

Multiple Measurements Rating (MMR) / Focus Rating (FR): Measures Proficiency, Growth, Achievement Gap Reduction and Graduation Rate

Multiple Measurement Rating (MMR)

- MMR measures student proficiency based on standardized test scores in reading and math and takes into account graduation rates and student performance growth.
- MMR considers how well a school is closing the achievement gap between middle-class whites and minority, low-income and special-needs students.

Focus Rating (FR)

- The FR concentrates on the performance of minority, low-income and special-needs students.
- The FR shows focused proficiency and achievement gap reduction.
- The FR is generated by combining the proficiency and growth of the seven subgroups for which there is an achievement gap (Black, Hispanic, Asian, American Indian, Free/Reduced Price Lunch, Special Education, and English Learners).

2015-2016 Results for Eastview High School

School Year	2016	2015	2014
AYP Proficiency	25.00	25.00	25.00

LAKEVILLE NORTH HIGH	52.13%	43.56%
NORTHFIELD SENIOR HIGH	49.91%	31.79%
MANKATO EAST SENIOR HIGH	43.33%	24.94%
FARMINGTON HIGH SCHOOL	41.82%	20.02%

Multiple Measurement Rating (MMR) Definitions

- **Proficiency** - AYP data is used and targets are based on reducing the number of non-proficient students in each student group by 50% by 2017.
- **Growth** - Expected student growth from year to year is measured.
- **Achievement Gap Reduction** - Focused on increasing growth in student groups to narrow the academic achievement gap.
- **Graduation** - All student groups are measured at a 90% expected graduation rate.
