

## SCHOOL SUPPLIES AND CALCULATORS

**School Supply List:** Each classroom teacher will have different, though limited supply expectations. Simple notebooks, pens and pencils are the general expectation the initial beginning of school. Please see the following specifics and recommendations. See your teacher or counselor if there are financial challenges.

### Recommended Calculators for Mathematics:

#### **Intermediate Algebra and Geometry:**

A scientific calculator is needed for courses in Intermediate Algebra and Geometry. We recommend the TI-30X or TI-30X II (solar) or the TI-34 MV. We do not recommend the TI-30Xa.

#### **Algebra-2, CAPS, Pre-Calculus, Calculus, and AP Statistics:**

A graphing calculator is necessary for courses Algebra-2, CAPS, Pre-Calculus, Calculus, and Statistics. Texas Instruments makes several user friendly calculators. Because the TI-83 and TI-84 series calculators are used for classroom demonstrations and discussion, the Eastview Math Department strongly recommends these models to students. Due to lack of ease in use or missing applications, we do NOT recommend the TI-85 or TI-86. The TI-89, TI-92 and TI-Nspire CAS are not allowed on tests and college entrance exams and therefore are discouraged. The TI-89 is not allowed on the ACT Exam. Cell phone/iPad calculators are not allowed on any assessments.

If you have questions regarding calculators please contact Travis Lee (Math Department Leader) at [travis.lee@districtc196.org](mailto:travis.lee@districtc196.org)
