Volleyball Camps for various age groups & skill levels

During the Eastview Volleyball Camps, the coaches strive to create a high-energy environment in order to make the best learning and playing environment possible for our campers.

This is intended to create and maintain the young athlete's interest in playing for the Eastview Lightning high school program in the future.

For our rookie players, we will be introducing basic volleyball skills, meet Eastview Volleyball Players, play introductory games, compete in mini volleyball matches, and most importantly, learn great sportsmanship skills important for every sport!

For those players who have a bit more experience, we still keep the energy

high and integrate our Eastview Volleyball Players into the camp, but implement more game strategy and concepts into the drills and competitions.

As a coaching staff, we love to be able to showcase the up & coming talent to see what the future holds!

There are a number of opportunities to continue playing after camp. Please visit www.evaasports.org for more information on the Fall & Spring In-House season (3rd-4th grade), the Fall Traveling season (5th-8th grade), and the Winter Club (Junior Olympic) season (5th-10th grade).

The High School season (9th-12th grade) begins on August 13th and runs through October.
