, zero-coupon bonds, universal life insurance, tax-deferred annuities, Educational IRA's and Roth IRA's.
- Creative college cost reduction strategies.
- Assets held in a child's name: Tax and gifting implications, which could work against you.

Mick has spoken on the topics of college planning and financial aid in over 20 states and has been featured in local, regional and national radio, television and print media. He is a specialist in helping parents pay for their children's education.

The **free** seminar will be held at Eastview High School on Monday, April 19, 1999 at 7:00 p.m. in the Eastview Student Commons.

Spring College Fair

The Post High School Planning Program will host its sixth annual Spring College Fair at Inver Hills and Normandale Community Colleges. Admission representatives from over 120 Midwest four-year colleges, two-year colleges, technical colleges as well as all branches of the armed forces will be available to answer questions.

April 20 Inver Hills Community College
6:00-8:00 p.m.

April 21 Normandale Community College
6:00-8:00 p.m.

This is a great opportunity for parents and students to receive college literature as well as discuss admission policies with admission counselors.

Girls' and Boys' State

Applications are now being accepted for high school juniors interested in attending either the Girls' or Boys' State Program sponsored by the American Legion and Legion Auxiliary.

Both programs will be held June 13-19. The girls' program is at Bethel College, and the boys' program at St. Olaf College in Northfield. This week is a practical training program in the operations of local and state government with an attempt to illustrate the principles of a democratic form of government. Students will be involved in numerous simulations to better learn how our government operates.

Interested students should rank in the top half of their class and should have demonstrated leadership skills both in school and the community. One boy and one girl will be selected to represent Eastview High School. Applications are available in the Guidance Office and **must be returned by Friday, March 26, 1999.**

Post High School Planning on the Internet

Fastweb: This is a free comprehensive *scholarship search* program. Students answer questions about themselves and the computer uses the information to search for scholarships for which they are eligible to apply. The database is extensive and is continuously updated. Students are given a "mailbox" to check periodically for new scholarships that have been added to their list. To get to the Fastweb site type: <http://www.studentservices.com/fastweb>

ACT's C3 Service: ACT has provided a suite of web-based admission services that allow students to *search for colleges* that meet their requirements, estimate *financial need*, and communicate with colleges and apply for admission electronically. In addition, C3 provides students direct access to the ACT website, which offers *online registration* for the ACT Assessment, *test preparation tips* and sample questions, information on how to order additional score reports, and much more. C3 website address is: <http://www.c3apply.org> The website is also available through ACT and CollegeNet websites at: <http://www.act.org> and <http://www.collegenet.com>

College Edge: This database allows students to *search for a career or a college* based on their individual preferences. This is also a great site for comparing or finding out information about specific colleges on topics such as: admission criteria test scores, cost of attendance, student life, majors, activities and more. To get to the College Edge site type: <http://www.colledgeedge.com>

Financial Aid: This site contains information on the *financial aid* process, loans, grants, work study, as well as discusses the common myths centered around financial aid and scholarships. Families can also estimate what colleges may expect them to contribute to their students' education. This is called the Expected Family Contribution (EFC) and is subtracted from the cost of the school to determine if the student qualifies for financial aid. The Financial Aid website address is: <http://www.finaid.org/>

Occupational Information: This site allows students access to extensive information about specific occupations. Students are able to enter titles of *occupations* and find out specific information such as: job descriptions, working conditions, current and future job outlook, training required, and earning potential. To get to the Occupational Information site type: <http://www.bls.gov/ocohome.htm>

U.S. News Online Colleges and Careers Center: This site provided by U.S. News & World Report provides their yearly ranking of "America's Best Colleges", tips on getting the most money for school, and information on studying abroad. The site address is: <http://www4.usnews.com/usnews/edu>

College Board Online: This site allows students to investigate *careers and college majors* using interests and skills inventories. Once these attributes are identified, the site has a customized search capability to help students make career choices and select an appropriate major for college study. Students can also search a database of U.S. colleges and universities using a variety of parameters to narrow the field. Students are also able to register on-line for SAT I and SAT II assessments as well as receive *test preparation* questions for the SAT. This site can be reached by typing: <http://www.collegeboard.org>

