“At Eastview we believe that the home and school partnership is a significant variable in the formula of success for our students. Effective and efficient COMMUNICATION is the foundation of this partnership.”

Dear Eastview Families:

At Eastview we believe that the home and school partnership is a significant variable in the formula of success for our students. Effective and efficient communication is the foundation of this partnership.

The Parent Portal and an active parent e-mail account is a means to further promote educational excellence and to enhance communications with parents. Parents may view their own student's academic information from any internet connected computer. Please complete the form below to engage in the Parent Portal and receive e-mail communication from Eastview. Thank you for enhancing our ability to communicate with you.
