Ninth Grade Programming

# **Eastview High School 2016-2017**

## **Ninth Grade Core Program**

***Educating our students to reach  
their full potential.***

## Program Description

We will make the transition into high school for our incoming 9<sup>th</sup> graders a positive and successful experience. Each 9<sup>th</sup> grader will be assigned to a team of teachers who will teach in the content areas of English/Language Arts and American Government.

Collectively, this team of teachers will build relationships with this group of students and their parents, and set the expectations and tone for their next four years at Eastview High School. Students and their parents can expect a challenging academic experience and rigorous curriculum. This team will teach additional skills to all of our 9<sup>th</sup> graders in such areas as study skills, decision making, goal setting, problem solving, conflict resolution, technology, and awareness of opportunities that are ahead at Eastview High School.

This team of teachers will also monitor student progress and provide timely feedback to parents and students. Developing this heightened awareness, building these important skills and monitoring progress will increase the success for all students at Eastview High School.

## Program Features

### 1. All students experience a successful transition to EVHS.

- ◆ connections with the school
- ◆ caring, nurturing environment
- ◆ success is the only option
- ◆ monitor and feedback
- ◆ reduce anonymity
- ◆ responsibility and accountability
- ◆ socialization