Cash For Your Education: This site is a free *financial aid* service containing thousands of private *scholarships*, grants, tuition waivers, internships, fellowships and loans. It will also assist the family with the financial aid process-from applying for Federal aid to determining your Expected Family Contribution (EFC) and applying for loans. The Cashe site may be reached by typing: <http://www.cashe.com> or <http://www.salliemae.com>

ScholarAid: This site is a free Internet based scholarship indexing service that matches students to national, state, and local sources of *scholarships and financial aid*. The ScholarAid site may be reached by typing: <http://www.scholaraid.com>

From the Nurse

Health is a major factor influencing related to your child's ability to successfully learn. Health encompasses physical, emotional, and spiritual aspects; each aspect is equally important.

All daily activities and choices influence health on some level. Sleep deprivation, poor food choices, inadequate activity, long work hours, stress, smoking, substance abuse, and skipping meals can attribute to feelings of ill health.

Many times students visit my office to help them cope with the consequences of making poor decisions regarding their health. An example may show a student who enters my office complaining of a headache. When I assess the child, I find the student went to bed late, skipped breakfast in order to sleep in and now feels crummy. Is the problem a headache? Or is it fatigue and hunger? Most likely the answer is fatigue and hunger. Will giving the child Tylenol for discomfort help? The answer to this question is no; the child needs to rest and eat. The most important question is, will this child be a successful learner today? The answer is, probably, no.

Just as the previous example shows poor choices can negatively influence health, good choices can positively influence health. Eating well, exercising, being well rested, avoiding substance use, keeping work hours down, and dealing effectively with stress can improve health and feelings of wellness. Studies have shown students who get a good night's rest and eat a good breakfast on the day of a test perform better than students who cram all night and go to the test tired. Studies have also shown eating breakfast improves student's test scores and grades.

Try this activity: change the circumstances revolving around the example student from above. Insert good choice where a poor choice has been made. Could this student have avoided a visit to the Nurse's Office if he had made better choices? Would the student be sitting in class acquiring the information needed for learning instead of being in the Nurse's Office? Would the student have a higher chance for successful learning? The answer to all these questions is yes. Fewer trips to the Nurse's Office increase the time your child is in the classroom interacting with the teacher. This increases the chance for academic success.

Each time a student visits my office, I assess them independently. I then try to explain how their activities are influencing their health positively and negatively. Finally, I try to teach them how they can alter their current behavior patterns to improve health. This is a very important skill for children to learn; it allows them to be actively involved in maintaining their health. Understanding this cycle also prevents children from being reactive health seekers (ie. taking Tylenol for a headache that is caused by fatigue).

Health promotion is the largest part of my job, and also my favorite. I enjoy working with children and teaching them about their health. Most students able to process the information I teach and utilize it to their advantage. You can become involved in health promotion, too. Work with your children to help them make wise choices regarding their health. With this action, you will be reinforcing healthy habits which will last a lifetime.

Parents Are Key (PAK)

Parents Are Key (PAK) held its general meeting on Monday, February 1. We had a great group of interested parents. We had a discussion on spring break options, pre and post Prom activities, graduation parties and summer '99. Kim Martinson, Kathleen Kohler, Kay Huhner and Mark Ertl were the administration and faculty representatives for our discussion.

Our next Board of Directors meeting is Monday, March 1 at 7:00 p.m. in the EVHS Media Center. We still could use parents ready to help, so any interested Eastview parents are welcome to attend. Please contact Terry Krivoruchka at 612-423-3901 for more information.

The Seven Habits of Highly Responsible Students

Many teachers and students would like to add the 4th R to the school day beyond the reading, 'riting and 'rithmetic—Responsibility. Responsible children grown up to be responsible adults. Although there is no one secret to the raising of highly responsible students, there are some simple habits that can make all children highly responsible. Responsible students:

- 1. Set goals:** Help your child focus on the future by talking about how she plan to improve her next math test, how he will improve his next report card, what she hopes to accomplish this school year or quarter.
- 2. Plan their time:** Use a calendar or EVHS planner to teach your child to organize time. Write down commitments and big project dates. Responsible people meet their obligations.
- 3. Study every day:** Have him set aside a time to study every day and remind him that he should 'assign" himself to study even when he has no homework.
- 4. Take notes in class:** Teach your child to take notes when the teacher is talking. Notetakers have learned that teacher will almost always spell out what they think is important. Spend time reviewing notes before a test.
- 5. Have the tools they need:** Always be prepared with the tools of learning (i.e. pencil, paper and textbooks).
- 6. Keep their commitments:** Doing assignments well and on time, sharing in a group project and going to practice or class even if they don't feel like it, show they are committed to learning.
- 7. Get ready ahead of time:** Teach her to prepare for school the night before. Starting the day without a crisis is a choice she can make every day.

Experts say that if people repeat an action for 21 days it becomes a habit. For the next 21 days encourage you child to act on the habits of highly responsible students. They'll soon find they do them without even thinking. And, they'll be more responsible and more successful in school as well.

Gymnastics

The Eastview Gymnastics team qualified for the State AA Gymnastics Meet by winning the section 2AA championships on Saturday, February 13 at Eastview High School. The team scored a school record 147.025 at the meet. The state meet has held at Wilkins Auditorium at the St. Paul RiverCentre. In addition, three student-athletes qualified for the individual tournament. **Sally Andrews**, 12th, **Carrie Hortsch**, 11th, **Breana Korsman**, 10th. **Sally** qualified on the beam and in all around. **Carrie** qualified on the vault where she was section 2AA champion, on the bars where she was also section 2AA champion, on the floor and in the all around (every exercise possible). **Breana** qualified for the state meet on the bars, beam, floor and in the all around exercises (every exercise possible). This is **Carrie** and **Breanna's** second year to compete in the state meet. Ms. Tifani Shaffer, Ms. Jody Syverson, Mr. Doug Beck, and Ms. Jennifer Larson coach these student-athletes.

Boys' Basketball

Congratulations to senior basketball player, **Jon Wagner**, for being named as one of the 20 finalists for the 1999 Mr. Basketball of Minnesota Award. The winner will be announced at a banquet on April 18th.

Dance Team

The Lightning Dance Team finished 1st overall at the Lake Conference Dance Team Championship at Lakeville High School on January 9th. The team finished 1st in the Jazz/Funk Division and 2nd in the High Kick Performance. They will compete in the State Dance Team meet at Williams Arena at the University of Minnesota on February 26 and 27. Ms. Kelli Foster, Ms. Ali Moon and Ms. Erin Sullivan coach the team.

Nordic Ski Team

Sophomore **Courtney Hugstad-Vaa** won the Section 1 Nordic Ski championship in the pursuit division on Wednesday February 3 at Murphy-Hanrehan Park in Prior Lake. This qualified her for the state meet at Giant's Ridge in Biwabik on Friday, February 12. She finished the meet in 11th place.

Alpine Ski Team

Sophomore **Heidi Lohman** qualified for the State Alpine Ski Meet in the Section 5 ski meet. The state meet was held on Friday, February 12 at Buck Hill in Burnsville. She finished the meet in 11th place. This was Heidi's second year as a competitor in the state alpine ski meet.

Competition Cheer Team

The Eastview Competition Cheerleaders placed fourth at the Minnesota Cheerleading Coaches Association state competition on Saturday, January 31, at Concordia College in St. Paul. The team competed in the Class AA large varsity division. Ms. Shannon Swanson coaches the team.

Figure Skating Team

The figure skating team will conclude their season with their annual ice follies on March 8th and 9th at the Apple Valley Sports Center at 7:30 p.m. The show this year is entitled "Skatin' Around the World". Ms. Stacy Ozburn coaches the team.

SPECIAL RECOGNITION FOR STUDENT-ATHLETES

We will recognize our individual all-conference, and all state honorees in the next issue of the Connections. We will also complete our wrap up of the winter sports.

DATES FOR SPRING SPORTS REGISTRATION IN THE ATHLETIC OFFICE

Spring sports registration will begin on **Monday, March 1st**. Registration must be completed before participating in spring sports practice or tryouts. Registration fees will be refunded in full if a student-athlete does not earn a spot on a team roster. Please see Joan Beckmann in the main office for more registration information or you may call her at 431-8904.
